**Financial.**

Rumors are afloat around stock market and trading is confined to a few of selected securities.

Prospects of rain in Kansas and Nebraska cause decline in wheat, but market is steady, with July at $1.12¾.

### LORD BERESFORD LEFT FORTUNE

LONDON, May 13.—The will of Lady Charles Beresford, who died January 4, has been proved. The gross value of the estate is given as $966,000. Lady Beresford was Miss Lillian Warren Price, daughter of the late Commodore Price, U.S.N., of New York. She had only a life interest in the great part of her first husband, Louis [illegible]

AT HOME.

## HONORED BY SONS.

*Bishop Wright Is Proud Father.*

*Meeting of Famous Aeronauts and Aged Parent Touching.*

*Dayton in Joyous Celebration Over Conquests of Its Heroes.*

*Street in Front of Modest Home Filled With Toy Balloons.*

[BY DIRECT WIRE TO THE TIMES.]

DAYTON (O.), May 13.—[Exclusive Dispatch.] Unmindful of the firing of cannon, the screeching of whistles and the cheering of 5000 people, Orville and Wilbur Wright and their sister, Katherine, were welcomed home at noon today by one of the proudest fathers in the world. Touching was the greeting between gray-haired Bishop Wright and his two sons, who have startled the world with their conquest of the air.

Katherine was the first to see the aged father as he made his way down to where the party was alighting. He was leading Ivanette, the 5-year-old daughter of Lorin Wright, his other son.

"Oh, there's daddy," shouted Miss Wright, as she ran ahead of her brothers and threw her arms about him, kissing him again and again. Then Orville and Wilbur drew up and each embraced and kissed their father.

The old man's heart was too full of happiness for speech, and he pulled his broad felt hat down over his eyes to hide the tears that were starting. Wilbur's first greeting was to his little niece, Ivanette. Holding his overcoat and suit case in one hand, he grabbed up the little girl in the other and smothered her face with kisses. Then his father turned from Orville to him.

It was a trying moment, and Wilbur's eyes grew misty, but the cheering grew so loud that their words were drowned, and the next moment Wilbur wore that broad smile so frequently seen in newspaper pictures.

PATH OF FLOWERS.

Close personal friends of the boys and lifelong neighbors pushed forward and stopped the procession to grasp their hands. Beautiful bouquets were thrust upon them and their path leading to the carriages was strewn with carnations. As the carriages drew within a block of the Wright home, which is a modest frame dwelling, a gay sight met their eyes. Hundreds of bright-colored toy balloons were bobbing back and forth in the trees along the street, and other decorations made the place look like a real fairyland.

Tonight almost every resident of the West Side, where the Wright home is located, turned out for a special celebration arranged by the leading residents of that section of the city and hundreds from other sections of the city also came. The streets for several blocks were literally black with people.

When asked if he or his brother would make a flight here during the big celebration, June 17 and 18, Wilbur Wright declared that no arrangements have yet been made. However, it is generally believed by those in charge of the affair that they will consent to do so when a formal request is made.

AEROPLANE TO DEVELOP.

As soon as the inventors could leave their home, they hurried to their shop, where they inspected the work already done on several machines now being built.

Wilbur Wright said: "The possibilities of the aeroplanes are many, but not yet fully determined. This much is certain, however: The manipulation of the machine is simple and can be mastered by anyone in a few lessons. An altitude of a mile above the earth is entirely practicable, and as safe as a few hundred feet. The machines as we have been using them embrace little more or less than the mere basic principle, but we are improving each aeroplane more or less over the preceding one built and predict that the process of development will be fully as rapid as that of the automobile."

## BIG AERODROME NEAR WASHINGTON.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, May 13.—The United States army is to have an aëronautic field near Washington which will rival the aërodrome at Berlin and that at Issy les Moulineaux, near Paris, where many famous aviators have startled the world with their performances.

Gen. James Allen, chief signal officer, U.S.A., in discussing the plans of the signal corps, said tonight that such a field would be procured.

The Fort Myer grounds are not considered safe or large enough for experimental work and for teaching aviation.

The Wright brothers are desirous of having a better place to teach two army officers in accordance with their contract with the government.

Gen. Allen said the Wrights are expected early in June and will have until June 25 to complete their official trials, which were brought to a sudden termination by the accident on September 17 last.

## SUMMERTIME HITS MARS.

**At Least Prof. Lowell Sees Rifts in Snow Banks at South Pole.**

[ASSOCIATED PRESS NIGHT REPORT.]

BOSTON, May 13.—Rifts in the south polar cap of Mars were reported today by Prof. Percival Lowell, from his observatory at Flagstaff, Ariz.

Prof. Lowell said that two rifts were observed, one in longitude 350 and the other in longitude 240.

The phenomenon is a repetition of one observed previously. The former phenomenon was followed by the disappearance of the entire cap, which is believed to be of snow.

MORE GOLD.

## FINDS NEVADA MOTHER LODE.

RICH STRIKE KEPT SECRET UNTIL ALL LOCATED.

**Barney Snow, Backed by Moffat's Son-in-Law, Gets Location of Immense Value at Sugar Loaf Mountain, Ore Averaging Over One Hundred Dollars.**

[BY DIRECT WIRE TO THE TIMES.]

GOLDFIELD (Nev.) May 13.—[Exclusive Dispatch.] Twenty-three miles east of Tonopah, at Sugar Loaf Mountain, Barney Snow, who is backed by J. C. McClurg, the son-in-law of David H. Moffat, the Denver millionaire, has discovered what he claims is the mother lode of the entire Southern Nevada country.

The news has been kept quiet for two months, while the parties interested located over ten miles of the surrounding country. All along the main ledge the walls are as perpendicular as a plumb line. It is a contact ledge, granite on one side and porphyry on the other.

The values are said to average better than $100 per ton, and the gold predominates so strongly that in one assay of $700 there were only two ounces of silver.

The rock is full of free gold visible to the eye, and the announcement of the find caused a stampede from the new camp of Helena, one dance-hall man removing with his house, bar and hall. There is no room for locators, as nothing worth having has been left without monuments.

TURKEY WILL SETTLE.

**To Adjust Claims Arising from Declaration of Bulgarian Independence. Tacoma Arrives.**

[ASSOCIATED PRESS NIGHT REPORT.]

CONSTANTINOPLE, May 13.—The Chamber of Deputies, by a vote of 121 to 34, at a secret session today, approved the Turko-Bulgarian protocol, settling all claims arising from the proclamation of Bulgaria's independence.

The chamber also elected two deputies, a Moslem and a Christian, to take part in the inquiry into the Adana massacres.

The Sultan has accepted the honorary presidency of the American Relief Committee of Adana.

SAFETY FOR AMERICANS.

[ASSOCIATED PRESS NIGHT REPORT.]

ALEXANDRETTA (Asiatic Turkey) May 12.—The United States revenue cutter Tacoma arrived here today for the protection of American interests. The Tacoma is the first American ship to appear in Turkish waters since the beginning of the massacres and disorders in Asiatic Turkey.

GIRLS MADE SLAVES.

[ASSOCIATED PRESS NIGHT REPORT.]

MARASH (Asiatic Turkey) Monday, May 12.—Distressing accounts continue to arrive here from the countryside of Armenian villages assailed by bands of Mohammedans who, acting on the supposition that the Armenians were rising against the government, were quick to strike the first blow. Men were killed whenever found within reach of knife or bullet. The girls were often maltreated and some of them were carried off to become the wives or slaves of rich men. Houses were sacked and burned, farm animals were driven off and small parties of horsemen rode through the country "cleaning up the Armenians."

The entire population of Brechkeuy, 2000 souls, moved to the Zeitoon region for safety. In other towns, notably Yanksoun, where the Armenians were well supplied with rifles, they fought day and night and kept off the besiegers. There are probably 14,000 refugees in Marash.

YOUNG TURK IN TROUGLE.

[ASSOCIATED PRESS NIGHT REPORT.]

COLOGNE, May 13.—The Koelnische Zeitung today publishes a dispatch from Salonika saying the Young Turk officers at Erzeroum, Asiatic Turkey, have sent a telegram to the local officers of the Committee of Union and Progress declaring their soldiers are refusing obedience and demanding the restoration of the Sheriat and at the same time threatening a general massacre. The message begs Schefket Pasha to send representatives to quiet the troops and people and concludes with the statement that the Young Turks officers do not dare to show themselves.

LOS ANGELES BANKS.

WASHINGTON, May 13.—[Exclusive Dispatch.] The following abstract of reports was made to the Comptroller of the Currency, showing the condition of the national banks in Los Angeles at the close of business on the 28th day of April:

Resources, loans and discounts, $31,628,162.

Lawful money reserve in bank, $6,250,007.

Legal tenders, notes, $7,882,102.

Liabilities, individual deposits, $23,628,116.

Percentage of legal reserve to deposits, 32.44.

VICTORY.

## STRIKERS REBUKED.

*Defiant in Face of Public Feeling.*

*Chamber of Deputies Emphatically Indorses Government's Policy.*

*Declares Employees of Postal Department Have no Right to Go Out.*

*Turbulent Session of Parliament Precipitated by Socialists.*

[ASSOCIATED PRESS NIGHT REPORT.]

PARIS, May 13.—A turbulent session of the Chamber of Deputies today ended in another signal victory for Premier Clemenceau, when the government's policy with regard to the postal strike was emphatically indorsed by a vote of 454 to 59, including also the government's insistence that the postal employés and other functionaries have no right to strike.

Immediately afterward the chamber passed a vote of general confidence in the government, 365 to 75.

The strikers received the chamber's rebuke with a shrug of the shoulders, declaring it only served to bind closer their forces, which would soon startle the country by a big increase and a rapid extension of the general movement.

On the other hand, it is intimated the government has other plans in view to offset any serious growth of the strike.

SENTIMENT WEAKENS.

Up to midnight there was no change in the situation. If anything, it was in the direction of a weakening of the strike sentiment. The general conviction is that if the movement does not make vast strides tomorrow, it is almost certain of complete failure.

M. Barthou, Minister of Public Works, Posts and Telegraphs, asserted during the debate that only 2367 out of 24,205 postal employés in Paris and the Department of the Seine are out, and that conditions in the provinces were even better.

Premier Clemenceau coolly concluded the exciting session with the statement that it was a case merely where France must choose between revolution on the one hand and progressive evolution on the other, or between work under republican law and order, and a spirit of adventure calculated to disorganize and rend the republic.

RIOTOUS SCENES.

M. Sembat and M. Jaures, socialists, warmly defended the stand taken by the postmen, and the latter declared that the trouble which had begun would not end until the functionaries were possessed of the same "syndicate" rights as private workmen. He charged that for years a parliamentary majority had encouraged "syndicatelsm," and he pointed out that the Swedish government had just concluded a five-year contract with the employés of the state-controlled railroads.

M. Combrouse, radical Republican, virtually charged the socialists with being the tools of the reactionaries. He declared specifically that M. Morel owed his seat to the Duke d'Uses. Instantly the chamber was in an uproar. M. Morel tried in vain to make his voice heard above the clamor, and M. Brisson, president of the chamber, clasped his hat on his head as a sign that the session was closed.

SOCIALISTS SING.

The tumult, however, continued. One of the delegates bounded over the presidential chair, grabbed the bell and rang furiously. Then the socialists began singing the "Internationale," to which M. Beaudry D'Asson and his Royalist colleagues, standing on chairs, replied by singing "Vive Henry IV." Finally the public and the press galleries were cleared, but there was frantic delirium both inside and outside of the chamber.

M. D'Asson climbed to the tribune and with the socialists shouting and singing, he tried to address the deputies. Outside in the corridors several persons who raised the cry, "Vive le Roi," were almost mobbed.

Premier Clemenceau and the ministers remained on their benches. At first it was apparent that they were amused but later they grew indignant.

The sergeant-at-arms ejected M. D'Asson, and closed the steps of the tribune.

After an hour's intermission the session was resumed.

ANTI-TREATING SALOON.

**Des Moines Grants Permit and Bartenders Will Urge Temperance Drinks.**

[ASSOCIATED PRESS NIGHT REPORT.]

DES MOINES, May 13.—The first anti-treating saloon in the United States will be opened here, May 22.

Permit to open was granted tonight to A. S. Kirkhart of Des Moines, who controls fifteen local saloons. Kirkhart declares treating will not be tolerated.

The bartenders will induce drinkers to accept a substitute for liquor in the form of buttermilk, sweet milk, tea, coffee and other soft drinks. The liquor habit will be discouraged as far as possible.

PRESIDENT TUCKER OUT.

HANOVER (N. H.) May 13.—President W. J. Tucker of Dartmouth College, it was announced today, will complete his official work with the close of the academic year, June 15.

FAIR CHAMPION OF INTERNATIONAL MARRIAGES.

Countess Szechenyi.

formerly Miss Gladys Vanderbilt, who yesterday declared foreign husbands were kind and loving. She is sorry her friend, Miss Elkins, is not to wed Duke of the Abruzzi.

SOME EXCEPTIONS.

## COUNTESS SZECHENYI FAVORS TITLED MATCH.

*Former Gladys Vanderbilt Says American Girls Find Foreign Husbands Kind and Loving—Fortune Hunters an Exception.*

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, May 13.—[Exclusive Dispatch.] Countess Szechenyi is an enthusiastic defender of the international wedding. Speaking on that subject the former Gladys Vanderbilt today expressed keen regret that the match between her friend, Katherine Elkins, and the Duke d'Abruzzi had been broken off.

"That would have been an ideal match," she said. "Miss Elkins is not only rich and beautiful, but a brilliant and most lovable girl, while the Duke is a splendid fellow, possessed of great ability and unusual talents. It would not have been a marriage for money—any more than mine was," and she cast another fond look at her husband, which was answered in kind.

"The Duke is very wealthy himself and does not need any American money," she continued. "My husband is also a very rich man, owning large estates in Hungary, and ours was a love match, pure and simple. I am as happy as any wife in the world.

"No husband could be kinder or more loving than mine, and when you love what difference does nationality make?"

"It is nothing strange that daughters of our wealthy families wed foreign noblemen. They usually pass a large part of their time abroad, after they are out of school, and there they meet men belonging to noble families, who are leaders in society, and the most of whom are men of great fascination. These men, by their personal charm, distinction, refinement and courtesy win the hearts of many American girls. Some of them may be fortune hunters, but the most of them are not, and the majority of such alliances, I believe, are happy."

UNIVERSITY OF THE PACIFIC.

## TEACHERS DROPPED; STUDENTS WOULD QUIT.

[BY DIRECT WIRE TO THE TIMES.]

SAN JOSE, May 13.—[Exclusive Dispatch.] The wholesale dismissal of professors and teachers at the University of the Pacific, the big Methodist college here, preliminary to a complete reorganization of the faculty, has brought about dissatisfaction among the students which threatens serious consequences.

Four heads have already fallen, and still, it is said, the ax is not weary. At least two more members of the faculty are to be retired in the near future.

The discharged professors have been connected with the institution for many years and they have a very strong following among the students, who feel that their dismissal is a grave mistake. Among the older and more influential members of the student body there is a feeling bordering on revolt, any many have declared their intention to complete their work elsewhere.

It was stated on the campus today that nearly half the students in the college proper would leave, while among the members of the academy the desertions would be less.

## "THE TIMES" NINTH SCHOLARSHIP RACE.

That most successful of all educational competitions, The Times Scholarship Contest, will soon open for the summer season of 1909.

It will be the ninth annual contest for scholarships conducted by The Times and will appeal to enterprising boys and girls who want something more helpful to them in their struggle with the world than a theater ticket or an excursion.

The principal prizes will be free opportunities for an education. The scholarships and cash awards, to assist the students, will be more attractive and liberal than ever.

Inquiries received by The Times in advance of any announcement show the great interest felt in these opportunities by struggling boys and girls. To these earnest inquirers The Times will say that the contest will surely be opened and they will have a chance to compete for the greatest asset that can be placed within the grasp of youth—an education. Full details will be announced at an early date.

Winners in past years, who have completed school courses successfully and are now holding remunerative positions, are, as usual, greatly interested and will aid the racers of 1909.

METHOD IN HER MADNESS.

## MRS. GLYN AGAIN.

*Authoress Stirs Up Chicago.*

*Women Say She Took Description of Mansion from Her Hotel.*

*Couldn't Talk About Best of City's Homes as She Never Saw Them.*

*Her Disapproval Is Regarded by Another as Quite a Compliment.*

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, May 13.—[Exclusive Dispatch.] "Indeed, Mrs. Elinor Glyn can refer to none of our good homes when she describes 'the Chicago mansion' in her latest book, because she was not received in any of our good homes when she was here."

Thus spoke a woman who knew, today. Now will Elinor Glyn be good?

If Mrs. Glyn herself is taking seriously her own descriptions of Americans in her recent novel no one is following her lead. At least that is true in Chicago. Indeed, in some circles the men of Chicago found no little sport in "cataloguing" themselves and endeavoring to decide whether they belonged in the "auntie" or "grandmother" class. As to the women, the remark above recorded gave the opinion of one.

Said another:

"I chanced to be staying at the Annex for a time while Mrs. Glyn and her party were there. The whole party was so loud that I became interested in watching their movements. She was not received or visited by our best people; in fact, her callers were of that second class—in appearance—the kind of people met frequently on trains. Certain it is she did not describe one of our homes in Chicago when she pictured 'The Mansion?'"

HOTEL ALL SHE SAW.

"I am more inclined to think Mrs. Glyn's memory referred to the Pompeian room at the Annex than to a private residence when she described the 'mansion,'" said another, laughingly. "You know, she stayed at the Annex, and if I remember rightly one of the interviews at the time of her visit a year ago was to the effect that she enjoyed watching the folks who came to and went from this room."

"I am quite sure," said another, "the author of 'Three Weeks' disappoves of us, we should feel quite complimented, don't you think?" sweetly. "As to our men—well, they please us all right, so why care about Mrs. Glyn's opinion?"

Therefore Mrs. Glyn has left a wake of amusement in Chicago.

Whatever the sentiment, however, Mrs. Glyn's "Chicago Mansion" is a thing of remarkable imagination if not of beauty. Evidently it is composite. Her first visit to Chicago was short. She was not received by Chicagoans of prominence and if private entertainments of importance were given in her honor they did not find their ways into the papers—a little matter Mrs. Glyn seldom overlooks.

COWBOY HER HERO.

Her second visit to Chicago was on her return from the West, and was even shorter than the first. The only thing which characterized either visit was the trip to the Wild West show when she became fascinated with Zach Miller, the famous cowboy whom she described as "the handsomest man" she had "ever seen." But Zach lived at the Wild West show, not in a "Chicago mansion," so it was no his home which came in for description.

"O, it is all very funny," said Mrs. Millward Adams. "Yes, I saw Mrs. Glyn when she was here. I live at the Annex, you know. I do not know of her having been received by any of our representative people.

"Just to show you what a real gentleman thinks of us, I met Hopkinson Smith when I was in New York not long ago and this is what he had to say:

"'In no other city in the world have I met with the individuality displayed by Chicago hostesses.'"

UNEASY AT LISBON.

**Government Is Making Political Arrests, Searching Houses and Taking Severe Measures.**

[ASSOCIATED PRESS NIGHT REPORT.]

LISBON, May 13.—Much uneasiness has been created here by the fact that during the last few days the government has made a number of political arrests, searched the houses of various suspects and adopted other precautionary measures.

The authorities maintain the greatest reticence concerning these measures, which are variously attributed to the discovery of a plot or the fear of a big republican demonstration to take advantage of the present political anarchy in Parliament. The local garrison is constantly under arms.

STEAMSHIP IN ICE.

MONTREAL, May 13.—The Allan line steamship Tunisian, Liverpool for Montreal, was reported by wireless this afternoon as in the ice off Cape Race, sixty miles from St. John, N. F. One of the plates in her bow has been started and the ship was taking some water. Capt. Fairfull said he

HER OWN WAY.

# EAMES SUIT IS DISMISSED.

*inger Recovers Personal Effects Abroad.*

*ulian Story Gives Up House Furnishings.*

*rticles in Dispute Estimated at Big Sum.*

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, May 13.—[Exclusive Dispatch.] The last link connecting the name of Emma Eames with that of her former husband was broken today when Supreme Court Justice Davis signed an order permitting the attorneys to discontinue a suit entitled "Emma Eames versus Julian V. Story," which had been pending for more than a year.

The suit had to do with a quantity of household effects belonging to the singer which she alleged her artist-husband had refused to turn over to her when they separated. While the divorce suit which she brought in Westchester county in 1907 was pending it was agreed, Mme. Eames declared, that he would deliver her personal effects at his house, No. 7 Place des Etats Unis, Paris, and at Vallombrosa, Italy, on the understanding that she was to remove them. Through some hitch she never obtained possession of them and after the divorce decree was signed in her favor she began an action to recover them. The list of goods she sued for included paintings, a grand piano, many pictures, rugs, books, furniture and bric-a-brac.

The suit hung fire for a long time. Story claimed as his some of the articles demanded by Mme. Eames, and disputed the value, $20,000, which was placed on the lot. But through the efforts of Mme. Eames's counsel, a division satisfactory to both sides was reached and Mme. Eames is now in possession of virtually everything she sued for.

STOCK-SELLING.

# RIZONA FRAUD TRIAL NEAR END.

VERNMENT CLOSES MINE CASE IN KANSAS CITY.

Phoenix Newspaper Man Tells of Having Received Pay for Glowing Descriptions of Two Queens Property—Defendants Accused of Using Mail to Sell Bad Stock.

[ASSOCIATED PRESS NIGHT REPORT.]

KANSAS CITY (Mo.) May 13.—The government closed its case against the Lyon brothers, Raymond P. May and H. Snyder, late today, charged with using the mails to defraud in connection with the sale of the Two Queens mining stock in Arizona.

Former Judge Krum, attorney for the defendants, moved later to quash the indictments against all the men except Frank Horn, but was overruled.

Frank Desousa, connected with a Phoenix (Ariz.) newspaper, testified that he had been paid $96 by the defendants in return for publishing glowing descriptions of the Two Queens.

Dr. W. W. Lewis, a mining engineer of Prescott, Ariz., who examined the property of the Two Queens mine before the property was developed, testified that samples of ore which he found in the property justified an investigation, but that the development of the mine only showed discouraging results. He said the mechanical work of development was of a high order, but that much of the work done was ill-advised. Robert L. Hetherington, an assayer of Prescott, who assayed the ore from the mine, testified as to the value of the ore submitted to him.

WOMAN KEEPS SECRET.

Beautiful and Fashionably-Gowned, She Is Arrested With Negro and White Companion.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, May 13.—[Exclusive Dispatch.] Municipal Judge Blake and the police today attempted to learn the identity of a beautiful, fashionably-gowned woman giving the name of "Minnie Jones," which she admitted was an alias, who was arrested in a house at State and Twenty-fifth streets with two companions and arraigned in court.

The woman, when arrested, stated that her present place of residence was 1355 Sheridan Road. A man giving the name of Norris, over the telephone at the address given by the woman, denied he knew her or that she was a relative of his, as she had told the police.

Every effort on the part of the court to discover the woman's identity failed and the judge finally continued the case until tomorrow morning, pending further investigation.

"I will not tell my last name," said the woman. "I was married recently and my home is in Los Angeles. I came to Chicago several weeks ago, and there was no reason for my arrest last night."

Even in the company of the woman at the time of her arrest were a negro man and a white woman. "Mrs. Jones," denied that she had ever seen the others until all three were arrested by the police.

TO INVESTIGATE COAL LANDS.

Wickersham Asks That Denver Grand Jury Be Held to Take Up Matter.

[ASSOCIATED PRESS NIGHT REPORT.]

DENVER, May 13.—A special investigation of coal lands in Colorado has been ordered by Atty.-Gen. Wickersham, who, it was stated today, sent United States District-Attorney Thomas Ward, Jr., a telegram requesting him to hold the Federal grand jury for ten days in order to go into the matter.

The Times, which is authority for the above, says also that M. D. McGarry, chief of the field division of the General Land Office, has been working on the case for months and that an investigation will involve one of the biggest producing companies in the State.

CRIME OF THE PLAINS.

# PRISONERS CONFESS SHEEP MEN'S MURDER.

[ASSOCIATED PRESS NIGHT REPORT.]

SHERIDAN (Wyo.) May 13.—The State has complete confession from two of the seven prisoners confined in the County Jail here in connection with the murder of three sheep men in a raid upon their camp near Basin, Wyo., in the Big Horn country, about six weeks ago.

The officers refuse to divulge the identity of the two men making confessions, but their act in removing Albert E. Keyes and Charles Ferris from the jail at Basin to this city, where they arrived yesterday, is considered significant in view of the statement that the safety of the two men had been threatened by the five other prisoners at Basin.

The suspects in the Basin jail are George Saban, M. A. Alexander, Herbert Brink, Edward Eaton and Thomas Dickson. All the men were recently indicted by the grand jury in Big Horn county on three counts each, charging murder.

Judge C. H. Parmelee has announced his intention of giving the seven men an early trial and says that he will call a special term of the District Court at Basin for the purpose. Keyes and Ferris will be kept in the jail here until the trial.

Rewards aggregating $5500 have been offered for the conviction of the slayers of the sheep men, by the National Wool Growers' Association, the Wyoming State Wool Growers' Association, the State and the county.

UP AND DOWN THE VALLEY.

# PITH OF NEWS FROM THE MIDDLE WEST.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, May 13.—[Exclusive Dispatch.] With the exception of the thunderstorm accompaniment, today's weather responded to the weather man's predictions, for the mercury continued its upward journey. The maximum temperature was 78, and the minimum 51 deg. Middle West temperatures:

"RAT" SAVES HER LIFE.

[ASSOCIATED PRESS DAY REPORT.]

JACKSON (Mich.) May 13.—A large "rat" in her hair saved the life of Mrs. Richard Frost in an automobile accident here today. Mrs. Frost and her baby were both thrown from the machine when it collided with a telephone pole. Mrs. Frost struck on her head with such force that hairpins were driven into her scalp. At the hospital the surgeons who attended her said the "rat" saved her head from being crushed. The baby was injured about the head.

MILLIONAIRE'S RENUNCIATION.

[ASSOCIATED PRESS DAY REPORT.]

LOUISVILLE (Ky.) May 13.—When Joshua Severing of Bathmore today called to order the first regular session of the Southern Baptist Convention, he faced 5000 delegates. The sensation of the convention so far was the announcement to the laymen last night by Joseph N. Schenstone, millionaire manufacturer of Toronto, Ontario, that he would keep of his large fortune only enough for his future living expenses.

POISONED BY BLOTTER.

[ASSOCIATED PRESS DAY REPORT.]

CHICAGO, May 13.—Abraham Merinbaum, the pardon clerk in Mayor Busse's office, is sounding a warning against the use of blue blotters. Danger of blood poisoning exists from the use of the chemicals in preparing them, he says, and in support of his contention shows an infected finger, which prevents his writing. Dr. Mowry, who attended him, declares cases of blood poisoning from colored blotters are frequent.

KILLED ON COUNTY LINE.

[ASSOCIATED PRESS DAY REPORT.]

BROOKLYN (Ill.) May 13.—Neal Harris, a negro, is held in Madison county jail here in connection with the killing of Charles Cheatham, over a game of craps, and it has not been decided whether Madison county or St. Clair county will prosecute. The men were throwing dice, with the county line between them, so the approach of officers from either direction would enable them to transfer their operations to the unrepresented county. The Madison county coroner viewed Cheatham's body, which had fallen into St. Clair county, and refused responsibility. The St. Clair county coroner said the negro was in Madison county and the case should be handled by Madison county.

BACON IS MYSTERY.

[ASSOCIATED PRESS DAY REPORT.]

CHICAGO, May 13.—Hyde Park, for a brief hour, was filled with the expectation of an unusual murder mystery. A peculiarly unpleasant odor which assailed the nostrils of John Welbert, baggagemaster at the Illinois Central depot, was discovered to emanate from a trunk, which had lain ten days unclaimed in the baggage room. Satisfied the trunk contained a body, he called the police. After a collection of old hats, shoes and souvenirs had been removed, a side of bacon was found to be the cause of the thrill.

THINK HE'LL SAVE BROKERS.

[ASSOCIATED PRESS DAY REPORT.]

CHICAGO, May 13.—Chicago bankers and brokers are as susceptible to the influences of the gospel as are the men of the financial district of New York, and maybe as readily reached by the message, provided it be presented in an acceptable form, according to the Rev. Arthur J. Smith of New York, in an address delivered by him before the third annual conference on summer evangelism and open-air work in session at the Moody Church. Dr. Smith has for the last two years been engaged in conducting evangelistic meetings in the crowded sections of New York. In the meetings held in Wall Street he was strongly supported by the financial men of that district. "The men of Wall Street are glad to hear the gospel message," said Dr. Smith. "I have often seen men whose names are all-powerful in the financial councils of the world, stop for a moment at the edge of the crowd around the preacher and listen with rapt attention to the gospel message. Some of these men are our best supporters and have aided us season after season in our work."

SHOWERED WITH GOLD.

Audience at Opera Performance in Old Ore House Bring Down Fortune from Cracks.

[ASSOCIATED PRESS DAY REPORT.]

CANANEA (Mex.) May 13.—According to assayers and others of a mathematical turn of mind, the atmosphere in the building used here Monday night as a theater was worth nearly $10,000. A traveling Italian opera company was billed for a performance, and an old ore house, the largest building in town, was fitted up for the show. Before the performance was over the stamping of feet by the people in the audience had set the gold dust flying from the cracks and crevices of the old ore house. The gold-laden dust was so thick it made people sneeze. Assayers estimate that people attending the performance could have washed enough gold from their clothing after the dust settled to pay the cost of their tickets.

RAILWAY RECORD.

# LEGISLATURES MENACE ROADS.

*Western Lines' Only Fear Is Meddling Politicians.*

*President Ripley of Santa Fe Scores Texas.*

*Laws of That State Example of Interference.*

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, May 13.—[Exclusive Dispatch.] "The railroads of the West have but one thing to fear, meddlesome and malicious interference in the conduct of their business by Legislatures and commissions having no interest in the property and no knowledge of railroad matters; elected, not to do justice, but for the sole purpose of getting as much as possible out of the corporations in increased service and reduced rates."

This statement was today made by E. P. Ripley, president of the Santa Fé road, on his return from a comprehensive trip over the system's lines in nearly every State in which the company has rails. Mr. Ripley was giving his views as to the future of western railroads, and was discussing the recent acts of several of the Western State Legislatures and State commissions.

In Texas, for example, where there is an urgent commercial need for at least 10,000 additional miles of trackage, and in which State the railroads had determined to do more building this year than in any other State, the commission has recently imposed numerous conditions which, it is claimed, make increased construction undesirable from an investment viewpoint.

For example, the railroads of Texas must have their cars repaired within the State, no matter what the operating necessity may be, and, according to Mr. Ripley and other railroad men, the commission displays no desire to encourage the extensions of transportation facilities in that State. There are other Western States where the same disposition is manifest.

Regarding business conditions in the West, Mr. Ripley said. "The western country is prosperous beyond all precedent, as far as agriculture and the agriculturist are concerned."

CALLS FOR BREAKFAST.

NEW TRAIN FEATURE.

[ASSOCIATED PRESS DAY REPORT.]

CHICAGO, May 13.—A novel innovation has been installed on the Illinois Central Railroad. Sleeping car passengers are no longer to be disturbed by calls for meals in the dining car. Under the new rule, the passenger leaves a call if breakfast is desired, the same as is customary in hotels, and the sleeping-car conductor will see they are awakened at the time indicated.

Two objects are represented in this innovation. The morning nap of passengers is not interfered with, and a rush to the dining car, causing inconvenience to all concerned, is prevented.

PLANTING TIES.

PROVIDING FOR FUTURE.

[ASSOCIATED PRESS DAY REPORT.]

CHICAGO, May 13.—To provide for future requirements in timber and cross ties, the Pennsylvania Railroad will this spring execute the largest forestry plan ever undertaken by a private corporation. More than 1,000,000 trees will be planted, making a total of 3,430,000 set out during the last three years.

In addition to their own activities the Pennsylvania road has followed the policy of encouraging reforestation, on the part of the public. Some 151,000 trees, and 8000 private hedge plants have been furnished, practically at cost, to private corporations and individuals.

Other railroads are said to be contemplating a similar plan to that of the Pennsylvania to protect themselves against the constant diminution in the timber supply.

AUTOMATIC FIREMAN.

TESTED BY ALTON.

[ASSOCIATED PRESS DAY REPORT.]

CHICAGO, May 13.—The Alton Railroad has recently conducted a series of tests of an automatic stoker. On a train of fifty loaded freight cars, hauled from Chicago to St. Louis, all records are said to have been broken for long-distance firing.

The value of the stoker under test is said by railroad officials to rest in the fact that it gives a uniform distribution of coal in the firebox, resulting in an even heat to all parts of the boiler, and a substantial saving in fuel.

It is said for this new improvement, by its use the engine fireman is practically made into an "assistant engineer," giving him more time to watch signals, and giving a greater safety to the traveling public.

EXHAUSTIVE INQUIRY.

# MERGER CASE COMING HERE.

HARRIMAN HEARING AT SAN FRANCISCO IS CLOSED.

Commission Will Convene Next in Los Angeles on Saturday Morning. John W. Chapman Complains of Poor Service and Water Damage on Pacific Mail Line.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, May 13.—[Exclusive Dispatch.] The railroad merger investigation was closed today so far as this city was concerned. One witness only was examined, after which Attorney Severance offered in evidence a copy of the testimony given by E. H. Harriman in the case of the State of Minnesota vs. the Northern Securities Company on November 24, 1902.

The next meeting of the commission will take place in Los Angeles, Saturday, May 15, at 10 o'clock, when Thomas E. Gibbon, former attorney for the San Pedro, Los Angeles and Salt Lake road, will be examined.

John W. Chapman, manager of the traffic department of the Pacific Hardware and Steel Works, was the only witness examined today. He found the steamer of the American-Hawaiian line more commodious than those of the Pacific Mail, and fully equipped with appliances for handling heavy pieces of freight, which the steamers of the Pacific Mail company were unable to handle. His firm suffered some loss recently to cargoes on Pacific Mail steamers owing to the damage by salt water, the steamers having sprung a leak in rough water. He further said that these leaks had become a common phenomenon recently on that line.

LESS FREIGHT, FEWER DEATHS.

BIG DECREASE IN FATALITIES.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, May 13.—[Exclusive Dispatch.] Not since the business prostration of 1895 and 1896 has travel on American railroads been so safe as it was during 1908. In a pamphlet issued by the Bureau of Railway News and Staff, it is stated that there were 1932 fewer fatalities to passengers and employés in railway accidents during 1908 than there were during 1907, which is a decrease of approximately 40 per cent.

The greatest decrease was in fatalities resulting from train accidents, and the following conclusion is drawn: "All things considered the conclusion is unavoidable that the diminution in fatalities was due almost entirely to the recession in freight traffic which took the strain off every department of the service and substituted orderly observance of the rules by passengers and employés for their violation in the feverish rush of prosperity."

WESTERN RATES HIGH.

IMPORTANT RULING.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, May 13.—[Exclusive Dispatch.] The Interstate Commerce Commission has handed down a decision affecting California and Arizona points and concerning it the following announcement is made; the defendant's base rates applying between Phoenix, Mesa and Tempe, Ariz., and specified points in California, Arizona, New Mexico, Colorado and Kansas are found to be unreasonable and lower rates are prescribed for the future.

This is the case of the Maricopa County Commercial Club against Wells, Fargo & Co. Prouty is the commissioner deciding.

Big Mortgage Filed.

PIERRE (S. D.) May 13.—The Chicago, Milwaukee and Puget Sound Railway Company today filed with the Secretary of State a mortgage for $100,000,000 to the United States Trust Company of New York to cover an issue of 4 per cent. bonds, running thirty years from January 1 last.

VERA CRUZ FORESTS BURN.

CORDOBA (Vera Cruz) May 13.—Forest fires continue to do great damage in this vicinity with the long continued drought favoring the rapid spread of the flames. At Isla a fire eight miles wide is sweeping everything before it, and near Penuela a fire had destroyed all the buildings around the big rock quarry, leaving several hundred people homeless. Great areas of forest are now burning and several big sugar plantations have been devastated.

## JURY FILLED FOR MEXICANS.

*First Witnesses Heard at the Tombstone Trial.*

*Letters of Revolutionists Are Read to Jury.*

*Inspector Tells of Raid on Douglas Junta.*

[ASSOCIATED PRESS NIGHT REPORT.]

TOMBSTONE, May 13.—A jury was secured today to hear the trial of Higon, Villareal and Rivera on a charge of violating the neutrality laws and directing an armed invasion into Mexico. United States Attorney Alexander, in his opening statement to the jury, declared the government proposed to prove that the alleged revolutionary conspiracy was hatched at St. Louis by the defendants, that the letters dictated at that city were subsequently mailed from points in Canada, and the overt act finally committed at Douglas, in this county, when instructions were received by one of the junta members, named Espinosa, directing the movements of the proposed invasion.

The first witness was A. T. Samuels of St. Louis, who was advertising manager of the Regeneracion, the official organ of the La Junta at St. Louis. His testimony was relative to the signatures of the defendants on documents issued in the interest of the revolution, which are to be introduced in the case.

J. B. Loving of Los Angeles also testified to the signatures as compared with letters and orders signed by the prisoners while incarcerated in the California jail.

Immigration Inspector Connell, on the stand, told the history of the famous raid on the Douglas junta in September, 1906, by the Arizona rangers and immigration officers, when papers, commissions, flagstaff and paraphernalia of the junta were seized. Letters were identified that were captured at that time.

Court Interpreter Pedro Nichelena testified to the correct translation of the Spanish letters into English, and the letters of instructions to Espinosa were introduced as evidence. The letters designate Espinosa as chief of the revolutionary forces, and treat at length of the plans to invade Cananea and other points in Mexico, cautioning prudence and secrecy in perfecting arrangements, and advising that Americans be not molested, as fear of intervention would be probable.

The overthrow of the Mexican government was planned to grow in force, and the letters were enthusiastic of ultimate success in the triumphs of the liberal party. The letters were introduced only after vigorous objections by Attorney Cleary for the defense. The case is expected to occupy several days, as many witnesses are here.

### DAMAGED IN FIGHT.

SUES FOR $20,400.

[BY DIRECT WIRE TO THE TIMES.]

WILLOWS, May 13.—[Exclusive Dispatch.] Alleging that injuries inflicted upon him during a fight here last October had permanently impaired his eyesight, J. A. Patton of Oakland has sued Louis Klemmer, a prominent local merchant, for $20,400. In his complaint, Patton alleges that during the discussion of business matters in Klemmer's hardware store, the latter assaulted him, damaging both of the plaintiff's eyes with his fists and otherwise injuring his face. Klemmer this morning states that after their fight he met Patton and they patched up their trouble, Klemmer paying Patton's doctor bills. He understood when he did this he was squaring matters with Patton. He has employed an attorney to fight the case.

### SEALING PROBLEM UP.

RUSSIA TAKING HAND.

[ASSOCIATED PRESS DAY REPORT.]

VICTORIA (B. C.) May 13.—Russia has sent commissioners to the Copper Island and Japanese fur seal rookeries to collect data regarding the sealing industry in North Pacific waters and investigate the question of Japanese poachers, according to advices received here. When their report is received here negotiations with the Japanese government for a treaty for the protection of seals in the North Pacific will be renewed. Incidentally it is reported Russia will send representatives to Great Britain and the United States to approach the officials at Washington and London with a view to making the treaty now in force covering Great Britain and the United States applicable also to Russia and Japan.

### FARMER DISAPPEARS.

DROPPED FROM SIGHT.

[BY DIRECT WIRE TO THE TIMES.]

PORTLAND, May 13.—[Exclusive Dispatch.] Gust Wall, a well-to-do and prominent farmer who lives near Klondyke, brought his family to Portland to see the sights, left them for a time at the observatory on Council Crest and disappeared.

Forty-four hours of diligent search by the troubled wife and daughter of the rancher, aided by the police, has failed to unearth the missing man, and it is feared Wall has come to serious harm, the more so, as when he vanished, he had money in his possession estimated to amount to more than $1000.

Between the time of Wall's leaving his family at the observatory and their return to the place of parting, not over two hours elapsed, yet prompt search in the vicinity failed to discover any one who had noticed him.

### TIMBERMEN DISMISSED.

NO FRAUD PROSECUTION.

[ASSOCIATED PRESS DAY REPORT.]

SPOKANE, May 13.—A Spokane-Review special from Moscow, Idaho, says:

"Stating that the government had been over two years since the indictment of J. B. West and I. N. Smith, in connection with the North Idaho land cases, in which to prepare to prosecute the cases, Judge Dietrich yesterday disregarded the request of United States Atty.-Gen. Wickersham for a continuance, and discharged both defendants.

### NO DODGING TAXES.

ENTIRE ESTATE PAYS.

[ASSOCIATED PRESS DAY REPORT.]

SACRAMENTO, May 13.—The Appellate Court today decided that the estate of the late John F. Kennedy must pay to County Treasurer McDougall of San Francisco an inheritance tax on the full amount of the estate, which has been appraised at $82,752.50. Alice Kennedy, the widow, objected to having her homestead, appraised at $10,000, taxed. McDougall joined in the appeal from Judge Coffey's decision which exempted the $4600 family allowance from inheritance taxation. The higher court found that the homestead as well as the family allowance should come under the inheritance tax.

## PASTOR IS INDICTED.

**Accused of Wanton and Malicious Setting of Forest Fires in Oregon.**

[BY DIRECT WIRE TO THE TIMES.]

PORTLAND (Or.) May 13.—[Exclusive Dispatch.] Rev. W. T. Euster, pastor of Sunnyside Methodist Church, and one of the most prominent preachers in Portland, was indicted by a grand jury in Wallowa county Eastern Oregon, today on a charge of setting forest fires. A warrant for his arrest has been issued, and the Wallowa county Sheriff is en route here to take him. The news has caused a sensation in the minister's flock, and in the Ministerial Association, of which he is a prominent member.

The offense is alleged to have been committed last summer when Rev. Euster, then pastor of a Pendleton church, was on a hunting trip. Jack Huston, a Pendleton editor, was with him on the trip, and he, too, has been indicted. Wanton and malicious setting of forest fires is the charge.

Rev. Mr. Euster asserts his innocence. Members of his church are organizing for his defense.

## SLOPE BRIEFS.

**Wife Attaches Funds.**

SAN FRANCISCO, May 13.—The Calkins syndicate was restrained today on an order signed by Judge Cabaniss from paying any money to Willard P. Calkins. He is restrained from receiving any of the proceeds of Orchard and Farm and The Pacific Miner. The order was granted on the complaint of Mrs. Calkins, who is suing for a divorce.

**Accused of Embezzlement.**

SAN FRANCISCO, May 13.—Two warrants charging W. J. Cornell, secretary of the Pioneer Automobile Company, with felony embezzlement were sworn out today by Edgar P. Brinegar, president of the company. The sums specified as having been taken by Cornell are $240 on February 5, and $129 on March 16. It is intimated that a shortage of something like $16,000 may be discovered. Cornell has been connected with the company for about a year, and is said to have been spending money freely.

**Widow Asks Share.**

SAN FRANCISCO, May 13.—Mrs. Emily C. Yoell filed an application in Judge Graham's court today for an allowance of $200 a month out of the estate of her late husband, J. Alexander Yoell. This allowance is to date back to the time of Yoell's death, and will amount to $12,000 on the first payment. The application will be contested by the children of Yoell's first wife. A contest over the will of Yoell is now pending.

**Appointed by Governor.**

SACRAMENTO, May 13.—Gov. Gillett this afternoon announced the appointment of Lewis Aubury of San Francisco as a member of the Conservation Committee, vice Francis Cuttle of Riverside, resigned.

**Shot While Cleaning Rifle.**

VANCOUVER, May 13.—William McGregor, aged 28, a well-known young business man, met death today while cleaning a rifle which he did not know was loaded. The top of his head was shot off. McGregor was the son of D. C. McGregor, a prominent insurance man.

**Logan in Port.**

SAN FRANCISCO, May 13.—The United States army transport Logan arrived today from Manila, by way of Nagasaki and Honolulu. In addition to a number of civilian passengers, she brought seven officers and 238 men of the Fourth Field Artillery and two officers and 134 men of Co. A of the Engineer Corps. The ranking officer on board was Brig.-Gen. Albert L. Mills, formerly commandant of the Military Academy at West Point.

**Memorial Day Order.**

SACRAMENTO, May 13.—Adjt.-Gen. Lauck has issued a general order to all organizations of the National Guard and Naval Militia throughout the State requesting them to parade on Memorial Day, which this year will be observed on Monday, May 31, because the 30th falls on Sunday. Outdoor sports and exercises generally indulged in on that day are forbidden the soldiers. Flags will be placed at half-mast, to remain until sunset.

**Lineman Has Bad Fall.**

SAN FRANCISCO, May 13.—Frank Didisch, a telegraph lineman, whose residence is in Portland, Or., fell from a telegraph pole today, sustaining fractures of both arms and possibly a broken back. His recovery is doubtful. The breaking of his sustaining strap caused the accident.

**Workman Injured by Blast.**

SAN FRANCISCO, May 13.—Albert Delvert, an employé of the City Construction Company, was seriously injured today by a blast set off by workmen who are removing the ruins of the City Hall. Delvert was passing from one part of the building to another, when, without warning, the blast was exploded directly in front of him. He was blinded, thrown to the ground and buried under a mass of debris. He probably will lose the sight of one eye.

### MARIE DRESSLER BACK.

PHILADELPHIA, May 13.—Marie Dressler reappeared on the American stage at the Garrick Theater tonight after an absence of several seasons in London. She was the star in Richard Carle's summer show, "The Boy and the Girl." Miss Dressler was well received and rendered several songs with her well-known disregard for conventionalities and stage tradition. The star, who is as funny as ever, is supported by an excellent cast.

IF YOU enjoy good short stories do not miss reading The Times Magazine the coming Sunday.

GRAFT PROSECUTION.

## MULLALLY IS MADE WITNESS.

*Assistant to Calhoun Tells of Trolley Matters.*

*Informs Heney no Money Was Paid Supervisors.*

*Richard Cornelius of Carmen's Union Testifies.*

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, May 13.—Thornwell Mullally, assistant to the president of the United Railroads, under indictment himself for alleged offenses similar to that charged against his chief, was the most important witness examined during the trial of Patrick Calhoun today.

Mr. Mullally has never before appeared on the stand in any of the bribery graft cases and has never been summoned to give testimony since his refusal to answer any questions put to him before the grand jury in 1907, when the first steps in the investigation were taken. He occupied the stand during the greater part of the day, and his evidence went into many matters relating to the trolley franchises on which the present case hinges.

From first to last Mr. Mullally denied knowledge of the offer of any bribes to Supervisors or the employment of Abraham Ruef as an agent to offer bribes as charged by the prosecution. His evidence for the most part related to the time of the fire and the struggle to rehabilitate the transportation lines of the city. The most important part of his examination from the standpoint of the prosecution was his admission that he had no knowledge either as a director or officer of the company, of the withdrawal of $200,000 from the mint by Tirey L. Ford, general counsel of the road, in 1906, nor of the negotiation of a loan for that amount by Mr. Calhoun, all of which the prosecution claims to have proved in its efforts to show that this money was used to bribe the Supervisors.

Mr. Mullally was preceded on the stand by John Connor, member of the Supervisors' Street Committee in 1905, and J. H. Meyer, a director of the company, but the evidence secured was merely of cumulative nature. Richard Cornelius, president and business agent of the car men's union before and after the fire, followed Mr. Mullally, and the main feature of his testimony was the recounting of a visit to Mr. Calhoun's office, just before the fire, and the exhibition by Mr. Calhoun of the prints of a proposed overhead trolley system on Market and Sutter streets. The witness said that he had been summoned to the office by Mr. Calhoun and was asked by him to use his influence in behalf of the passage of a permit for such a system.

CONNOR ON STAND.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, May 13.—John Connor was the first witness called. Under the questioning of Heney the witness recounted the discussions before the committee which led to the rejection of the company's application for an overhead trolley franchise on Sutter street. Again, as on yesterday, the main issue in the interrogation appeared to be the bringing out of all the matters relating to the system of electric propulsion that was to be employed on the converted cable lines.

The only fact of any importance brought out by Mr. Connor's cross-examination was that the application of the company for the overhead trolley franchise on Sutter street was made originally by Tirey L. Ford, general counsel for the corporation, after a conference with the committee on complaints against the cable road then in operation. The witness stated that the application was made in order to allow the discussion to go on, as there was nothing before the committee for action.

Describing the incidents which, to his memory, led up to the rejection of the petition, Mr. Connor said that Mr. Calhoun, in reply to a question from Mr. Phelan at one of these meetings, said that he would certainly want an overhead franchise for Market street, "if he could get it."

"Mr. Phelan made the speech of his life in reply to that," said the witness, "and the committee's papers took it up next day and created a sentiment against trolley wires on Market street."

MEYER KNEW OF NO BRIBE.

J. H. Meyer, a director of the United Railroads Company, followed Mr. Connor on the stand. Under interrogation by Mr. O'Gara, he said he held one share of stock in the company, by virtue of which he was elected a director. This share, the witness said, he had indorsed and returned to the company because he "believed it belonged to the company." Mr. Meyers said he had no knowledge of the employment of Abraham Ruef by the company or of the withdrawal of $200,000 from the mint by Tirey L. Ford.

Thornwell Mullally said he became assistant to the president of the United Railroads at Mr. Calhoun's request, and that he met Ruef in Franklin Hall, while the big fire of 1906 was burning.

"Did you ever go to the mint with Mr. Ford?"

"No."

"Did you receive $50,000 from Mr. Ford?"

"I did not."

O'Gara asked if the witness had ever gone to a meeting of the Finance Committee with Mr. Ford.

"I do not think so. It is not in my mind that I ever called on Ruef with Mr. Ford and we talked in a bathroom as some boy has——"

At this point Mr. O'Gara objected that the answer was not responsive to his question.

This occurred several times, and resulted in a statement by Mr. Rogers, who said:

"Under the circumstances that Mr. Mullally has been indicted fourteen times and this is the first time he has ever been called to the stand, it is not surprising that he should seek to explain."

"We will show that he was given an opportunity to testify before the grand jury," said Heney.

MULLALLY RETORTS.

"Mr. Mullally, have you any knowledge that money was paid in the trolley matter?" asked Mr. O'Gara.

"I have not. None was ever paid," said the witness.

"Did you not say that you were a practicing attorney before taking your present position, Mr. Mullally?" interjected Heney.

"I did."

"And don't you know that you have no right to volunteer these statements on the stand?"

"My rights have never been regarded by you, Mr. Heney. I am trying to tell you the truth. I should think you would be glad to hear the truth."

"Do not be impatient, you will have a chance to tell anything you like on cross-examination, to empty yourself," answered Heney.

Mr. O'Gara then went into the condition of the United Railroads' equipment after the fire. The witness said he could not recall the exact figures on cars destroyed and the like, but could find out. He also said he could find out just what lines were first run and when.

Going to the money drawn from the mint by Mr. Ford, O'Gara asked:

"Did you open a letter to Mr. Calhoun in August, 1906, which announced that $200,000 had been loaned to the company by the United Railroads Investment Company?"

"I did not. I have no recollection of opening his mail then or at any other time."

The witness declared he had no knowledge of the withdrawal of $50,000 from the mint by Mr. Ford and that as a director he did not know that any overhead trolley franchise had been applied for, though he had a general knowledge that such was the case.

Mullally left the stand at noon with the understanding that he would make a search for data giving the exact condition of the roads after the fire and also the exact date of the issuance of a temporary overhead trolley permit by Mayor Schmitz.

### GAS WRECKS BUILDING.

**Eight Persons Injured at Sacramento, Three Perhaps Fatally, by Explosion.**

[ASSOCIATED PRESS DAY REPORT.]

SACRAMENTO, May 13.—Gas accumulating in a basement underneath a brick building at Third and L streets this morning was exploded by a plumber's torch. The concussion partially destroyed the building, and fire completed the work of destruction. Eight persons were injured, three of them perhaps fatally.

Mrs. Sophia Heinrich, owner of the building, burned and bruised, was rescued from the building just in time to save her from being incinerated. Her son, Albert, was carried from the second story to the basement by the collapse of the structure, but managed to escape after a struggle.

Two Japanese scholars were blown into the street, burned, and their eyes filled with broken glass. One of them will probably die, and the other will be sightless.

### BANK CLEARINGS.

ALL SHOW GAINS.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, May 13.—Although in San José alone were California bank clearings for the week ending at noon, Thursday, larger than those for the preceding week, the totals reported by the California Promotion Committee show prosperous business conditions. The figures follow:

| | | Per cent. gain. |
|---|---|---|
| San Francisco | $37,394,179 | 7.4 |
| Los Angeles | 13,464,767 | 27.1 |
| Oakland | 1,436,136 | 15.5 |
| Stockton | 405,679 | 5.4 |
| San Jose | 444,909 | 29.5 |
| Sacramento | 860,264 | 28.1 |
| Fresno | 506,297 | |
| San Diego | 1,252,163 | 59.9 |

The grand total for the eight California cities was $56,802,496.

### LOCAL TRAVELERS.

**Los Angeles People Who Are Registered at Hotels in Other Cities.**

NEW YORK, May 13.—[Exclusive Dispatch.] The following Los Angeles people are registered tonight at New York hotels: Bayard, C. H. Lehman and wife; Navarre, Dr. E. W. WASHINGTON.

# HILL EXPECTS PROSPERITY.

*Wave Awaits Adjournment of Congress Only.*

*Tariff Now Is Only Element of Uncertainty.*

*West and South Obscuring Wall Street.*

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, May 13.—[Exclusive Dispatch.] James J. Hill called on President Taft today, and announced afterward that a wave of prosperity is only awaiting the adjournment of Congress to sweep over the country.

"All that is necessary," said Mr. Hill, "is to get the tariff out of the way. There are lots of people who think legislation will cure a toothache or cause great disasters, and they are sitting up all over this country, with hands folded and eyes turned toward Washington, afraid to go to work until the tariff is settled.

"The wheat crop promises to be good this year; not excessive, but fair. The West and South are to be the great sections of this country. The West is great now. The South exhausted its soil by improvident cultivation, but the later generations have learned how to farm, and the soil is resuming its fertile qualities. I think the South has a future of brilliant possibilities."

When it was suggested to Mr. Hill that Wall street already is discounting the coming prosperity, the railroad magnate said that Wall streets seems to be mightily important in New York, but that it no longer has any importance to the mass of people outside that city.

"We have our crops and our own business in the West," said Mr. Hill. "Of late years, we have our own financial resources and our own banks, sufficiently strong to carry us through emergencies. Wall street cannot harm any one now, except the man who goes against the game."

James J. Hill,
railway magnate and financier, who yesterday told President Taft that business conditions are improving.

## NEW COMMERCE RECORD.

**Statistics Show World Exports for Year Were $14,000,000,000, Imports More.**

[ASSOCIATED PRESS DAY REPORT.]

WASHINGTON, May 13.—A new record for the international commerce of the world was established in 1907, according to the statistical abstract of the United States, prepared by the Bureau of Statistics, Department of Commerce and Labor.

This abstract puts the total exports of the various countries and colonies of the world in that year at $14,000,000,000, and the imports at $14,000,000,000.

Of this grand total, the United States is credited with 14.4 per cent. of the imports, and with 9.2 per cent. of the exports.

Ten countries contributed more than two-thirds of the total.

On the export side, the United Kingdom headed the list with $2,072,000,000; the United States coming next with $1,825,000,000; Germany next with $1,629,000,000, and France fourth with $1,080,000,000.

On the import side the United Kingdom headed the list with $3,143,000,000; Germany second with $2,083,000,000; France third, with $1,201,000,000, and the United States fourth with $1,000,000,000.

Practically two-thirds of this total of international trade is accredited to Europe.

In the year under consideration, Canada took 58 per cent. of her imports from the United States; Mexico 8 per cent.; the Central American states, more than 50 per cent.; Cuba, 9 per cent.; Santo Domingo, 53 per cent.; Hayti, 81 per cent.; United Kingdom, 21 per cent.; Germany, 15 per cent.; Japan, 17.8 per cent., and France 11 per cent.

## DISCUSS PORTO RICO.

**ACTION DELAYED.**

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, May 13.—By a vote of 74 to 194, a resolution by Mr. Garrett of Tennessee, directing the Speaker forthwith to appoint a committee on insular affairs to consider the President's Porto Rican message, was defeated in the House today.

Mr. Olmstead of Pennsylvania offered a bill amendatory to the act creating a civil government in Porto Rico. It provides that "if at the termination of any session of the Legislature, the appropriations necessary for the support of the government shall not have been made in amount equal to the sums appropriated in the last appropriation bill, for such purposes shall be deemed to be appropriated."

The bill also authorizes the President to designate one of the executive departments of the national government to take charge of Porto Rico affairs.

Mr. Clark of Missouri at once objected to immediate consideration, on the ground that the President's message had not as yet been referred to committee. In consequence the bill lies on the Speaker's table.

## JEFF DAVIS'S NAME BACK.

WASHINGTON, May 13.—By the end of the present week, the name of Jefferson Davis will have been chiseled onto the stone in famous Cabin Johns bridge, six miles west of this city, ex-President Roosevelt having given instructions to this effect previous to his retirement.

As the bridge was built when Mr. Davis was Secretary of War, his name was contained in the stone tablet on the structure, which is the aqueduct over which the District's water supply passes.

During President Lincoln's administration and after Mr. Davis had become President of the Confederacy, the latter's name was chiseled out by some stanch adherent of the Union.

## WASHINGTON BRIEFS.

**Naval Committee Coming.**

WASHINGTON, May 13.—[Exclusive Dispatch.] It is the intention of the House Committee on Naval Affairs to visit California after the adjournment of Congress. The committee will visit San Diego and Los Angeles, also Mare Island, and will go to Hawaii where Pearl Harbor will be inspected.

**Officy Chief Engineer.**

WASHINGTON, May 13.—Lieut.-Comdr. Officy was today assigned to duty as chief engineer of the United States Pacific fleet on board the armored cruiser Tennessee.

**Devlin Held to Account.**

WASHINGTON, May 13.—[Exclusive Dispatch.] Senator Borah of Idaho is holding up the confirmation of United States Dist.-Atty. Robert T. Devlin, because he believes charges by Dr. Perrin, who was prosecuted by Devlin for land frauds, should be investigated. Borah is on the Judiciary Committee which has Devlin's nomination under consideration and Borah wants to find out whether Devlin knowingly used perjured testimony, as charged, in securing Perrin's conviction. He admits that he does not believe Devlin did so, but he says the charges must be probed.

## FOLLOWS PATTEN TO RICHES.

**St. Louis Youth Cleans Up Hundred Thousand Dollars by Timely Deals in Wheat.**

[BY DIRECT WIRE TO THE TIMES.]

ST. LOUIS, May 13.—[Exclusive Dispatch.] With his twenty-fifth birthday still to come, William N. Aubuchon, Jr., has made a little more than $100,000 this spring by following the lead of James A. Patten in wheat deals, out of a working capital of less than $1000.

Mr. Aubuchon traded exclusively on three-cent margins. He declines to admit how much less than $1000 he invested at the start, but he turned his capital many times and reinvested all his profits, till he drew out finally far ahead of the game. When he foresaw that Patten was building up a corner in wheat, he determined to get into the activity but to get out of it before it reached the passive stage. In other words, young Aubuchon got in at the psychological moment and got out before the moment ended.

It was Mr. Aubuchon's first venture in the market. That he was no "Bertie the Lamb," is evidenced by the fact that his account is on the plus side of the market. Just why he kept from being short is a matter of heredity and training. He has been educated to careful business tactics and tutored skillfully in the psychology of commerce.

## TROOPS RECALLED.

UNION CITY (Tenn.) May 13.—An order was received here today recalling the remaining troops detailed in the Reelfoot Lake region. The civil authorities now have the situation well in hand.

NAVAL WRANGLE

# BARTON OUT, CAPPS IS NOT LEGAL CHIEF.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, May 13.—A decision of Attorney-General Wickersham, made public by Secretary Myer today, apparently settles the controversy over the question whether Rear-Admiral John K. Barton continues legally to hold the office of Chief of the Naval Bureau of Steam Engineering.

The Attorney-General says in effect, that he does not, and that the post of chief of that bureau is vacant, that the rear-admiral having been retired by a board of medical survey of the navy, thereby vacated the office of engineer-in-chief.

Chief Constructor Washington L. Capps, following Rear-Admiral Barton's retirement on December 22 last, was appointed to act as head of the bureau, but this appointment, the Attorney-General says, did not fall within the provisions of the law, which provides that the vacancy thus created can be filled only by the President pursuant to law.

The designation of Admiral Capps by former Secretary Newberry was in line with the latter's plan for the reorganization of the navy and was intended only to be a temporary assignment.

The issue raised in Admiral Barton's case has been a fruitful topic of discussion in naval circles. The designation of Admiral Capps to act as head of the Bureau of Steam Engineering revived to some extent the feeling between the officers of the line and staff.

Since the advent of the new administration, Lieutenant-Commander H. I. Cone, Engineer-in-chief of the Atlantic fleet during his trip around the world, was nominated for the office of Chief of the Bureau of Steam Engineering, was caused not by death, resignation, absence or sickness, but by the compulsory retirement of Admiral Barton, and that the vacancy thus created can be filled only by the President pursuant to law.

PAYNE BILL.

# SENATE CUTS DUTY ON IRON.

*Ore Reduced from Forty Cents to Twenty-five.*

*Vote Is Non-Partisan, Sides Being Mixed.*

*Rayner Says Tariff Makes All Men Liars.*

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, May 13.—After a day devoted to the discussion of iron ore the Senate adopted, by a vote of 61 to 24, the recommendation from the Committee on Finance for a duty of 25 cents per ton. The House had placed that article on the free list. The Dingley duty is 40 cents per ton. Party lines were annihilated in the vote today, as seventeen Democrats voted aye with the Republicans and twelve Republicans voted no with the Democrats.

During the day Senator Bailey, in announcing that he proposed to vote for the duty on iron ore, as a revenue measure, declared that free ore would not affect the prosperity of the United States Steel Corporation, and added that even if it did there was a better way to deal with that organization, which was by an enforcement of an anti-trust law against it. He declared he expected to see this law enforced and expressed confidence that eventually the officers of the steel corporation would either be in the penitentiary or fugitives from justice.

For the first time there was a suggestion looking to the fixing of a date for a vote, but it came to naught because of objection from Senator Beveridge.

After a call of the Senate had shown that sixty-three Senators were present, Mr. Burrows spoke in favor of the duty on iron ore as a source of revenue for the government. He said that at the present time 6500 men were employed, receiving wages amounting to $31,500,000 in the production of iron ore, which industry it was proposed to open up to the competition of the world.

**BIG FIGURES GIVEN.**

Quoting from advance proof sheets of the next annual report of the geological survey, Mr. Burrows said there are now, in available ore in the United States, 3,500,000,000 tons of high-grade ore, while in Michigan, Minnesota and Wisconsin there were of lower grades of ores that will be available and are now useful, 72,000,000,000 tons, making 75,500,000,000 tons, in addition to which it is estimated that the Cuban deposits of high-grade ore amounted to 1,575,000,000 tons.

He presented petitions from bodies of iron ore miners in Michigan and elsewhere protesting against the withdrawal of the duty on iron ore.

Mr. Rayner spoke in favor of free iron ore. He read from a statement of Representative Payne in the House in defense of the action of the Ways and Means Committee in putting iron ore on the free list, and remarked that he was "protecting Mr. Payne from the Republicans of the Senate."

He said he did not believe that the Cuban iron ore would go west of the Alleghanies, but it would be available for the steel companies on the Atlantic Coast in Eastern Pennsylvania, Delaware and Maryland. The companies, he said, were competitors of the United States Steel Corporation, from which it now buys its iron ore.

**TARIFF PERVERTING.**

Later Mr. Rayner took occasion to observe:

"There seems to be something about the tariff that perverts the human mind and aspirations and longing of the soul for truth."

"The situation in Washington here today," continued Mr. Rayner, "is such that you cannot get the truth out of anybody. I am very fond of liars; I have studied them by day and by night, but I never in my life saw such an aggregation of them as are assembled in this Capitol, and they can lie with equal facility upon one side or the other of the same question."

Short speeches were made by Senators defining their positions with reference to the proposed protection of 25 cents a ton in iron ore. Mr. Nelson (Republican) favored the free entry of that product. Mr. Daniel (Democrat) wanted it to pay the duty of 6 cents.

Mr. Tillman inquired whether anything was ever to be done about the "illegal" absorption of the Tennessee Coal and Iron Company by the United States Steel corporation.

Mr. Culberson replied that if the Attorney-General had no information to show the illegal nature of that combination he could furnish it to him.

**MR. MONEY FOR REVENUE.**

"I am for revenue," declared Mr. Money, who is a minority member of the Finance Committee. He introduced a statement giving the total value of products and total wages entering into each in each bill of the schedule.

"This bill does not carry revenue enough," he said. "I am of the opinion that the expenditures of the government cannot be reduced, and I will venture to predict that the next supply bills, instead of carrying $1,032,000,000, will amount to $1,100,000,000.

"I am one man at least who is for the United States of America, and next for the consumer."

Mr. Money had read a circular calling upon people to write letters to Senators asking for free hides and to request others to do so, and characterized the system as an "endless prayer business."

"Now if these people would get together on free hides, free leather and free shoes, lumping them all together, I might stand for the programme," said Mr. Money.

Mr. McCumber referred to the estimate of J. J. Hill that the merchantable iron of this country would be exhausted in thirty years.

Mr. Aldrich, quoting from the report of the chief of the Geological Survey, said the estimate of iron ore in sight was 80,000,000,000 tons, which he said, would last 1500 years.

Mr. Bailey was arguing that the levying of the tariff was a matter of revenue when Mr. Rayner asked how it happened that the steel corporation was using every effort to keep the duty on iron ore.

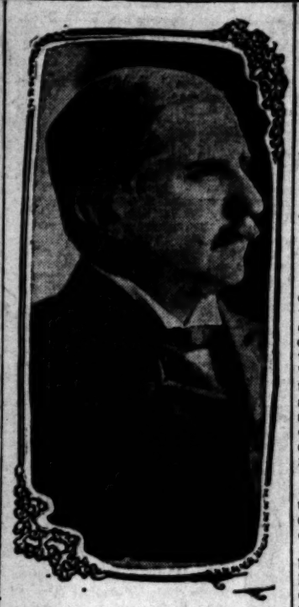
"I don't know that and therefore I will not attempt to explain it," said Mr. Bailey.

He declared the Republican party is now even more rent by internal discord than was the Democratic party in Cleveland's time.

**SLEEPING ON VOLCANO.**

"Your lease of power is not so strong as you think it is," said Mr. Bailey. "You are sleeping on a volcano and in the next election there will come an eruption."

Mr. Bailey proposed a vote on the in-



Senator Rayner,
of Maryland, who yesterday said that the tariff makes all men liars.

1, saying he would ask unanimous consent to that agreement.

"That is satisfactory to me," said Mr. Aldrich.

Mr. Beveridge objected, saying the bill would be voted upon when Senators had concluded discussing it.

Mr. Bailey, modifying his suggestion, said that if Mr. Aldrich would agree to vote on the income tax amendment next Saturday he would use his influence to bring about a vote on the bill as early as June 1.

"I am not yet ready to consent to that proposition," said Mr. Aldrich; "but I may be willing tomorrow."

Mr. Bailey, resuming his criticism, declared that in the present financial condition of the country, it was necessary either to maintain the high rates of the Dingley bill, or to sell bonds.

Mr. Dolliver claimed free iron ore would aid independent steel manufacturers.

Mr. Smith of Michigan, said the steel corporation was understood to control most of the iron ore deposits in Canada.

Mr. Beveridge said he was tired of hearing, every time a reduction of a tariff rate was proposed, that it would benefit some trust.

On motion of Mr. Aldrich a vote was taken on the committee amendment, making iron ore dutiable at 25 cents a ton.

The amendment was adopted, 61 to 24.

Democratic Senators for the amendment were as follows: Bacon, Bailey, Chamberlain, Clay, Daniel, Fletcher, Foster, Frazier, Johnston of Alabama; McEnery, Martin, Painter, Simmons, Stone, Talifero, Taylor, Tillman.

The Republicans who voted against the amendment are: Beveridge, Borah, Bristow, Brown, Burkett, Cummins, Curtis, Dolliver, Dupont, Gamble, La Follette and Nelson.

**HOUSE ON TARIFF.**

**PHILIPPINE PROBLEM.**

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, May 13.—The House today was again in the throes of a tariff discussion, the entire session being spent in the consideration of the Philippine Tariff Bill. The bill encountered no serious opposition, although Messrs. Harrison of New York and Underwood of Alabama criticised it generally. After the reading of the bill had been concluded, further action was deferred until Monday.

Mr. Clark of Missouri objected to immediate consideration of the bill amending the organic act of Porto Rico, in accordance with the President's suggestion in his recent message. The bill went over.

Speaker Cannon's policy of not appointing a committee was upheld by a substantial majority, after Mr. Garrett of Tennessee had sought to have him directed to name the committee on insular affairs.

Chairman Payne explained that the most important reason for the legislation advocated in his Philippine Tariff Bill was that the insular government under the general tariff bill would be deprived of about $1,000,000 in revenue because of the free-trade relations proposed between the United States and the Philippines. Replying to Mr. Robinson of Arkansas, Mr. Payne declared he could not even prophesy when the Philippine islanders would be given self-government.

Mr. Robinson criticised what he termed the "indefinite policy of the government toward the Filipinos," and claimed the Filipinos were fully capable of self-government.

Mr. Harrison of New York said that the measure should have been drafted by the Philippine Assembly, and claimed it was drawn for the selfish exploitation of the islands in behalf of certain American industries.

Through Representative Clark the Anti-Imperialist League presented the memorial to Congress regarding the Philippine tariff. It declares that a tariff law for the islands, made without consulting the Philippine Assembly, means taxation without representation. The league urges that the Philippine Tariff Bill should be amended to include a promise of independence for the islands at a definite period, and an amendment made directing the President to make arrangements looking to the neutralization of the Philippine Islands when their independence shall be declared.

**PLAN TO STORE WHEAT.**

**Grain Growers Discuss Building Chain of Warehouses to Hold Product for High Prices.**

[ASSOCIATED PRESS NIGHT REPORT.]

SPRINGFIELD (Mo.) May 13.—At the second day's session of the National Grain Growers and Cattle Raisers' Association here today, a plan to construct a chain of warehouses in grain-producing territory for the purpose of holding wheat for high prices was indorsed.

At the invitation of the American Society of Equity, the farmers promised to coöperate with that organization.

Theodore G. Nelson, national organizer for the Equity Society, addressed the meeting, saying:

"The object sought by the members of the grain growers' department this year is much the same as the purpose for which this convention has been called by the Farmers' Union. By collective marketing, the members of the society will sell their grain to the millers and export product will be sold direct to the English and Scottish wholesale coöperative societies of Great Britain. In this way we will pass crops by the speculator and be our own middlemen.

"By getting for themselves profits which go to the speculator and the middleman, the grain growers will, no matter whether the price be high or low, get a greater income from the sale of their crops, without correspond-

# Brought Color to Her Cheeks

**THEN STRENGTH RETURNED AND THIS BLOODLESS WOMAN BECAME WELL.**

**Tonic Treatment Was What She Needed, and Dr. Williams' Pink Pills Just Fitted Her Case.**

There are many men, women and even children suffering from anemia, which means "too little blood." The disease is well named, for the patient actually has a deficiency of blood, which affects every part of the body. There is a lack of energy, a characteristic pallor, a sense of suffocating after the least exertion, generally described as a shortness of breath. The disease comes on gradually and is often well advanced before it is recognized.

Too often medical treatment is unsatisfactory and the disease progresses until it becomes hopeless. In the case of young girls it often develops into consumption.

If the sufferers from a deficient blood supply could only know it, a large percentage of cases could be quickly cured, for there is a remedy that is exactly suited for their trouble, and it is within the reach of all. Dr. Williams' Pink Pills are an almost certain blood builder, and as a remedy for anaemic conditions will surprise by their marvelous results patients who have failed to regain health, strength and color by the use of other remedies. The following cure is but one of thousands, and further proof, from your own locality, can be had for the asking.

"I am glad to recommend Dr. Williams' Pink Pills," says Mrs. Roderick D. MacLeay, of No. 8 Parkview Ave., Buffalo, N. Y., "as they have been of wonderful benefit to me. A few years ago I was completely run down through overwork and worry. My blood was thin and watery, and I was very pale. I grew gradually worse for a year, and was weak and short of breath, especially when I walked up stairs, which I could not do without resting every few steps. I could not even walk across the room without having my heart flutter.

"I was under the doctor's care throughout the entire winter. He said I was in a fit state to run into consumption, and that I needed something to build me up. I was not benefited by his treatment and began using Dr. Williams' Pink Pills after I had been sick for six months. I noticed right away that the pills were helping me, for my cheeks began to have some color and my strength returned. I was completely cured after giving the pills a thorough trial. I will be glad if, through this statement of my experience, some other person afflicted as I was is restored to health by the use of Dr. Williams' Pink Pills."

If you are interested in the remedy that cured Mrs. MacLeay, write today for our booklet, "Diseases of the Blood." It is free and will be sent postpaid.

Dr. Williams' Pink Pills are always the same, and are sold only in packages bearing the well-known trade mark, "Dr. Williams' Pink Pills for Pale People." Pills sold in any other package, or loose, by the dozen or hundred are not the same, whatever the clerk tells you. The genuine are sold by all druggists, or will be sent by mail, postpaid, on receipt of price, 50 cents per box, six boxes for $2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

## HEALTH HINTS FREELY GIVEN.

*State Board Furnishes Public With Lesson.*

*Vivid Pictures of Ravages of White Plague.*

*Sanitation Express Now at Arcade Station.*

Impressive lessons on the prevention of tuberculosis and typhoid fever are being taught by models, charts and other exhibits in the State Board of Health Sanitation Express, which arrived in Los Angeles last night, and will be open to the public for inspection at the Arcade depot today and tomorrow. Prof. W. F. Snow of Leland Stanford University, under whose supervision the exhibit was prepared, is in charge of the car.

R. R. Long is the chief demonstrator, and he has four assistants, who will lecture visitors on the various subjects illustrated. The car will be open from 8 a.m. to 5 p.m.

The purpose of the exhibit is to enlist the active cooperation of the public in the enforcement of the health laws of the State. Ten thousand deaths occur each year in California from preventable diseases, and the exhibit has been planned with a view to showing what may be done to combat and minimize them. The railroad companies of the State are cooperating with the State Board of Health in the movement, by furnishing free transportation, and the car in which the exhibit is installed, was loaned by the Southern Pacific.

THE WHITE PLAGUE.

The features of the general exhibit are those relating to the prevention of tuberculosis and typhoid fever and for the enforcement of sanitary regulations in dairies. Tuberculosis is the cause of 7,000 deaths a year in California. Models are shown, illustrating the manner in which the disease is bred in crowded tenements, apartments, and in poorly ventilated farmhouses. There is a chart indicating the means by which the germs of the disease may be spread, chief of which is the sputum. Other charts show that one out of every three deaths between the ages of 1 and 10 years, and one out of every five between the ages of 20 and 40 are caused by tuberculosis. Also that the greatest mortality from the disease is among stone cutters, cigar makers and tobacco workers and grinders, while the lowest mortality is among miners, farmers and bankers. It emphasizes the fact that dust irritates the lungs, weakens the power of resistance, and that those who get most fresh air and good food are the least susceptible. In contrast to the tuberculosis-breeding houses and shops is a group of models giving health suggestions in the form of open windows and tents, sleeping porches and the stove-pipe fresh-air flue.

DEADLY TYPHOID.

Almost as elaborate is the exhibit relating to typhoid fever. There is a large and very interesting model showing how sources of water supply, such as streams and lakes, may be polluted and spread the germs through certain camps, villages and cities. Other illustrates the manner in which wells may become contaminated by the close proximity to cess pools and sewers. There are on an average, 1,000 cases of typhoid fever a year in California, of which about 600 are fatal. Methods for preventing the pollution of water supplies by the construction of septic tanks for sewers and sand filters are illustrated.

Milk is laid in the exhibit on the necessity of providing pure milk. From 1,000 babies under one year of age every year in California as the result of being fed on bad milk. An interesting model shows the unsanitary conditions in many dairies and the proper conditions should be remembered. It is the contrast between a cow kept in slime and one with a clean and sanded surface and sanitary surroundings.

Visitors to the car will have their attention drawn to the ringing of a bell which taps three times every minute. This electrical device is arranged to emphasize the great mortality from preventable diseases. There are 175,000 deaths annually from the disease in the United States, one for every tap of the bell.

WEIRD.

## OFFICER HELD FOR BRIBERY.

DEPUTY GAME WARDEN WITH TAKING MONEY.

Why Arrest Is Due to Feud Between Two Cities With Japanese Company on Side—Under Heavy Bonds for Trial in the Superior Court.

Some of the county and those who are deputy Game Warden Clark M. Kerr of Long Beach, are divided. On the one hand it is asserted to be a grafter, who has been released under $2000 bail on a charge of accepting bribes. On the other hand it is asserted that Clark is the victim of a conspiracy on the part of a company of Japanese abalone fishermen, who want to have an efficient officer remove that he will not interfere with their games; also of feud between Redondo and San Pedro.

Deputy Dist.-Atty. Percy Hammon is prosecuting Emory on the bribery charge, Emory taking $10 from one of the Japanese fishermen to free him from arrest.

Added to the prosecution, Emory, in his capacity of deputy game warden, went to the Japanese settlement at Terminal and threatened to arrest fifteen Japanese on a charge of taking abalones under the legal size.

It is said to have told them that he would have to take them to Los Angeles, but that it would cost them $425. Then it is said to have intimated that he would take $100 and call it square, but the Japs are said to have raised the ante to $40.

Kerr is accused of going back to the boat and placing one of the Japs under arrest and demanding $30. But when the brown men could only raise $25 between them and when Emory finally agreed to take $10, they borrowed the money from the lighthouse keeper on Terminal Island and paid Emory.

On the other hand Emory tells his story that he went to the camp and found that the fishermen and took

tice Hart's court in Long Beach. That here he took the $10 as bail from the Jap, who promised to be in the Long Beach court the next day.

At this time, he says, the Chief of Police of San Pedro came along and inquired into the case. He took the $10 away from Emory and arrested him and locked him up in the San Pedro jail. At the same time he had the Japanese make a charge against Emory.

The preliminary examination was held before Justice Steiglitz at San Pedro, on Wednesday and the Japanese and the man who loaned them the $2 who said he was an employing abalone fisher, testified to the facts. Emory did not put in any defense. Attorney Knight, of Long Beach, is representing the defendant, and it is said the defense will only be disclosed at the trial in the Superior Court.

The story is that so strained are the relations between Long Beach and San Pedro that when an officer of Long Beach wanders into San Pedro in the performance of his duty he is "up against it." That all kinds of obstacles are placed in his way and that on the slightest provocation he is arrested.

DRAMATIC DEATH.

## TAKES ACID ON TROLLEY CAR.

UNIDENTIFIED MAN ENDS LIFE BY CARBOLIC ROUTE.

**Swallows Poison, Then Proceeds to Smash Windows and Overcomes Conductor in Encounter—Weakened by the Effects of the Dose He Afterward Surrenders.**

The passengers of a city-bound San Pedro car, which left on its northbound trip at 9 o'clock last night, were thrown into a panic as the electric car was crossing the long trestle over Wilmington Bay. A man passenger calmly raised a four-ounce phial filled with carbolic acid to his lips, drained the contents, and then, in a frenzy, started in to "clean out" the car.

He was smashing windows with reckless abandon when Conductor A. W. Mayborn pounced on him, only to be worsted in the first few seconds of the encounter. Seeing the plight of his fellow employé, Motorman E. M. Whithorn stopped the car and ran back to give assistance. Other passengers had sought places of safety.

After a few minutes' struggle, and weakened by the poison's inroads, the combatant capitulated. Not until he was subdued were the trainmen informed that the man had swallowed a phial of liquid. Examining the empty bottle, the car men discovered the contents had been carbolic acid and accordingly drove the car with all possible speed for Los Angeles. The only stop was to inform the dispatcher of the attempt at suicide and to have the police ambulance at the Pacific Electric depot when the car reached the city about 10 o'clock.

When the car arrived the waiting police officers who had accompanied the ambulance were told that the man was dead. They returned to Central Station. Scarcely had they returned when another call came that the man was alive. A hurry-up run was made to the depot, but upon arrival the officers were told a second time that the man was dead.

Upon instructions from the Coroner the remains were taken to Pierce Bros.' morgue. In the clothes no means of identification were found except the letters "A. J. H.," punched in the hat band. All laundry marks had been cut out of the clothes. Not a scrap of paper was found in the pockets.

In the coat pocket was found a filled four-ounce bottle of carbolic acid. Like the bottle, the contents of which the man had swallowed, the label bore the name of C. H. Lewis's drug store, at No. 200 South Main street, in this city. An inspection of the books there last night revealed that no person with the initials "A. J. H.," had purchased carbolic acid there in many weeks. Neither did the records reveal that one person purchased two bottles of the poison. It is assumed by the Coroner that the man purchased the poison through other persons.

The dead man was about 35 years of age. He weighed about 130 pounds, and his clothes would indicate he was a laborer. He had dark hair and complexion. He wore a gray coat, black vest and gray trousers, streaked with brown. A new scar shows over the right eye. An inquest will probably be held today.

NEW SPOKANE RULING.

**Central Roads Exempted from Making Same Rates as Northern Lines.**

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, May 13.—A supplemental order was issued today by the Interstate Commerce Commission in the Spokane rate case, by which the commission's order is postponed temporarily as to the Chicago and Northwestern Railroad, the Union Pacific and Oregon Short Line, and the Oregon Railroad and Navigation Company.

It is not unlikely that the order in the Spokane case may be abrogated, so far as the lines mentioned are concerned, as the plea has been made in their behalf that the distance between them from Chicago to Spokane is about 400 miles farther than it is by the Northern Pacific and Great Northern.

Therefore it would be a hardship upon them to compel them to haul freight from Chicago to Spokane at the same rates as are given by the northern roads.

WOMEN TEACHERS ARRESTED.

**Boy of Nine Says They Switched and Pinched Him for Denying Theft of Money.**

[ASSOCIATED PRESS NIGHT REPORT.]

DES MOINES (Iowa) May 13.—Miss Maud Ewing and Miss Ida May Tilden, teachers in the Longfellow school here, were arrested today, charged with having beaten nine-year-old David Kaplain until he was black and blue.

Tonight at a hearing before Police Judge Steward the teachers pleaded not guilty. Their trial was set for May 22.

The teachers accused the boy of stealing a $5 bill from Miss Tilden. When he denied the charge, he says, they laid him over a chair and beat him with switches and pinched his cheeks and body.

DRUMMOND HAS SMALLPOX.

CHICAGO, May 13.—Maldwin Drummond, whose marriage with Mrs. Marshall Field, Jr., was one of the sensations of the London fashionable world last summer, is undergoing a severe attack of smallpox. He was taken ill at his villa at Cannes while he and his wife were sojourning there, and for a time he was thought by his doctors to be in danger of his life. The family and servants were in quarantine.

Arrowhead Spring Water

## CONSTIPATION MUNYON'S PAW-PAW PILLS

Munyon's Paw-Paw Pills are unlike all other laxatives or cathartics. They coax the liver into activity by gentle methods. They do not scour; they do not gripe; they do not weaken; but they do start all the secretions of the liver and stomach in a way that soon puts these organs in a healthy condition and corrects constipation. In my opinion constipation is responsible for most ailments. There are thirty-two feet of human bowels, which is really a sewer pipe. When this pipe becomes clogged, the whole system becomes poisoned, causing biliousness, indigestion and impure blood, which often produces rheumatism and kidney ailments. No woman who suffers with constipation or any liver complaint can expect to have a clear complexion, or enjoy good health.

Munyon's Paw-Paw Pills are a tonic to the stomach, liver and nerves. They invigorate instead of weakening; they enrich the blood instead of impoverishing it; they enable the stomach to get all the nourishment from food that is put into it.

These pills contain no calomel, no dope, they are soothing, healing and stimulating. They school the bowels to act without physic. Price 25 cents.

FOR DESERT BLOOM.

## WONDERS OF CACTUS TOLD.

*Alfred Burbank Speaks Here at Banquet.*

*Wizard, Brother of Wizard, Guest of Honor.*

*Foretells Great Possibilities of Cereus Fruit.*

Honoring Alfred Burbank, a brother of Luther Burbank, and also a plant wizard, who has but recently returned from a two months' sojourn in Mexico spent in the study of Mexican plants, J. R. Newberry yesterday evening acted as host to twenty friends at a banquet at the Lankershim. The table was lighted by several heavy electric candelabra, a great cluster of American Beauty roses centered the board, and roses of the same variety were scattered about in profusion.

At the conclusion of the dinner Mr. Newberry briefly told of his first meeting with Alfred Burbank in northern Lake county and how he persuaded him to come to the southern portion of the State to carry on the work in which he was interested—development and propagation of special fruits and vegetable plants.

"Alfred Burbank, as is not generally known," said Mr. Newberry, "is the producer of the celebrated blight-proof Burbank potato, and in the six months previous to his sojourn in Mexico he has accomplished wonders on the Newberry ranch at Prado in Riverside county, in the propagation of various species of the cactus and other wild desert plants of great value when cultivated."

In responding to the introduction, Mr. Burbank briefly outlined his visit through Mexico, telling of the great progress being made, and possible in the future, in agricultural lines. After speaking of the possibilities of obtaining water there, of the general topographical situation and other matters of similar import, Mr. Burbank turned to the growth of the cactus. He said in part:

BIRTHPLACE OF CACTUS.

"Mexico seems to be the birthplace of the great cactus family, comprising almost countless varieties and wonderfully diversified forms. Who knows but all of these forms were cultivated as useful farm crops by a long-forgotten civilization? At any rate, the cactus responds quickly and generously to the kind and appreciative treatment of its human friends.

"One of the most valuable species is the one known by the several names Opuntia, Nopal, Tuna, Prickly Pear, Indian Fig, etc., of which there are hundreds of varieties distributed throughout the tropics and semi-tropics of the world. This species is represented as far north as the northern United States by a small and despised variety.

"The cactus fruit is now sold in many markets of the world for human consumption. Last fall I bought two rather inferior varieties of Mexican tunas in a Los Angeles fruit store, both of which had small barbed capillary spines, and were very seedy. Fortunately, the spines have been bred off from the improved varieties, the seediness reduced and the flavor improved. None of the improved hybrids are true to seed, but, like the apple and the peach, must be propagated by cuttings—which from the nature of the plant is necessarily a slow method of reproduction.

"When the cactus is properly improved, it will increase the food production of our world one-third. I fully realize that this is a most astounding statement, but it is made with the fullest confidence in its fulfillment. Many sections of our older United States that were once fertile fields are now brush-grown and worthless on account of soil exhaustion. Then there are great sections of our commonwealth that have always been arid and unfit for cultivation. What is true of the United States in this respect is also true of the rest of the world. An almost unbelievable portion of the earth's surface is practically arid, and there are no more great States with millions of fertile acres to be discovered. The cactus is the solving of the problem.

ON BARREN ROCKS.

"Many varieties grow on barren rocks or unproductive clean sand. Each of its myriads of tiny rootlets is armed at the extremity with a little stinger, which is inserted in each invisible rock crevice, where it ejects its dissolving fluid, converting the rock into richest cactus food, which it immediately appropriates to its own use. Then the expanding roots burst off the little flakes of rock and nature can immediately begin its process of oxidation. The solid rock is in a short time converted into the most friable soil capable of supporting all kinds of plant life. The action of the cactus is the same on each tiny grain of sand as on the large rock, changing it from an incumberer of the soil to richest that a plant will only thrive under the conditions in which it is found in the wild state. Nothing could be more erroneous. There are plants that can only be found in their native state clinging to perpendicular precipices, gaining a wretchedly poor subsistence from the dry barren rock where the parent seed chanced to have been dropped. These plants when removed to a fertile soil and well cared for and protected, thrive immensely. They do not live on the perpendicular rock because that is best suited to their growth, but because they would be destroyed if they grew in a more accessible place.

"Now for a few facts about the improved cactus of which there has been much said that is misleading. There are several hybrids that are of great economic value, but like their ancestors, they must be propagated by joint cuttings, which is, as yet, a slow process. Another great drawback is that none of them can as yet safely bear more than 8 deg. of freezing Fahrenheit. Although I have been interested in the Opuntia for thirty years, the work of improvement has but just commenced. However, it is now to go on very rapidly, as many individuals, as well as the United States government, are now beginning to realize the great future before this wonderful plant, and are assisting in its improvement.

"There is another species of cactus which is of great interest to me, and which, so far as I know, no one except myself has attempted to improve. It is one of the Cereus, which I believe is soon to be the finest fruit-producing plant in the world. I am now planting many thousand hybrid seeds from the most luscious fruit I have ever eaten.

"Mexico is the land of destiny, the land of a hidden past, the land of a most brilliant future. It has a climate in parts surpassing our own most glorious California. It is destined in the summer, the autumn, the winter and the spring, to be the resort of all the world.

"Its agricultural possibilities are as yet dormant, like a bud in the springtime just ready to yield itself to the glorious summer. One of the great hindrances to agriculture is the lack of appreciation by the people of their own vegetation. For instance, a very few years ago, they had a worthless weed called guayule covering the mountains of several States. In the past four years that despised weed has produced millions of dollars' worth of rubber of a very durable quality. Unfortunately, the methods of gathering it have been destructive in the extreme, so that its extermination is threatened.

"Among the other desert plants of great interest are the Lechugilla, Candelilla and Maguey. The Lechugilla is the plant from which the textile fiber is made, which is very extensively used for 'bristle' brushes of every description. It is especially useful for brushes that are often wet, as wetting does not in any way affect this particular fiber.

"A process is now being perfected for extracting the wax from the Candelilla. A variety of Maguey or century plant is a great producer of alcohol. These and other Mexican desert plants are, when methods of rapid reproduction are discovered, to make the deserts of Mexico more profitable than some of the rich agricultural lands of other countries."

At the conclusion of the talk, his auditors questioned further about the propagation of the various plants, the climatic conditions of various parts of the sister republic and the rapid progress and settlement now in process. Among the guests were: Gen. Adna R. Chaffee, Gen. M. H. Sherman, Gen. Harrison Gray Otis, L. Villareal-Madero, owner of the famous Mexican rancho, Estacion Villareal; Stoddard Jess, E. A. Chase, N. W. Blanchard, W. H. Holt, H. V. Platt, S. M. Goddard, R. J. Waters, Harry Chandler, J. H. Adams, John H. Norton, M. H. Newmark, A. B. Cass, N. B. Blackstone and W. H. Allen.

ROOSEVELT TO TOLSTOI.

**Russian's Estimate of Bryan Party Is Disputed and Discredited by Ex-President.**

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, May 13.—Ex-President Roosevelt, in the current number of Bryan represented the party of peace in the last Presidential campaign.

Mr. Roosevelt says:

"Now, there was but one point in the platform of either political party in 1908 which contained an element of menace to the peace of the world. This was the plank in the Bryanite platform which demanded the immediate exclusion by law of all Asiatic laborers and therefore of the Japanese. Coupled with this was the utterly meaningless plank about the navy, which was, however, intended to convey the impression that we ought to have a navy only for the defense of our coasts; that we should have a 'merely defensive navy,' or, in other words, a quite worthless navy."

The ex-President expresses the opinion that Tolstoi has "swayed or dominated" only the feeble folk and the fantastic folk, and that his influence over "men of action" has not been great.

QUAKES IN ECUADOR.

**Shocks Felt at Different Times and Are Rapidly Growing in Intensity.**

[ASSOCIATED PRESS NIGHT REPORT.]

GUAYAQUIL ((Ecuador) May 13.—Ecuador has been experiencing earthquakes during the last fortnight. A slight shock was felt here today. Telegrams from Jipijapa, in the province of Manabi, announce that shocks have been experienced there since the first of the month, becoming more severe in the last few days.

A dispatch from Quito says quakes were experienced there yesterday, and that the local seismograph recorded on Wednesday very strong shocks somewhere in the West Indies.

A. P. RIDDLE KILLED.

**Prominent Kansan Dies in Automobile Accident Near Salina—Others Escape.**

[ASSOCIATED PRESS DAY REPORT.]

SALINA (Kan.) May 13.—A. P. Riddle, former Lieutenant-Governor of Kansas, was killed near here today in an automobile accident.

Mr. Riddle was en route from Minneapolis (Kan.,) his home, to Salina, on a pleasure trip, accompanied by a party of four. The machine struck an embankment at a point five miles north of Salina, throwing the three occupants of the rear seat into a ditch. Mr. Riddle struck on his head, and lived but an hour.

A. P. Riddle was elected Lieutenant-Governor of Kansas in 1884, on the Republican ticket, and served during Gov. John A. Martin's administration until 1889. He was born at Harlensburg, Pa., in 1846, and came to Kansas in 1868. For twenty-five years he had been editor and owner of the Minneapolis Messenger. He also was editor of the official organs of the A.O. U.W. and K. of P. of Kansas.

OBITUARY.

**Clark G. Corser.**

WAUKEGAN (Ill.) May 13.—[Exclusive Dispatch.] Clark G. Corser, one of the oldest residents of the county, died last evening at the home of his daughter, Mrs. Smith, of Benton, at the age of 93. Corser had lived seventy years in Lake county, being one of many to get the gold fever in 1850 and travel

dren, Robert and Mrs. M. Smith, both living in Benton. He lived at the south end of Zion and used to defy Dowie by wandering about the new city smoking an old pipe.

**Maj. Albert E. H. Johnson.**

WASHINGTON, May 13.—Maj. Albert E. H. Johnson, one of the oldest practice patent attorneys in the United States, died here last night in his 83rd year, following a stroke of apoplexy. During the Civil War, he acted for some time as private secretary to Edwin M. Stanton, Secretary of War.

## NOD OF HEAD MAKES BETS.

*Bookmakers Give High Sign in Doing Business.*

*Horse Racing for Sport Is Losing Proposition.*

*King James in Metropolitan an Easy Winner.*

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, May 13.—The long-deferred and anxiously-awaited opening of the metropolitan racing season, which was coupled this year with the running of the classic Metropolitan Handicap, passed into history today with the winning at Belmont Park of the blue ribbon event of the occasion by S. C. Hildreth's fleet 4-year-old, King James, from a field of eleven starters.

Fayette, the Madden entry, finished six lengths behind, with Juggler, a 6-year-old gelding, entered by C. C. Smithson, a close third.

The attendance was considerably slimmer than on previous Metropolitan Handicap days. The entire number aggregated less than 10,000, but in view of the ban placed on race track betting last year by the Hart-Agnew law, the falling off was not such as to cause surprise.

The net results of the day were not materially altered; betting of a sort is tolerated. The new form, however, is a travesty of the practice that flourished during the days of the Percy-Gray law.

Under cover of a decision of the Appellate Division of the Supreme Court, which permits oral betting, the layers of odds took up their stations on the concourse in front of the stand and in whispers and by nods accepted wagers and gave odds.

The method was veiled in mystery, accompanied by searching glances and stealthy looks. If the would-be bettor was known to the bookmaker his bet was accepted with a muttered "You're on." No money was passed; the "bookmaker" trusted the bettor to search him out after the race and pay him the amount of his wager if he lost, and the bettor on his part trusted the bookmaker to look him up in the same fashion and give him his winnings if he won.

Some of the layers of odds settled outside the grounds after the last race, and others on the trains coming back, but most of them put off settlement until tomorrow morning at appointed headquarters in town.

The race of the day, the Metropolitan Handicap, was won in handy fashion by King James, which led the field home by six lengths. Results:

Six furlongs: Lady Bedford won, Joe Madden second, Miss Kearney third; time 1:12 4-5.

Four furlongs: Starbottle won, Hampton Court second, Perry Johnson third; time 0:47 3-5.

Four and a half furlongs: Newmarket won, Anavey second, Naughty Boy third; time 0:53 3-5.

Metropolitan Handicap, three-year-olds and up, one mile: King James won, Fayette second, Juggler third; time 1:40.

Steeplechase, about two miles: Agent won, Sir Wooster second, Grandpa third; time 4:00.

Mile and a sixteenth: The Squire won, Dandelion second, Cowen third; time 1:48.

### WARFARE IS SLOW.

RUNS OUTSIDE THE MONEY.

[ASSOCIATED PRESS NIGHT REPORT.]

OGDEN (Utah) May 13.—Goodship won the feature race today in a drive from Camera, while Warfare finished outside the coin. Another surprise was the success of Figent, which won easily. Results:

Four and a half furlongs: Lady Quality, 105 (Archibald,) won; Gabriel, 110 (Sandy,) second; Watiere, 110 (Graham,) third; time 0:57. Alice Collins, Old Nick, Bonfils, Cavallena, Cooney Neff also ran.

Five furlongs: Fore, 90 (Thomas,) won; Workbox, 90 (Bevan,) second; Balnade, 106 (Walsh,) third; time 1:02. Happy Chappy, Billy Mayhem, Ontario, Oregon and Bernardo also ran.

Six furlongs: Figent, 103 (Nelson,) won; Grotto, 97 (Nelson,) second; Balreed, 100 (Peak,) third; time 1:17 3-5. Valma C., Birth, Nappa, Antara and Garterlight also ran.

Poulson Handicap, half mile: Goodship, (Kirschbaum,) won; Camera, 88 (Mendon,) second; Miles, 110 (Martin,) third; time 0:50 4-5. Kitty Rodd and Warfare also ran.

Seven furlongs, selling: Fordello, 107 (Borel,) won; Cardinal Sarto, 107 (Palma,) second; Alra, 107 (Shriner,) third; time 1:29 3-5. Glaucus, Rather Royal, Tavora, Proper, Sam Bernard also ran.

One mile: Friar of Elgin, 107 (Archibald,) won; Elevation, 107 (Borel,) second; Buckthorn, 101 (Cavanaugh,) third; time 1:45 2-5. Patriotic, Dollie Dollars, Kopeck, Buna and Col. White also ran.

### Results at Louisville.

LOUISVILLE, May 13.—Results of races:

Five and one-half furlongs: Hyperion II won, Come On Sam second, E. M. Fry third; time, 1:06.

Four and one-half furlongs: Lotta Creed won, C. A. Leiman second, Brunhilde third; time 0:54 2-5.

Six furlongs: Handbridge won, Charlie Eastman second, Olamabal third; time, 1:11 4-5.

Mile and seventy yards: Green Seal won, John E. McMillan second, Zienap third; time, 1:42 4-5.

Five and one-half furlongs: Addax won, Miss Felix second, Usury third; time, 1:07 4-5.

Mile and seventy yards: Edwin L. won, Snap second, Hara Avis third; time, 1:42.

### SIEFERT HEAVILY FINED.

**Driver Who Broke Los Angeles-Santa Barbara Road Record Pays Well for the Honor.**

[BY DIRECT WIRE TO THE TIMES.]

VENTURA, May 13.—[Exclusive Dispatch.] Justice Ortega today fined Frank Seifert $75 for driving his Stoddard-Dayton racer through the streets of Ventura at a speed in excess of the legal limit, and $25 for exceeding the speed limit on the county roads.

Seifert broke the law in breaking the record between Los Angeles and Santa Barbara. It was stated in court, in behalf of the Automobile Dealers' Association of Los Angeles, that that body would not lend its sanction to further speed tests for which official consent had not first been secured in the districts traversed.

VICE-PRESIDENT'S SON.

## AMATEUR CHAMPION BEATEN BY SHERMAN.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, May 13.—T. M. Sherman of Utica, N. Y., son of the Vice-President, today lowered the colors of Walter J. Travis, former amateur golf champion, winning the cup for the best score in the qualification rounds of the Chevy Chase open spring tournament.

Travis, however, as well as Sherman, qualified among the first eight who are to play for the club cup.

The ideal weather and the excellent course brought out eighty-eight players, including many from San Francisco.

Congressman Irving P. Wanger of Pennsylvania represented the official set of Washington on the links, and Vice-President Sherman was a spectator.

Interest centered in the play of Sherman and Travis, who finished at the head of the list, going the rounds together. Travis was to have played with F. O. Horstmann, one of the best players of the Chevy Chase Club, but a broken rib prevented the latter's participation.

Sherman, who is the champion of Central New York, and Travis have often been pitted against each other, but always until today Travis won. Sherman really won in the morning round, when he turned in a card of 80, three strokes better than Travis. Both went the round in the afternoon game in the same number of strokes, 73. Sherman's score for the day was 153 and Travis 156.

The comparatively poor showing of the ex-champion during the forenoon put him on his mettle during the second round, and he made the greens in the lowest score of the season for the course. Travis led Sherman in the afternoon round to the eighteenth hole, but the New Yorker evened the score by a beautiful putt on the home green.

Scores of the first eight:

| | |
|---|---|
| T. M. Sherman, Yohundasis | 153 |
| W. J. Travis, Garden City | 156 |
| O. McCammon, Chevy Chase | 159 |
| W. Tuckerman, Chevy Chase | 160 |
| Allan Lard, Chevy Chase | 160 |
| C. G. Treat, Chevy Chase | 160 |
| J. C. Davidson, Columbia | 162 |
| R. Lewis, Chevy Chase | 163 |

The drawing for the play tomorrow among the first eight resulted in the following matches:

Sherman and Allan Lard, Davidson and McCammon, Treat and Lewis, Tuckerman and Travis.

AUTO MECCA.

## ROAD RACE STANDS TO FACE THE OCEAN.

GEN. M. H. SHERMAN of the Los Angeles Pacific Railway Company, with Mayor Dudley of Santa Monica, Ralph Hamlin and Leon T. Shettler of the Road Race Committee, were over the Santa Monica automobile race course together yesterday. The site for the grandstand was chosen on Ocean avenue, about midway of that leg of the course. The stand will be on the inside of the course, and the ocean frontage will be used as parking space for automobiles near the start and finish.

This site will give a view of the cars after they round the turn into Ocean avenue and after they have completed the sweep into the Palisades. Seating space for several thousand persons will be provided. The committee is actively engaged with plans for the big race and the course is being put into shape as rapidly as possible.

There will be a bridge over the course at the grandstand to allow those who come on the street cars to cross the road without endangering their lives. This is necessary because of the many who will be arriving at all hours of the day.

Hamlin thinks the course will be exceedingly fast. He is using every possible means to avoid all danger. He will have the turns carefully mapped. Big signs will announce to the drivers the approaches to each curve and turn.

The cars should make their fastest time on Nevada avenue and along the ocean front. They will be driven over these two stretches at from sixty to seventy-five miles an hour.

Guards are to be provided for every leg of the course. After the cars start no one will be allowed to cross the road. To prevent this on Ocean avenue, ropes will be stretched and guardsmen will patrol every foot of the way.

Santa Monica officials are taking keen interest in the plans for the race. Every effort is being made to insure the success of the meet, and Santa Monica will be practically owned by the motorists for the first ten days of July.

TURN PROFESSIONAL.

## RUNNERS FLOCK TO THE STADIUM.

**FOUR JAPANESE ARE TO START IN THE MARATHON.**

**Seventeen Entries Accepted With Score of Others Ready to Run If Permitted—Trainer Eddie Robinson Accepting Only Such as Are in Physical Condition.**

Eighteen entries have been received for the professional Marathon race that is to be held at Fiesta Stadium Saturday afternoon, and from present indications about twenty-five runners will start in the big event.

The names of the athletes who have registered and are now training on the Stadium track are: Johnny Edwards, Seattle; E. Stewart, Vancouver; S. P. Rosenauer, Hollywood; W. Sowinski, Portland; E. E. Estoppey, Pasadena; Alfred Hausen, Arno Shonestein, Floyd Anson and Joe Gillespie, San Pedro; Kitty Kitsuse, New York; Max Rasch, M. Larsen, San Francisco; Louis Conti, F. M. Lowe, Roy Raynor and Young Oyama, Los Angeles.

Thirty runners, mostly local men, sought to enter the race yesterday, but Eddie Robinson, who is training the athletes, after looking them over, only received the entries of five or six. Only runners who are in excellent physical condition and have made creditable performances in long-distance races will be permitted to enter the event, as the pace undoubtedly will be fast and only high-class athletes will have any chance to finish in the money. Inasmuch as the professional championship of the Pacific Coast is involved in the result of the race, the men now in training are working hard with the hope of establishing a creditable record. It is probable that the distance of 26 miles, 385 yards, will be covered in less than three hours, and that the time will compare favorably with the performances that have been made in the East.

The running track at Fiesta Stadium was rolled again yesterday and will be in excellent condition for the Marathon race. The path is one-sixth of a mile in circumference and twenty-five feet wide, which will give the runners plenty of room. The curves are wide and the men will not be hampered by having to turn sharp corners, as they frequently have to do on indoor tracks.

Relatively faster time is always made on outdoor tracks than indoors, as the runners are benefited by the fresh air and sunlight, and inasmuch as the time in the amateur race at Shrine Auditorium was only slightly over three hours, it is probable that the distance will be run in about two hours fifty minutes.

### LONG GRIND.

The runners will have to run slightly over 157 laps in covering the Marathon distance. Remarkable endurance is required by a runner in order to finish the race, and unless he is in splendid physical condition he is sure to break down. For this reason Eddie Robinson is personally looking after the condition of the men who are to compete, and unless they are in the best possible shape they will not be permitted to start.

Kitty Kitsuse of New York is looked upon as having an excellent chance to take first place. On account of his good performances in the East the local runners at first objected to his running in the contest, but they have withdrawn their objection. Three local Japs also are entered, and they are determined to beat their countryman from the East.

Hausen, Shonestein (who is called the Flying Dutchman,) Anson and Gillespie of San Pedro, intend to make a strenuous fight for first honors. These men have engaged in several long distance races at San Pedro, and have Flying Dutchman usually winning, with Hausen a close second.

The northern entries have credentials showing that they have made creditable performances in Marathon races, and they may be counted upon to make a strong bid for first money. All the local entries have competed in long-distance races here, and are likely to carry away the first prizes. Fred Low, the winner of the amateur Marathon, is capable of competing in fast company, and his supporters are confident that he will lead the field at the finish.

### MOTOR-PACED RACES.

**Bicycle Events at Fiesta Stadium Expected to Show Much Improvement.**

A ten-mile open motor-paced race, in which at least three teams are to compete, is to be the feature of the bicycle racing at Fiesta Stadium Sunday afternoon. The other professional races to be held are a three-mile lap race and a one-mile handicap. There will be several amateur events and a novice race.

The colony of riders has been practicing daily in the wooden bowl and the sprinters believe that they will make faster time in each successive meet. Iver Lawson, who failed to win an event last Sunday, is now familiar with the track and it is expected that he will lead the field in a merry chase at the next meet.

Krebs, who holds the western amateur record for the quarter mile event, and who turned professional at the beginning of this season, is in splendid form. Walker and Senhouse, the Australians, are showing great sprinting ability. Achorn is getting into old-time form.

"Long Bill" Furman, who is the largest rider in the colony, and Bardgett, another heavyweight, have been doing remarkable work in setting pace and finishing with spectacular sprints. Furman made a great showing in the opening meet and his supporters believe that he will get more than his share of first places in the meets.

The Salt Lake City saucer track is to open May 30, and it is probable that some of the local sprinters who are now here will go there. Manager Pickering, however, expects to make an arrangement with the Salt Lake City management to exchange riders every month.

The riders who are now competing at the Stadium track are the best in the country with two or three exceptions. Frank Kramer and Floyd McFarland are considered the peers of any men now engaged in bicycle sprinting and Jack Clark probably would be able to gain a large number of first places against the local field, but the Stadium sprinters would make them fight all the way.

Ray Duer has received a new double-cylinder French pacing machine that will be used in the ten-mile motor-paced race Sunday. It will be ridden by Lindenfedder, who used to ride in the Stearns pacing crew. Lindenfedder is also training for the bicycle races and before the end of this month is to enter the professional events.

### HARVARD SCHOOL LOSES.

**Hitchcock Cadets Shoot Better in Match on Fifty-foot Range.**

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, May 13.—[Exclusive Dispatch.] In a dual team rifle shoot against a picked team of ten boys from Harvard School of Los Angeles, Hitchcock Military Academy of San Rafael won today, by a score of 881 to 857. The shoot was held on the fifty-foot indoor rifle range at Hitchcock School, regulation army Springfields being used.

The individual scores were: Hitchcock—Lassin, 93; Holton, 93; Austin, 92; Strong, 90; Lafferty, 89; Guigirere, 88; Seaton, 87; Hellman, 83; Ashe, 83; Howitt, 83; total, 881.

Harvard School—Gripo, 81; Abraham, [illegible]; Connally, 84; Schae-

MUCK-RAKERS.

## BIG CLEAN-UP OF SWIMMERS.

*George Freeth Substantiates Most of Charges.*

*Ybarrando Is Charged With Receiving Money.*

*Amateur Ranks Thinning Out by A.A.U. Action.*

George Freeth backed up most of the charges of professionalism that he brought against local swimmers, at the special meeting of the registration committee of the Amateur Athletic Union at the Y.M.C.A. last night.

About twenty of the forty men against whom Freeth brought the charges were present at the meeting, and although there were a good many personal remarks, everybody entered good-naturedly into the investigation and there was no quarreling.

Some of the swimmers flatly denied the charges, others admitted that they had broken the amateur rules, and several of the accused men who did not attend the meeting sent word that it made no difference to them whether or not they were deprived of their amateur standing. One boy, after stoutly maintaining that he had not dived for money at Catalina for four years, was confronted with conflicting evidence and had to admit that he had engaged in the practice for the last eight years.

The most startling development of the investigation was the allegation that "Tommy" Ybarrando of St. Vincent's pitched for the Redondo baseball team in a game last Sunday under the name of Moore and received pay for his services. Several Redondo men made the statement. Ybarrando was given an amateur card by the local A.A.U. Commission about a month ago, but he probably will be "set down" on the evidence submitted last night. His case was introduced indirectly, growing out of a charge against one of the swimmers who had been accused of playing professional ball.

On account of the large number of cases to be considered, the registration committee was unable to give its decision last night. It probably will go over the evidence today and tomorrow and give its decision tomorrow night.

### DON'T GIVE A ——.

Most of the swimmers are little concerned whether or not they are deprived of their amateur standing. It is practically certain that several of the men will be declared professionals and it is probable that there will not be enough swimmers left in the amateur ranks to form a water polo league this year.

The Redondo men are willing to turn professional if the other teams will do so, and it is said that the Venice team also is willing to give up its amateur standing. The beach swimmers claim that the L.A.A.C. water polo team is the only one that is anxious to keep within the amateur ranks, as it wants to enter the amateur champions at the Alaska-Yukon-Pacific Exposition.

Steps have already been taken toward the forming of a professional water polo league and if many of the swimmers are "set down," all the players that were to be in the amateur league probably will turn in their amateur cards and play in the new organization.

Frank Holborow, who was "expelled" from the A.A.U. last week on account of having applied for a position as life guard, presented an affidavit to the effect that he had written the letter at the suggestion of F. K. McCarver of Venice, who desired to get information regarding the positions at the various beaches. Holborow's case is to be considered by the Registration Committee. However, even if he is reinstated he probably will resign, as F. K. McCarver of Venice intends to proclaim him as the professional champion of the world.

H. Crumm of Redondo admitted that he had been employed as a paid life guard. W. Barton of Redondo sent word that he pleaded guilty to all the charges that Freeth had brought against him. Several other swimmers said that they had been employed as bath-house attendants, but had not acted as life guards.

Elwin and Everett Lechner of Redondo denied the charge that they had played professional baseball, saying that they had only received $1.50 expense money. Freeth maintained that their expenses were much less than the amount they received.

Freeth withdrew his charges of professionalism against the Keating brothers, saying that he had just learned that they were not paid for their services as life guards.

Conclusive evidence was presented that H. Marcoux, A. Tongues and Tom Wild are now employed as life guards at Venice and they undoubtedly will be "set down." Practically all the members of the Venice water polo team are slated for the professional ranks.

### WOMAN'S TENNIS GAMES.

**Former Champion Defeated In Hot Match With Mary Barger-Wallach.**

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, May 13.—The women lawn-tennis experts reached the semi-final round on the tennis courts of the West Side Club today. In coming through the singles, Mary Barger-Wallach, the outside national champion, defeated the former champion, Mrs. M. McLean, 4-6, 6-4, 6-2.

Miss Marie Wagner, the indoor national champion, defeated her rival, Miss E. H. Moore, the four-times national champion, 2-6, 6-0, 8-6.

Miss Louise Hammond, metropolitan champion, and Miss E. Marcus, New Jersey State champion, won the remaining brackets.

In the doubles Miss Elsie Little and Miss Hammond won their place in the semi-finals, defeating Miss Lane and Miss Sallie Homans, 6-1 6-1.

### DRIVING CLUB RACES.

At the coming matinée of the Los Angeles Driving Club, May 21, at Agricultural Park, the feature will be the free-for-all pace in which there will probably be four or five entries instead of two or three as heretofore. Another race that promises something good in the way of speed will be a trotting event, in which the best local trotters now in training are to be seen in action. Another novelty race will be on the card and in this the riders will saddle their horses in front of the grandstand, gallop to the three-quarter pole, dismount and put on

## WISE TALKS

BY THE "OFFICE BOY"

The weary clown, sans rouge and paint,
Looked his sad-faced self in the eyes;
He was sick of the smell of the circus taint
And said, "I can see no prize."
There is naught ahead—I must change my lot."
But applause swept in, and cheers,
And his eyes were alight with a flame, youth hot,
And he doffed full twenty years.
For it isn't the money and it isn't the fame,
It's the lure, the lure of the game!

So ask the prospector on the height,
The cowboy who rides the plain,
Or the engineer who guides the flight
Of the night-stabbing, roaring train
What voice has the God of Chance and Change
To woo them to callings new?
Away with the roses 'neath Heavens strange—
The thorns of this bed must do;
For it isn't the money and it isn't the fame—
It's the lure, the lure of the game!

Business is the biggest, broadest, most interesting occupation ever invented. The only thing needed is the common sense to turn the key of sound judgment in the business lock to open the door to opportunity. The Silverwood Stores have given the men of Southern California the opportunity to buy good goods at popular prices. They have demonstrated to hundreds of men that the bargains they thought they were buying in the discount and cut-price stores were bargains in the newspapers only. They have told you that no honest firm could give 25 per cent. discount and that 6 per cent. net was a good profit for any firm to make, because a merchant is supposed to turn his capital over two or three times a year and any man who will give the proposition a moment's thought knows the goods were marked too high. Otherwise to give a discount would spell — Bankruptcy. We don't sell discounts, but we do give better values than you can get elsewhere for the same class of merchandise. Come in and talk it over. Either store.

READY.

## LOTS OF FOOD AND PASSPORTS.

**CHALMERS-DETROIT PREPARES FOR JOURNEY IN WILDS.**

**Mexican Customs Passed After Load of Twenty-two Hundred Pounds Has Been Twice Removed from Car—Start Into Old Mexico Begins Today.**

[BY DIRECT WIRE TO THE TIMES.]

EL PASO (Tex.) May 13.—[Exclusive Dispatch.] Tomorrow morning the Chalmers-Detroit, pathfinder for the Flag-to-Flag run, will leave El Paso for the drive across Mexico to the capital. The run from Denver has been strenuous, but the country which must now be entered is the worst over which an automobile has ever been sent. For several hundred miles the Chalmers will pass through a territory into which an automobile has never before entered.

The Chalmers is mapping out the run for the Wahlgreen trophy, which starts the early part of October from Denver and ends at the City of Mexico. The tour is the first of its kind ever held which will take American-made cars into the Mexican republic.

The pathfinders passed their day of rest in going over their car thoroughly. Planks, stakes and food repositories for their 1400-mile trip of discovery in Old Mexico were added to the general equipment. They will travel an unexplored country for the greater part of the distance. Almost a day was consumed in passing the Mexican customs. The 2200 pounds of matter which is carried on the car was removed for weighing, replaced and again taken off, at the customs in Juarez for weighing, after which permits to carry firearms were given and a pass as explorers issued, giving added privileges.

The work was done as quickly as possible. The night stops, if possible to make them, will be Montezuma, 112 miles; Chihuahua, 113 miles; Jimanez, 146 miles; Torreon, 148 miles; Comacho, 124 miles; Zacateca, 143 miles; Aguascalientes, 75 miles; Leon, 104 miles; Celaya, 77 miles; Pueretero, 28 miles; Tula, 102 miles, and Mexico City, 50 miles.

It is highly probable that changes will have to be made in the route, owing to the rough country. A detour of thirty-five miles to Guadalupe to avoid thirty miles of sand will be made tomorrow.

WILLIAM H. KNIGHT, who named Lake Tahoe, has written for The Times Magazine the coming Sunday, an interesting article about the Tahoe region and how he came to give this name to the lake.

THE Hotel Clerk will be especially funny

### CARDS HALF SHUFFLED.

**Seven Fights for McCarey's Club Next Friday, Four of Which Have Been Arranged.**

A low-priced or novelty card will be presented by Manager McCarey at the Naud Junction pavilion next Friday night, and it is the intention to have no less than seven bouts. For a change there will be no main event and the programme is scheduled to consist of four battles of six rounds each and three of four rounds each, the latter bunch to be arranged today.

The six-round fights will be made up of the following scrappers: Frankie Sullivan and Johnny Hugo, 124 pounds at 6 o'clock; Steeplejack Martin and Willie Mack; Mike Kutchos and Jap Togo; Kid Barnes and Herb White, 128 pounds at 3 o'clock. The number of fights and the class of the boys in them should provide any required quantity of sport for the lovers of the mitt game.

Jim Flynn and Montana Jack Sullivan are to be matched by the club May 28. If an agreement can be reached today on the question of weight and money, railroad tickets will be sent Sullivan at once. It is probable that he will want Flynn to reduce some of his weight.

The club officials are waiting to hear from Sam Langford's manager, Joe Woodman, before they can announce for a certainty that the Ketchel-Langford fight is on.

### MAJ. ROOSEVELT OUT.

HARTFORD (Conn.) May 13.—Maj. Theodore Roosevelt, Jr., son of Theodore Roosevelt, who was a military aide on the staff of the late Gov. Lillie, will not serve in a like capacity on Gov. Weeks's staff. The latter today reappointed Gov. Lilley's staff as his own. But Maj. Roosevelt's name did not appear, as he declined to serve.

### DERKUM MAKES FAST MILE.

**Does Better Than World Record Practice, But Time Is Unofficial. Ready for Dash Sunday.**

Paul Derkum, according to E. Kramer, made a mile in 46 seconds, at Prince Coliseum saucer track in workout yesterday afternoon, beating the world's record of De Rosier's 47 4-5 seconds, made in competition. Derkum's fast mile was made against time in practice and is not a record. He is preparing for the struggle with De Rosier and Samuelson Sunday afternoon when some of the fastest professionals in the world will meet in competition.

According to those who watched Derkum yesterday the daring young cyclist is riding in better form than he has shown on the track this season. His flying mile was made during a ride in which he turned several fast laps in sensational time. Derkum is going out Sunday to defeat De Rosier if possible. He will ride a Racine Standard machine shipped here direct from the factory.

### MORE MONDAY GAMES.

There will be baseball in this city next Monday and also on the following Monday. Next Monday Portland will play Vernon at the Chutes grounds and on Monday, May 31, which will be Memorial Day, Oakland will play Los Angeles at the Vernon grounds in the morning and at the Chutes in the afternoon.

TRY THIS FOR YOUR COUGH

Mix two ounces of Glycerine with half-ounce of Virgin Oil of Pine, one pound pure and a half-pint of good Whisky. Shake well, and take in doses of a teaspoonful every four hours. This mixture possesses the healing, balsamic properties of the Pines and will break a cold in twenty-four hours and relieve any cough that is curable. ## HITT FAILS TO SKIN BEAVERS.

*Weakens in Seventh Inning and Is Punched Hard.*

*Four Swats and Two Errors Help Along Easy Runs.*

*Speas Makes Great Catch in Left Garden Lot.*

Portland, 6; Vernon, 1.

If McCredie expects to play the season out and use Bush Speas in games every week, the best investment he can make is an ambulance, with the horses hitched to the left-field fence so there will not be any time lost in going to the scene of the murder. Some of these days, when McCredie is not looking this Speas will dislocate his left lung, cut his own throat with his spikes or turn inside out and throw himself up on the fence to dry, and it might be well to have an operating table standing tied to some post.

Speas may be practicing for some circus or intends to play football next winter, but whatever he is figuring on he is certainly giving himself some hot-fast work-outs this week. Wednesday he tore up a lot of ground trying to make a difficult catch in short left field, and yesterday he not only hurt one of his own feet trying for a catch, but ran backward and turned a backward somersault and plowed up the ground with the back of his head in grabbing another fly ball. Really, the fans do not expect acrobatic performances at a ball game, but they have had enough in the last two games to make them think that a ticket to the main tent also admits them to all of the side shows on the ground.

Hitt and Garrett did the heaving and Hitt had much the better of it until the seventh inning, when he exploded with a bang that could have been heard forty blocks. After the wreck was cleared away he heaved the next two innings as if some one had told him he could not marry the rich heiress if any fellow made anything that was even an imitation of a hit, which shows that when he was good he was very good, indeed, but when he was bad he was terrific.

Speas did not turn himself loose on the rocks in left field until the last of the seventh inning, when Martinke hit a short curving Texas League fly back of shortstop. Speas thought he saw a chance to get it and dashed in like a man horse does when one of the judges has a bet down. The hit was too short, and when the boy tried to scoop it he failed and came up from the ground limping. Some of the mean, jealous fans thought that Olson saw a good chance to spike some one and gashed Speas, but this is not true, for Spike never cuts any but Los Angeles players, being rather choice as to the parts he operates on. A number thought that Speas spiked his own foot.

THAT SOMERSAULT.

Hitt had struck out twice in the game, and when he went to bat to open the last half of the eighth he concluded to smash the ball over the left fence, but was short a few feet. Speas saw the ball sailing up and out, and after getting under it noticed he was short, and not having time to turn and run with the ball, backed up with it. After going twenty-five or thirty feet he made one desperate spring backward and grabbed the ball far over his head. The momentum of the leap carried him over and he turned a complete backward somersault, and out of the tangle of legs and arms the fans finally saw his head appear and his right hand with the ball in it.

The catch was spectacular and Speas was slightly bruised in the fall, but recovered his equilibrium after one of the Beavers had brushed the dust from his clothes. Ryan also made a pretty running catch back of second base, on which he doubled Martinke at second, which aside from these incidents there is no history to write of the fielding, for the majority of chances were comparatively easy ones.

The only run for the Perhaps resulted from Haley's single and steal, Adams's out at first and Caffyn's double to left. Several times they might have scored with more luck, but Garrett pitched steady ball and was given good support. Mott, for instance, hit a triple over first base in the third inning, and yet there were no scores, for Hogan flew to Speas and Hitt failed in trying to work the squeeze play for Mott, and the latter was caught between bases.

The Beavers got their first run without a hit. Speas was the first up in the fourth and grounded to Adams at first, and when Hitt ran to cover the bag Adams made a bad throw. McCredie walked, advancing Speas, and the latter reached third on a passed ball. Johnson fanned, and then Breen went to Stovall, who caught the ball and then dropped it, for what might be called a delayed catch. Breen was credited on this sacrifice.

The game went along beautifully until the seventh inning, which Johnson opened with a fly to Stovall, and Jess missed this one. Breen was walked and then the bombardment began. Hitt and Armbruster doubled to right Garrett and Ryan singled to right Olson worked the squeeze sacrifice and three runs resulting from this business.

The score:

SUMMARY.

Earned runs—Portland, 1. Two-base hits—Speas, Olson. Sacrifice hits—Delmas, Hitt. Stolen bases—Caffyn, Kennedy, Armbruster. First base on balls—Off Hitt, 4; off Garrett, 1. Struck out—By Hitt, 7; by Garrett, 6. Double plays—Ryan to Caffyn; Egan to Adams, Garrett to Caffyn to Johnson, Ryan to Olson. Passed ball—Hogan. Time of game—1h. 50m. Umpire—McCarthy.

NOTES OF THE GAME.

Jimmy McCarthy had a hot time of it Sunday and few of his decisions suited the fans. After calling him an umpire and a robber on numerous times, some of them wanted to know how much money he had bet on the game. This line of talk was strung out all through the game, and Mac must have been glad when the day was done.

Garrett bunted at the third strike in the third inning, and a lot of fans would like to know why such a thing is attempted. It can hardly be with the hope of actually bunting the ball, for many months have passed here since any good was accomplished by such a play.

Martinke showed his class in the seventh by running over to center field and pulling down Olson's fly. Any one thinking Marty is a has-was should see him play. He is always there, and in addition to his good catch landed three hard swats in a double and two singles.

A number of the fans concluded yesterday that Adams would not do on the Perhaps team because he had a bad day at first base, after being out of play for many days. No one can take a driver from a delivery wagon and make him play gilt-edge ball without practice, and neither should utility players be expected to shine every minute.

The number of fans at the games this week shows that continuous ball is doing very well in this city, and the sport so far has justified the attendance.

SENATORS GO DOWN.

STRANGE BASE RUNNING.

[BY DIRECT WIRE TO THE TIMES.]

SACRAMENTO, May 13.—[Exclusive Dispatch.] Hosp's steadiness when the bags were dangerously chucked with Lawmakers was a strong factor in the victory gained by the Los Angeles team over Sacramento today, the fifth in a straight line. Combined with the effective heaving of Hosp was the bone-headed base-running of the Senators and these two factors were enough to give the locals the short end of a 3 to 1 score.

Sacramento threw away chances of scoring like a philanthropist. Three times were men caught at the plate when they had not a ghost of a show of earning it, and all through the session they persisted in trying to steal off Orendorff and Hosp when both were as wide awake as owls at midnight. For that reason it was an uninteresting exhibition.

Brown's benders ceased to puzzle the Angels after the second inning and they donned their batting clothes of last week and went after him. With two under cover in the third, Daley hit for one bag. He thieved another and landed up at third on Graham's wide toss. Godwin drove a hot liner to deep right that banged against the fence. It was only good for a triple but he tried to stretch it and was nabbed at the plate.

The real bumping Brown got was in the fifth. Capt. Dillon singled over second and watched the next two men go out. Daley drew a ticket and Godwin drove a short one to left. With the bags full Beall slammed fast to Shinn, who, after vainly hunting for the second bag, tried to get the former Sox. In this he failed and Dillon came over. Howard's single brought over another and it looked like the bases would be cleared on Jud Smith's drive to left, but House made a great running catch and retired the side.

The Angels came near drawing a fourth in the sixth round when Howard tried to score from second on Hosp's single to center, but Doyle made a pretty peg to the plate, nosing him out.

The lonely score made by Sacramento came in the third when Brown opened the round with a long slam for three bags to left. With one down Hosp tried to walk Doyle but the "demon" jumped up and popped the fourth ball over second for a dinky hit, scoring Brown.

The eighth and ninth innings brought men on third for Sacramento, but Hosp passed out the same Indian sign and there was nothing doing. Doyle was the only Senator who could find him, getting four singles out of as many trips up.

HITS ONE MAN.

WIGGS ALLOWS NO HITS.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, May 13.—Wiggs was responsible for Oakland's victory over San Francisco today, allowing neither hit nor run off his delivery. He was given errorless support and the eight hits off Corbett netted three runs for Oakland.

Big Wiggs almost pitched himself into a world's record, and stopped the winning streak of the leaders in the pennant race by a score of 3 to 0.

In fact, Wiggs came as close to the no-hit no-run record without a man reaching first base as has been attained on the Coast. Wiggs hit Kid Mohler in the first inning, but outside of that mishap not a San Franciscan reached first base.

Pitching wonderfully good ball and striking out eight men, Wiggs was accorded perfect support by the team. The Seals did not have a chance to score. Mohler was caught trying to steal second, and there was nothing that looked like a semblance of a hit.

Cy Young and a few others have pitched those games where not a man reached first, and when Wiggs had passed through the nine innings there was many a fan bemoaning the luck that caused him to hit Mohler.

STATE LEAGUE.

JONES LOSES HIS GOAT.

[ASSOCIATED PRESS NIGHT REPORT.]

STOCKTON, May 13.—Santa Cruz won easily from Stockton today owing to the fine work of Oscar Jones, who pitched a masterly game, allowing but four hits. Score:

Stockton, 1; hits, 4; errors, 1.

Santa Cruz, 3; hits, 10; errors, 1.

Batteries—Durham and Hackett; Jones and Conrad.

TRIPPETT TRIPPED.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN JOSE, May 13.—In the second game of the series, today, San Francisco batted Trippett out of the box early. Miller, who succeeded him, fared little better. The San José club fielded in very poor fashion. Score:

San Francisco, 9; hits, 13; errors, 3.

San José, 5; hits, 5; errors, 1.

Batteries—Gray and Bliss; Trippett, Miller and Phillips.

BATTING RALLY.

[ASSOCIATED PRESS NIGHT REPORT.]

OAKLAND, May 13.—With a lead of three runs in the third inning during a batting rally, which the home team could not overcome, Fresno took today's game, 4 to 1. Score:

Fresno, 4; hits, 7; errors, 2.

Oakland, 1; hits, 5; errors, 1.

Batteries—Schimpff and McDonough; Mockmore and Le Roux.

EXCEPTIONS.

## COAST LEAGUE GIVEN INELIGIBLE PLAYERS.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, May 13.—[Exclusive Dispatch.] According to a ruling that Cal Ewing received today from the National Baseball Commission, the Pacific Coast League is at liberty to take any of the players who are now with the California State League that it is able to secure, in spite of the recent order that such players who did not report to their various clubs on or before May 1 were ineligible to apply for reinstatement.

"Before this ruling," said Ewing, "we had an understanding with the minor leagues and also with the majors that we were to be permitted to use such players as we could secure. When this ruling came out, stating that such players must report back to organized baseball before May 1 or be barred from requesting reinstatement for a certain period, we did not fully understand the rule. Therefore, I wrote for an explanation.

"The national commission says that the Pacific Coast League is still permitted to use these players. If we should secure them, however, they would be compelled to stay in our league for three years, if they were players under reserve and for five years if contract jumpers. The main thing is that it does not prevent our offering terms to players in the independent leagues, should we so desire."

POLY CHAMPIONS.

LONG BEACH BEATEN.

Polytechnic High School, 6; Long Beach High, 1.

The Polytechnic High School baseball team won the championship of Los Angeles county by defeating Long Beach High at Long Beach yesterday afternoon. The match was the second in the championship series, the first game having resulted in an easy victory for the Mechanics.

Poly landed on Enloe for seven singles and three doubles, which, coupled with good base running, netted them their runs. The beach town players were unable to hit Tompkins, except in the first inning, when they got two timely hits that gave them their only tally.

The Mechanics were handicapped by the absence of "Monk" Pierce, captain of the team, who again has been suspended from school. However, after the fourth inning they had the game well in hand.

The feature of the contest was the clean fielding of the local team. Terry and Dodson handling everything that came their way, and the only error was made by Bibo in handling a difficult grounder. The score:

# Classified Liners.

Times Classified rates: The rate for inserting "Want" ads. in The Daily Times is 1c per word for each insertion; in the Sunday issue 1½c per word, each insertion; minimum charge, 25c; except under the following classifications the rate for which is 10c per line, minimum charge 75 cents: "Society Meetings," "Personals," "Special Notices," Church Notices, Miscellaneous," and "Bath and Massage."

"Liner" (Classified) advertisements for Sunday insertion received over the counter or by telephone after 11:30 o'clock Saturday nights will be inserted under heading "Too Late to Classify."

Sunday real estate advertisements, to be classified properly, must be in The Times office before 10:30 o'clock Saturday night. Rates 1½c per word.

The Sunday circulation of The Times exceeds 77,000 copies, and more "liners" are regularly printed in its columns than in the five other Los Angeles newspapers combined.

Telephone your want advertisements. Ring up "The Times" any time of day or night and secure prompt and careful attention.

The Times cannot guarantee accuracy or assume responsibility for errors of any kind occurring in telephoned advertisements.

THE TIMES will not be responsible for more than one incorrect insertion of any advertisement ordered for more than one time.

Advertisers should retain receipts given by The Times in payment for "Liners," so no mistakes can be rectified without them.

## SPECIAL NOTICES—

TO "LINER" ADVERTISERS:
Dating from June 1, classified advertising in The Times will be charged by the word at the following established rate of 1c per word in the daily issue and 1½c per word in the Sunday. Close calculations, covering a period of several months, develop the fact that the average number of words to the line are a fraction over seven. This basis for charge, therefore, will prevail after June 1.
Cash "want" advertising has always been calculated by the word, and this regulation will not change the manner of handling it.
The present "want" ad. rate has been in effect for many years, during the circulation of the paper, now more than 50,000 daily and 80,000 Sundays, has trebled during this period. This paper is the United States, rate considered, compares with The Times as "want" ad. service.
THE TIMES-MIRROR COMPANY.

FOR SALE— FOR HOME OR FOR INVESTMENT BUY IN OXFORD SQUARE. LOTS $1000 UP. Oxford Square will be popular and fashionable always. Its location favors it, as it is in one of the newest and best portions of the Wilshire district. All improvements in that locality are high class and this is the latest and best of all. Avenues leading to it are asphalted and traverse the finest residence portion of the city. Oxford Square has 70-foot wide, 60-foot roadways and cement walks and curbs. Large palms and shades trees ornament the parkings. Handsome electroliers mark the intersections. The ground is level. The view is grand. The sea breezes fan it. The electric railway cars pass it. Surrounding neighborhood is built up with homes of a superior class. Fair building restrictions. Compel similar fine homes in Oxford Square, a number of which are already built. IF YOU WISH A HOME SITE MAKE YOUR SELECTION NOW WHILE CHOICE IS WIDE. BIG LOTS 171 FEET DEEP. $1000 TO $1450. TERMS EASY OR WILL ARRANGE TO BUILD ON EASY PAYMENTS. TRIP EVERY HOUR EVERY DAY. EMIL FIRTH, 219 W. Fourth st., bet. Broadway and Hill. "You're safe at Firth's." Home A8105. Main 2542.

FOR SALE— MAIN-MONETA ACRES. Are you looking for a small ranch of 2½, 5 or 10 acres? SEE Main-Moneta Acres. A ride of 25 minutes on the Redondo-Moneta short line to Roseburn Avenue. $350 an acre and up. The soil is a rich sandy loam, excellent for all vegetables, berries and small fruits. Water is piped throughout the tract and will be deeded to the purchasers. You can have a fine county home and be close enough to the city to enjoy its advantages. Schools, stores and churches are nearby. Main Street Boulevard, which is soon to be macadamized from Los Angeles to San Pedro, passes through this property. If you will visit this property you will be convinced that there is no other acreage near Los Angeles that can compare with it for soil, location, water, car service, etc. Excursions every day. Free tickets at our office. PATTON & LONGLEY, 230 S. Hill st. Main 6278. A2218.

FOR SALE— FINE RESIDENCE LOTS IN THE MIDST OF IMPROVEMENTS WHERE VALUES ARE RISING. Whether you must not ignore Crestmont. As a home place it positively has no equal for view and climate. It is charmingly situated on the high ground in the angular northwest. It commands a beautiful mountain and marine view. Improvements are of the better class throughout. The landscape effect is carried out in the beautifully curved streets and sloping lawns. Drives lined with flowers and shade trees. It has fine water, cement walks and curbs, and oil-tamped streets. Everything about it appeals to the finer tastes. Suitable restrictions assure a nice class of homes. BIG LOTS WITH BROAD VIEW, $700 AND UP. EASY TERMS. 5C FARE. COME IN FOR COLORED FOLDER. EMIL FIRTH. 319 W. Fourth st., bet. Broadway and Hill. "You're safe at Firth's." Home A8105. Main 2542. Tract office, corner Golden Gate ave. and Sunset blvd.

## FOR SALE—
### Lemon or Orange Groves.

FOR SALE—
CLAREMONT ORANGE GROVES.

20 acres, $40,000, not first-class, but in 5 years will bring $60,000 as sure as California oranges are best—free water.

10 acres, $6000; 6 oranges, 4 cling peaches. Big bargain.

A nice home on a good 10 acres, ¼ lemons, ½ oranges, $15,000.

A 10 acres that has yielded 13,480 boxes in past three years, $15,000.

A. W. RICHARDS, Claremont. 15

# FOR SALE—
### Lemon or Orange Groves.

FOR SALE—
ORANGE GROVE BARGAINS IN THE FROSTLESS BELT. CLAREMONT, UPLAND, SAN DIMAS AND LA VERNE.

FOR SALE BY FRANK WHEELER, CLAREMONT.

For the past eight years the official expert land valuer for Los Angeles county. I know the soil conditions, water rights and actual values of every orchard in this county.

Fifteen years' experience as an orange and lemon grower here.

The investor or homeseeker may obtain valuable information and unbiased advice.

10 acres—$12,000—All navels, a thrifty, handsome grove. Trees 6 and 18 years old; this grove is an income-producer. Good location, magnificent view. Good water right. $7000 cash will handle this. A bargain.

10 acres—$7500—¼ navels and ¾ Valencias, 3 years. Cottage and barn. Frostless location, among the high-priced groves. Good water right.

12 acres—$20,000—All navels, 7 years old. Ideal location, high and sightly. Frostless and water in abundance. A thrifty grove and a bargain.

20 acres—$15,000—¼ navels and ¾ Valencias. A splendid grove. None better. High-class neighborhood. Good 6-room house and barn, domestic reservoir. Without exception the best buy on the market.

5 acres—$9000—All lemons. Good house (cost $2000.), and barn. On the main auto road between Los Angeles and San Bernardino, choice location. Trees are prolific bearers, and have always had best of care. A snap.

10 acres—$17,000—¾ lemons, ¼ navels. A good grove, on the Foothill blvd. Good house and barn. An interest-bearing proposition.

11 acres—$20,000—All navels, a splendid grove and an income-producer. Good 5-room home. Located one block from the Foothill boulevard. Frostless, good water right, and in an orange district which has no superior, and few equals. 3000-box crop from this grove this season.

10 acres—$17,000—All navels, except 240 lemons, grove which has few equals. $6000 crop this season. Double water right. Magnificent location an an avenue, extending from valley to mountains, and near the main auto road. A choice building site on the property, with a few large ornamental trees, fully grown.

Several other groves for sale at reasonable figures. Let me take you in my auto over the finest roads in the State, and inspect these groves for yourself. They will bear the strictest investigation, and satisfy the most exacting buyer.

FRANK WHEELER, INVESTMENTS, CLAREMONT.

Both 'Phones.

# Classified Liners.

## BUSINESS CHANCES—
### Wanted and Miscellaneous.

TO "LINER" ADVERTISERS:
Dating from June 1, classified advertising in The Times will be charged by the word at the present established rate of 1c per word in daily issue and 1½c Sunday.
Close calculations, covering a period of several months, develop the fact that the average number of words to the line are a fraction over seven. This basis for charge, therefore, will prevail after June 1.
Cash "want" advertising has always been calculated by the word, and this regulation will not change the manner of handling it.
The present "want" ad. rate has been in effect for many years, though the circulation of the paper, now more than 50,000 daily and 100,000 Sundays, has trebled during this period. No paper in the United States, rate considered, compares with The Times in "want" ad. service.
THE TIMES-MIRROR COMPANY.

EUCALYPTUS.
An expert grower of all commercial varieties wishes to meet parties with capital who will furnish land, one acre sufficient, seed, water etc. I will furnish labor and produce results and pay half expenses, there is money in it never better than at present and would like to talk it over with those interested. Would prefer to grow on shares; very small capital necessary to start on.
EUCALYPTUS,
Address C, box 17, TIMES OFFICE. 14

LIFE'S SEAMY SIDE.

## MADE ATTACK ON BLIND GIRL.

*Wealthy New Mexican Tried and Found Guilty.*

*Territory Roused by Pierce's Attempted Crime.*

*Five Years in Prison and Fine Maximum Penalty.*

[BY DIRECT WIRE TO THE TIMES.]

SANTA FE (N. M.) May 13.—[Exclusive Dispatch.] The jury in the case of the Territory vs. R. H. Pierce, former secretary of the Board of Trustees of the Institute for the Blind at Alamogordo and a wealthy citizen, today returned a verdict finding Pierce guilty of attempted rape upon Edna Cooper, one of the blind pupils in his charge, at the irrigation congress at Albuquerque last October. Counsel for the defense filed a motion for a new trial and Pierce was released on bond. The maximum penalty is five years in prison and $1000 fine. Pierce is 60 years old and has several grown children. He was summarily removed from his position last fall by Gov. Curry following indictment by the Bernalillo county grand jury after an alleged confession by the girl who is under sixteen years of age.

Feeling at Alamogordo was so intense against Pierce that he mysteriously disappeared. It was thought at one time that he had gone to Mexico, but it now developes that he went to a western State. Only recently, he returned to the Territory. It was reported about that, as one of his alleged victims had died he believed he was safe from prosecution. However- leaders of the faculty of the Institute for the blind, who had secured his appointment, took the matter up with Governor and other authorities, and demanded prompt action. So intense were they that they resigned in a body and this action forced the closing of the school for the present term. The members of the Board of Trustees also, it is understood, tendered their resignations.

Mr. Curry was a witness for the prosecution. The Governor offered the District Attorney the services of Attorney-General Clancy to assist in the prosecution.

The jury in the case was composed of seven natives and one American. Pierce's alleged victims were both blind children, this was believed de- ing against him.

### JAILER MADE PRISONER.

**Guy Sentenced to Penitentiary Traps Keeper in His Cell and Escapes.**

[BY DIRECT WIRE TO THE TIMES.]

VANCOUVER (Wash.) May 13.—[Exclusive Dispatch.] Charles Kitchen, under sentence for a term of from one to fourteen years in the penitentiary for burglary, escaped from the county jail after locking the jailer in a cell by a spring lock on the outside door. Oscar Johnson came into the jail shortly after about 11 o'clock to lock up Kitchen. He left the outside door unlocked and entered Kitchen's cell, but quick as a flash Kitchen, who had been crouched against the wall, sprang on the jailer over, dashed outside, slammed the door shut and was gone in an instant.

The jailer set up an outcry and pounded impotently against the steel door, but it was fifteen minutes before the passing heard him and he was released.

### BUTCHER SLAIN WITH AX.

**Body Found in Bed Saturated With Oil and Set on Fire—Reported Worth $200,000.**

[ASSOCIATED PRESS NIGHT REPORT.]

ST. PAUL, May 13.—Louis Arbogast, a butcher, was murdered in his home in this city today. His head was crushed and his bed saturated with oil and set on fire.

Louis Arbogast, aged 22, daughter of the dead man, and Mrs. Arbogast the widow, gave slightly different versions of the finding of the body. Both declare found an ax covered with blood in the cellar.

Arbogast is reported to have been worth about $200,000.

### ITALIAN SHOOTS RIVAL.

HIDING IN SWAMP.

[ASSOCIATED PRESS DAY REPORT.]

HARBAUGH (Mich.) May 13.—Believing he was afraid that Marrozzio would reach Italy first and marry his sweetheart, Rosa Leonaridi, Angelo Joe Dascolai is said to have shot and fatally injured his rival. The wounded man is at Mercy Hospital, while an armed posse is searching the country for his assailant.

Friends of the dying man have sent word to his sweetheart, and it is said she will make a race with time across the ocean to see her lover before he dies. There is little chance that he will live. Dascolai is hiding in the woods near here, while the Sheriff with bloodhounds are seeking him.

### CLERK KILLS WIFE, GIVES HIMSELF UP.

[ASSOCIATED PRESS NIGHT REPORT.]

SEATTLE, May 13.—Arthur George, a clerk, shot and killed his wife Elizabeth, at her home in Brighton, near Seattle, today, and after taking their two children, aged 4 and 6, boarded a street car and went to police headquarters, where he announced the crime and surrendered himself.

George left her husband three years ago because of his bad habits. They had trouble with him because he refused to give him money.

### CUTS THROAT WITH GLASS.

**Drives Nail in Head.**

[ASSOCIATED PRESS NIGHT REPORT.]

SPOKANE (Wash.) May 13.—J. E. Allen, an inmate of a hospital here, became insane early today, broke a window pane, cut his throat with the glass, and then his body in a score of places, securing a stick of wood about two feet long, split one end to a point and then struck himself on the head with it, sinking the point into his head nearly an inch. Notwithstanding his many wounds, he may recover. He is 36 years old and came recently from Pueblo, Colo.

### AWARDED FOR BRAVERY.

MARK (Ind.) May 13.—The War Department at Washington has awarded to Amos Weaver of this city a medal for conspicuous bravery in battle. Weaver formerly served in Company F, Thirty-fifth United States Infantry, and on March 5, 1899, he alone routed a band of insurgents, killing four and wounding several others.

INSATIABLE.

# FLAMES AGAIN ARE SWEEPING RAWHIDE.

[ASSOCIATED PRESS NIGHT REPORT.]

RAWHIDE (Nev.) May 14.—[Exclusive Dispatch.] Fire broke out shortly after midnight in the California beer hall in the upper end of town, the only portion of the camp that was saved from the conflagration of September 4 last, and at this time the camp is threatened by the flames.

A soft wind is blowing from the north, and if it should increase there is little hope for the town. The adjoining buildings are now ablaze and the fire is getting close to the Nevada Hotel, the one building that halted the fire of last September. The entire population is out, comprising men, women and children, and the volunteer fire department is doing heroic work.

A stream has been turned into the burning buildings against which the fire king seems to have little chance. The firemen are working like demons, and are fighting the flames at close quarters.

The entire heavens are aglow with the reflections of the flames, and it looks as if there will be a repetition of the September fire. While the fire was at its height screams of women were heard, and there was a rush up the hill on the ground between the Mint and Dayton-Toledo leases, and two women, both hysterical, were dragged out of their little home just above the powder magazine of the Dayton-Toledo. The names of the women cannot be learned at this time.

A cordon of men surround the Nevada Hotel. All the guests have been aroused and are in the street in various conditions of dishabille.

Later, the wind is dying out and it looks as if the town may be saved.

FINE POINTS.

## FINE JOCKEYING IN BALL GAME.

**GAME AT CHICAGO GOES FOR SEVENTEEN INNINGS.**

**Managers Cantillon and Sullivan Have Great Battle of Wits and Contest Ends in Tie—Gray Pitches to One Batter and Is Taken Out for Policy's Sake.**

[ASSOCIATED PRESS NIGHT REPORT.]

CHICAGO, May 13.—Chicago and Washington battled for seventeen innings today and the game was called on account of darkness, with the score 1 to 1.

White allowed only one hit in the last ten innings.

Manager Cantillon's tactics in the seventeenth inning probably saved his team from defeat.

The locals had men on second and third with one out. Manager Sullivan then took himself out of the game and sent in Welday, a left-handed batter. Cantillon then sent Hughes, who was then pitching, to right field and sent in Gray, a left-handed pitcher.

Sullivan countered by taking out Welday after Gray had pitched one ball to him. Then Cantillon tried to withdraw Gray and send Hughes back against Owens, a right-handed batter.

According to the new rule, it was up to Gray to finish pitching to the man who was then batting or give a pass. After some heated arguments, the umpires forced Gray to continue pitching to Owens. He did and passed him.

Tannehill was the next man up and Hughes returned to the box, while Ganley went to right field. Tannehill hit to Hughes and Altizer was forced at the plate. White ended the chances with a grounder to Delehanty. Score:

Chicago, 1; hits, 13; errors, 1.
Washington, 1; hits, 6; errors, 3.
Batteries—White and Sullivan; Johnson, Gray, Burns, Hughes and Street.

### SUGGS WEAKENS.

[ASSOCIATED PRESS NIGHT REPORT.]

DETROIT, May 13.—New York caught Suggs weakening in the eighth and drove him out of the box, winning 6 to 4. Score:

Detroit, 4; hits, 12; errors, 0.
New York, 6; hits, 11; errors, 3.
Batteries—Suggs, Willett, Donovan and Schmidt; Manning, Warhop and Kleinow.

### YOUNG IS EASY.

[ASSOCIATED PRESS NIGHT REPORT.]

CLEVELAND, May 13.—Boston made it three straight from Cleveland today, completely outplaying the locals and winning 8 to 1. Young was easy for his former teammates and was poorly supported. Score:

Cleveland, 1; hits, 5; errors, 4.
Boston, 8; hits, 17; errors, 0.
Batteries—Young and Easterly; Morgan and Carrigan.

### POSTPONED GAME.

At St. Louis—St. Louis-Philadelphia game postponed, rain.

### RESULTS IN MINOR LEAGUES.

AMERICAN ASSOCIATION.

Kansas City, 11; Columbus, 2.
Milwaukee, 3; Toledo, 5 (thirteen innings).

SOUTHERN LEAGUE.

Mobile, 6; Montgomery, 9.
Memphis, 1; Nashville, 3.
New Orleans, 2; Atlanta, 5.
Little Rock, 6; Birmingham, 1.

### NATIONAL LEAGUE.

**UMPIRE CUSACK ASSAULTED.**

[ASSOCIATED PRESS NIGHT REPORT.]

BOSTON, May 13.—In a hard-fought thirteen-inning game, today, during which Umpire Cusack was assaulted by one of the visiting players and three of them were ordered off the grounds, Boston defeated Cincinnati by a score of 3 to 2.

In the twelfth inning when Catcher Roth, running for McLean, was called out at the plate on a close decision, he attacked Umpire Cusack, striking him with both hands on the chest. Several of the Cincinnati players crowded around the official, threatening him with bats, but the Boston players succeeded in quieting the visitors. Score:

Cincinnati, 2; hits, 12; errors, 5.
Boston, 3; hits, 15; errors, 2.
Batteries—Campbell and McLean; Ferguson, Mattern and Bowerman.
Umpires—Cusack and Johnstone.

### HARD-FOUGHT GAME.

[ASSOCIATED PRESS NIGHT REPORT]

PHILADELPHIA, May 13.—Pittsburgh won a hard-fought game here today. The visitors got a winning lead in the seventh inning and held it. Score:

Philadelphia, 4; hits, 10; errors, 3.
Pittsburgh, 6; hits, 8; errors, 1.
Batteries—Moore and Doolin; Willis, Leever and Gibson.
Umpires—Emslie and O'Day.

### MATHEWSON WINS.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, May 13.—New York made it two out of three today from Chicago, the locals bunching their hits on Kroh and scoring four runs. Score:

Chicago, 1; hits, 4; errors, 0.
New York, 4; hits, 6; errors, 0.
Batteries—Kroh, Hagerman and Moran; Mathewson and Myers.
Umpires—Rigler and Toney.

### HOME RUN WINS.

[ASSOCIATED PRESS NIGHT REPORT.]

BROOKLYN, May 13.—Brooklyn defeated St. Louis in a pitchers' battle today with a home run to deep left. Score:

St. Louis, 1; hits, 4; errors, 1.
Brooklyn, 2; hits, 6; errors, 0.
Batteries—Lush and Phelps; Rucker and Bergen.
Umpires—Klem and Kane.

### WEDS HER STAGE HERO.

**Hotel Telephone Girl and Young Los Angeles Actor Slip Away to Be Married.**

Without a word to parents or friends, Warren Ellsworth Levey, a Los Angeles actor, and Miss Helen Wilkie, for the past year telephone operator at the Westminster Hotel, slipped away on Wednesday to San Bernardino, and were married at the rectory of St. Paul's M. E. Church by Rev. A. G. Clark.

Miss Wilkie appeared as usual for her work on Wednesday morning, and in the afternoon, which was her time off for the day, she joined Levey and they hastened to the Gretna Green of Southern California. Immediately after the marriage ceremony they took the train back to Los Angeles and Mrs. Levey, still Miss Wilkie to her friends, returned, as ordinarily, to her duties.

**Secretly Married.**

Mrs. Levey, formerly Miss Helen Wilkie, and Warren Levey, actor, who went to San Bernardino to be united.

When approached yesterday, Mrs. Levey was taken aback at being properly addressed, and finally admitted that the marriage took place.

"We intended to keep the matter a secret for another month, until I had finished my course at Woodbury's, and then we expected to leave for Seattle, where Mr. Levey has an engagement with a stock company," she said.

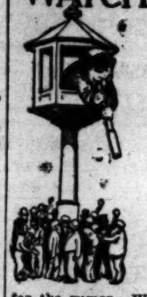
Mrs. Levey said she met Mr. Levey four years ago at the home of a friend. "We did not intend to be married for a year or so, but it all came on the impulse of the moment." Later in the evening Mrs. Levey tendered her resignation at the hotel, where her marriage was still unknown.

Levey is a Los Angeles boy, who has been playing in stock companies here and in other cities. Mrs. Levey was born here, also, and has been living with her parents at No. 2039 Dayton avenue. She has dark eyes and hair and is an accomplished musician.

### POPE HOLDS CONSISTORY.

ROME, May 13.—The Pope today held a semi-public consistory at which were read decrees, recording the canonization of the German redemptionist, Hoff Bauer, and the Spanish priest, Oriol. The ceremony will take place May 23.

## THE POLITICAL WATCH TOWER



I ran across a new one yesterday—Frank Wiggins for Mayor of Los Angeles. This is absolutely the latest gossip in the local political field, and I am free to confess that it came as a great surprise, for I never looked for Wiggins to get into politics, and I do not believe now that there is any justification for the rumor. Wiggins is at Seattle, engaged in installing the California exhibit at the Alaska-Yukon-Pacific Exposition.

I have heard, though, that a political organization has been at work for the last few months in an effort to enlist the official support of the Chamber of Commerce in the city campaign; that it has succeeded in winning several directors of the organization of 3000 members, and that its success has disgusted Wiggins, who has fought hard for these many years to keep the great aggregation of boosters out of politics.

From all I have heard in the past from Wiggins, I am certain that he will leave the Chamber of Commerce the instant that politics enters. If he were certain that there was even a hint of the practice of the game, I would wager anything on his quick resignation.

However, I feel sure that all this talk has little foundation; that the Chamber of Commerce will stay—as it has been in the past—clear of politics, and that Wiggins will continue to lead the country as the best booster of them all, without any desire to enter any political contest.

Still there are many persons who believe that Wiggins would be a fine head for a municipal ticket.

There have been a good many guesses in the past week as to the possible candidacy for Mayor at the next municipal election, which will be conducted under the new direct primary, provided for in the present city charter. Aside from the incumbent, "Tio Aleck," who has been laying his wires for reelection ever since he took office, the only candidacy that seems to have any support is that of Perry Weidner—and Mr. Weidner has not yet reached the point where he will admit that he wants the job.

But I notice that the Weidner boom is accumulating a good deal of gas, and it would be no surprise if he were to be the only formidable opponent of Alexander.

Who do you think proposes to seek the office of Sheriff as against Leo Youngworth, present United States Marshal, who is out, full tilt, for the place?

Who but Ernest R. Werdin, once Los Angeles Street Superintendent, and most always a candidate for Sheriff!

Werdin is the only one of whom I have heard that will get into the direct primary fight against Youngworth, though it may be possible that Hammel will make the try for a third term.

Youngworth asserts that he already is receiving much support, though the campaign is more than a year in the future. If Werdin can beat him, it will be because the "mutual admiration society" of former years has lost its hold—and present signs indicate that it hasn't.

In the last few days I have heard that Assemblyman Walter Leeds is going hard after the nomination for Senator from the Thirty-fourth District, to succeed W. H. Savage, whose term is about to expire. Savage is out of it—that is conceded by every one but the old man himself—and it is not settled that Leeds is to have a walkover in stepping into his shoes. D. G. Holt, a newspaper publisher of Santa Monica, would like to go as Senator to Sacramento, where he once was minute clerk in the Senate, and Assemblyman J. N. O. Rech, who made a brilliant record at the last session—his first experience as a legislator—also is to be considered as a candidate, though some of Rech's friends already are talking of him as a candidate for Congress. There has been talk, too, to the effect that Senator H. M. Willis, who represented San Bernardino and Inyo counties in the last two sessions, might go after Savage's place. Willis has just moved from San Bernardino to Los Angeles and is a resident of the Thirty-fourth District. He has been here so short a time, though, that he might find difficulty in identifying himself as a Los Angeles man upon bumping into the technicalities of the new direct primary law. As it stands, it seems that Leeds will be the leading candidate.

William P. Jeffries, a local printer and Republican politician, will be the Federal census enumerator for the Los Angeles district, for the census that is to be taken next year. His appointment will come through the recommendation of Senator Flint. The office carries a fat salary and much patronage.

I heard yesterday that politicians of several wards will unite this fall in an effort to secure representation for each ward in the new Council that is to be elected in December. The charter provides for the election of Councilmen-at-large, and there is nothing to prevent all of the nine Councilmen from being elected from one ward—the Fifth, for instance, which has a tremendous vote. An effort is to be made to send Barney Healy back from the Eighth, and Henry Lyon from the Seventh, and vote-winning candidates are to be selected in the Second, Third, Sixth and Ninth wards. Apparently it is the intention to permit the First, Fourth and Fifth wards to go it alone, as the Councilmen from the six wards mentioned, if successful in being elected, would control the Council.

It would be an easy matter, even under the direct primary law that is to have its first trial at the fall election, for politicians of several or all of the wards to get together and frame up a ticket. "You scratch my back, and I'll scratch yours" would be the slogan. The result would be just what the majority in all the wards might agree upon.

It is a far cry to the county election next year, but I hear already that the plan is to make a clean sweep of the Courthouse—almost a clean sweep, at least. With one or two exceptions, the intention seems to be to place new men at the head of the different offices. From all that I have been able to gather, Recorder Charles L. Logan is about the only official who will not have to worry. He is serving his first term, and there seems to be no objection to his remaining for another four years.

There may be one or two others—and it is possible, too, that Logan will not be permitted to rest—but, on the whole, a change in business all around is scheduled for the Courthouse.

Much depends, of course, on the working of the new direct primary law.

WEATHER: Clear at 5 p.m.; wind southwesterly, velocity, 8 miles per hour.

The German steamer Erna, anchored in the outer harbor this morning with 750 sacks of fertilizer, which was lightered to the wharf, as it did not pay to bring the big steamer in for so small an amount of freight.

The tug Redondo came over yesterday for the purpose of having her boilers cleaned.

The British tramp steamer Clan Macinnis yesterday completed the discharge of 1900 bales of kapac fiber from Java, from the hold to the dock in less than eight hours. The steamer has excellent facilities for handling cargo. She was loaded in the hatches, but the fiber is so light that it was also necessary to carry a thousand tons of water ballast to make the vessel seaworthy. The cargo was loaded in Java and the vessel carries a crew of fifteen Mohammedans, who receive 11 cents per day wages and keep themselves. The Clan Macinnis will discharge balance of cargo at San Francisco. She has been chartered to carry merchandise from there and Puget Sound ports to Australia.

SAN FRANCISCO, May 13.—Sailed: Steamers Santa Rosa, for San Diego; Hanalei, San Pedro. Arrived: Steamers Doris, Redondo; Mandalay, San Pedro; Marshfield, San Diego; Whittier, Port San Luis.

**Redondo Beach.**

ARRIVED—THURSDAY, MAY 13.

Steamship Governor, Capt. Jepsen, from San Diego.

SAILED—THURSDAY, MAY 13.

Steamship Governor, Capt. Jepsen, for Seattle.
Steamer J. Marhoffer, Capt. Winkle, for San Diego.

IN PORT—THURSDAY, MAY 13.

Tug Redondo, Pier No. 2.

SCHEDULE OF ARRIVALS AND DEPARTURES OF PASSENGER STEAMSHIPS.

THURSDAY, May 13.—Steamship Governor, from San Diego, via San Pedro, en voyage for Seattle, via San Francisco.
FRIDAY, May 14.—Steamship Santa Rosa, from San Francisco, via Santa Barbara, en voyage for San Diego, via San Pedro.
SUNDAY, May 16.—Steamship Santa Rosa, from San Diego, via San Pedro, en voyage for San Francisco, via Santa Barbara.
TUESDAY, May 18.—Steamship President, from Seattle, via San Francisco, for San Diego, via San Pedro.
THURSDAY, May 20.—Steamship President, from San Diego, via San Pedro, en voyage for Seattle, via San Francisco.

LOADING FOR REDONDO BEACH.

Steamer Jim Butler, at Gray's Harbor.
Steamer Olsen Mahoney, at Gray's Harbor.
Schooner Prosper, at Hilo.
Schooner Azalea, at Eureka.
Steamer F. Sander, at Everett.
Schooner Eldora at Gray's Harbor.
Schooner Mahukona, at Eagle Harbor.

SAILING FOR REDONDO BEACH.

Steamer Wellesley, from Everett.

**Movement of the "Mosquito Fleet."**

Sloops Ina, Martha, Redondo, Eagle and Helberta sailed for the fishing banks and returned with 1500 pounds of fresh fish for Los Angeles and Redondo wholesale dealers.

**Notes.**

The steamship Governor arrived today at noon from San Diego and sailed at 2 o'clock for Seattle with 180 passengers and 80 tons of freight from Los Angeles.

# We Are Curing the Sick by "PASTEUR" Treatment

## DISEASES

As Catarrh, Bronchitis, Tuberculosis, Appendicitis, Jaundice, Female Diseases, Joint Diseases, etc. All chronic diseases begin as acute diseases, and by neglect or failure to diagnose and treat them properly, become chronic. These diseases are amenable to treatment and cure. Good health is absolutely essential to Happiness and Success. Our system is based on scientific knowledge of the best medical authtorities in the world.

## Catarrh Treatment

There is no real reason why you should treat for months for this most common of all diseases. For catarrh is strictly and wholly a germ disease—and the longer you put off treatment the more numerous the germs become; for they spread rapidly and interfere with every working organ of your body. "Pasteur," the great discoverer of germ diseases and the methods of quick eradication, has given to medical science the greatest discovery for centuries. No more suffering for months and years—but put yourself under the care of our experienced specialists, and be soon restored to health. No fancy prices, but a reasonable fee for good service.

We especially recommend our treatment as applied to diseases of women and children, as well as all forms of acute and chronic diseases—medical and surgical.

## NEWS AND BUSINESS.

**Englishman Missing.**

The mother of James Edward Proudfoot is anxious to hear from him. When last heard from in February, 1908, he was living in Los Angeles. British Vice-Consul Mortimer is trying to locate the man.

**To Answer Capt. Smith.**

At the City Club tomorrow Rev. E. S. Chapman, head of the Anti-Saloon League, will answer Capt. D. M. Smith, who talked last Saturday on "Model License" and advocated saloon reforms by the saloon-keepers.

**Irrigation Project Contract Here.**

A contract has been awarded to the Fulton Engine Works of this city for furnishing the controlling mechanism for the penstock and sluicing gates in connection with the Minidoka irrigation project, Idaho. The contract amounts to $8048.

**Honor for Los Angeles Girl.**

Among the successful candidates for the bachelor arts degree in Wells College, Aurora, N. Y., this year, is Miss Aileen Elizabeth Staub of Los Angeles. She will receive the degree with honors at the commencement June 9, and is the only Pacific Coast girl in the graduating class.

**Municipal League Election.**

At the annual meeting of the Municipal League yesterday the following-named were elected: President, J. O. Koepfli; first vice-president, C. D. Willard; second vice-president, James A. Anderson; treasurer, W. J. Washburn; directors, Dr. F. B. Kellogg, M. Lissner, Marshall Stimson, H. R. Boynton, Frank Simpson, A. L. Stetson, Gilbert S. Wright, Frank J. Hart, Shelly T. Tolhurst, Louis Lichtenberger and R. W. Burnham.

**Woman Disappears from Hotel.**

Upon the request of James Humphry of No. 422 South Hope street, the police yesterday took up the search for his sister, Miss Mary Humphry, 47 years of age, who disappeared from the Golden State Hotel, last Sunday. Miss Humphry came here from her home in Iowa, two months ago. She had been ill for a long time, and it is thought she wandered away while temporarily deranged. She has another brother living at Selma.

**Missing Girl Found in Hills.**

Little the worse for an outing of a day and night in the foothills near Garvanza, Marie Waters, 13 years of age, who disappeared Tuesday afternoon, was returned to her parents, Mr. and Mrs. F. P. Waters of No. 1643 West Twentieth street, yesterday morning. Miss Waters is a pupil of the Marlborough School. Tuesday afternoon she dropped out of sight. She was found by a resident of Garvanza late Wednesday night and given food and shelter over night. She told her parents yesterday that she went for a car ride, and then wandered about until found. It is supposed she slept outdoors Tuesday night.

## BREVITIES.

To "Liner" Advertisers: Dating from June 1st, classified advertising in the Times will be charged by the word at the present established rate of 1c per word in the daily issue and 1½c Sunday. Close calculations covering a period of several months develop the fact that the average number of words to the line are a fraction over seven. This basis for charge, therefore, will prevail after June 1st. Cash "want" advertising has always been calculated by the word, and this regulation will not change the manner of handling it. The present "want" ad rate has been in effect, for many years, though the circulation of the paper, now more than 50,000 daily and 80,000 Sundays, has trebled during this period. No paper in the United States, rate considered, compares with The Times in "want" ad service. The Times-Mirror Company.

Remember the slogan: "Buy and Boost Home Products." For daily references, see page 11, part II, of The Times, containing list of wide-awake manufacturers, under the heading "Made in Southern California." You will find there are manufacturers of necessities and luxuries here—manufacturers of things to eat and drink—things for the home, the factory, the office and the farm. Buy them! Try them! There are none better. Buy and Boost, and keep your money at home where it will do you and yours the most good!

The Kerckhoff-Cuzner Mill and Lumber Company have established their general offices Rooms 201-207 Kerckhoff Bldg., Sixth and Main sts.

## NORTHWEST BOOSTERS.

**Improvement Associations, Meeting at Edendale, Consider Improvements for That Section.**

Members of the Federated Improvement Association met last night at Edendale with the improvement association of that place and discussed matters of interest to the northwestern part of the city. Supervisors Eldridge and Pridham and Councilman Ciampitt were among the county and city officials who attended. The Edendale people expressed their approval of the plan for the improvement of the Los Angeles River bed from Ninth street to Elysian Park and agreed to aid in the movement for a union depot. The question of garbage disposal also was discussed, but no conclusion was reached.

One of the projects that the Edendale people advocate is the building of a belt line trolley system through Elysian Park, by which the northwestern part of the city would be connected with the Los Angeles Railway lines.

Among the speakers at the meeting were Will D. Gould, C. T. Paul, Supervisors Eldridge and Pridham, Councilman Ciampitt, Dr. Hamilton, Dr. Hoffman, Dr. Hall, Dr. Hunter, Dr. Hoffman, Dr. Hall, Dr. Hunter, Dr. Hoffman, Dr. Hall, Dr. Hunter

SORROWS OF CUPID.

## SAYS CHARMER STOLE HUBBY.

*Rich Matron Is Accused of Luring Chauffeur.*

*High Price Set on Balm for Affections Lost.*

*Blackmail Attempt, Asserts the Defendant.*

The romance of Mrs. Jane Harris culminated yesterday in the filing of a suit for $150,000 damages for alleged alienation of her husband's affections, against Mrs. Grace Velie Harper, a former resident of Rock Island, Mobile, and Davenport, Ill., and reputed to be one of the wealthiest women in that section of the State. Stuart Harper is also made a defendant to the suit, evidently for legal reasons, as he

Principals in a Tragedy of Hearts.
Mrs. Harris is suing Mrs. Harper for heavy damages for the alleged alienation of the affections of her husband. Harris was Mrs. Harper's chauffeur.

seems to have figured little in the alleged cyclonic shattering of many dreams by his wife.

The romance died hard and it was only after the fragments were found scattered over the entire country that the Los Angeles courts were asked to supply balm for a broken heart, if there is basis for the plaintiff's allegations. The defendant says there is not; that the whole thing is a plain case of attempted blackmail.

According to the wording of the complaint, Mrs. Harper used her "arts, enticements and allurements" to maliciously alienate the affections of Sidney Harris, husband of the plaintiff and chauffeur of the defendant, from his lawful wife. Mrs. Harper had employed Harris six months previous to his marriage with the defendant and after several months of wedded bliss, according to the complaint, he surrendered completely to the arts, etc., of the mistress of the automobile of which he was pilot.

WHIRLWIND'S CENTER.

Rock Island, Mrs. Harper's home, was the center of the whirlwind of trouble that followed. It was there, in December, 1907, that the defendant obtained the supremacy over the much-contested affections of her chauffeur, and from that time until the following January held undisputed sway.

In January, Mrs. Harris obtained a reconciliation with her husband, and departed with him from Rock Island, whither it is not stated. Wherever it was, it lacked sufficient attractions to help Mrs. Harris control his wandering affection, and in March he returned to Rock Island, and the wiles of Mrs. Harper, against the wishes of his wife, so she says.

In the records of this period, and, in fact, during the whole time up to the present, Mrs. Harper's husband is not mentioned in the complaint. According to Mrs. Harris, he is now in Lincoln, Neb., and doesn't seem to be interested in the affairs of his wife.

The fortune of slightly over $750,000 which the plaintiff avers is possessed by the defendants, belongs entirely to Mrs. Harper, her husband, although formerly having money of his own, having "gone through" it. He worked in the office of the Velie Carriage Works at Moline, which were the property of Will Velie, Mrs. Harper's brother, and in which she is also in-

(Continued on Ninth Page.)

ELKS WILL KNOW IT.

**Flower Garden Will Tell Them Location of Courthouse, Grounds of Which Are Beautified.**

When the Elks reach Los Angeles in July they will have no difficulty in identifying the big red stone building at Temple street and Broadway as the seat of county government.

Supervisor Eldridge, chairman of the Committee on Courthouse Grounds, has just completed arrangements for a flower bed on the Broadway lawn that will spell out "County Courthouse" in bold letters, so that he who runs or rides may read.

In addition, the grounds have been beautified by the setting out of many fine trees, including palms, Italian cypress, spruce, redwood, "monkey puzzle," Norfolk Island pines and golden arbor vitae—some on the Broadway lawn and others on the New High-street frontage.

Gardener Ross has just put in a bed of pansies, a crescent-shaped bed of begonias, and a bed shaped like a weinerwurst, which contains English daisies. Close to the walls of the building, on the west and east sides, there are to be border gardens of carnations and red geraniums.

It is expected that within a little more than a month the geraniums and carnations will be in bloom, and that the flower beds on the Broadway front will be a blaze of color. The small trees just set out are in fine condition, and even now the grounds are more attractive than they ever have been before.

HAT MAY BE PAUL'S.

**Searchers Looking for Missing Man in the Country About Bay City and Huntington Beach.**

A party of searchers, headed by Officers Harry Wilson and Cason of Long Beach, is scouring the country between Bay City and Huntington Beach in the hope of finding William Paul, who disappeared from his home in Los Angeles.

A man thought to be insane was seen near the Bixby ranch Wednesday afternoon, and pursued by officers, but escaped. Yesterday, relatives of Paul, with the officers and a number of volunteers took up the trail and followed it to New River. There a number of pools were dragged, but no body was found, and the search was resumed. At Bay City, a hat lay on the east bank of the New River. Relatives stated that it belonged to Paul.

Officers in the vicinity of Huntington Beach and farther south have been requested to keep a close watch for the missing man.

GAS EXPLODES.

**Lighting of Match Near Leak in Main Results in Painful Injuries to Electrician.**

While watching a crew of men at work repairing a leaking gas main in front of No. 412 East Fifth street late yesterday afternoon, an interested bystander lighted a match. Instantly there was an explosion and a burst of flame.

As a result, Edward Turner, an electrician, residing at No. 321 Crocker street, is in the Receiving Hospital suffering from burns on the hand and face which will disfigure him for life. Turner also was an innocent onlooker.

He had just emerged from the house at No. 412 East Fifth street, where he had worked during the day and stopped for a few minutes to chat with the gas men. He had been standing near the main only a few minutes when the explosion occurred. While his injuries are painful and disfiguring, they are not serious.

TO RAILROAD HEADS.

## ASK MAGNATES FOR STATION.

*Permanent Organization for a Union Depot.*

*Hearty Is Indorsement of Big Project.*

*Money Could Be Raised Here, Is Suggested.*

Permanent organization of the Los Angeles Union Station Association was effected at a meeting held at the Chamber of Commerce yesterday afternoon. Representatives from practically all the civic and commercial bodies of the city were present. The union depot project was enthusiastically indorsed, and a committee was appointed to draw up a suitable expression of the sentiment of the organization and embody it in letters to E. H. Harriman, head of the Southern Pacific system. President Ripley of the Santa Fé and President Clark of the Salt Lake Railroad.

While some present advanced the opinion that letters would be of little avail, others stated they would have a moral effect upon the railroad magnates as showing the insistent demand of Los Angeles citizens for an adequate union station. Gilbert S. Wright, F. W. Blanchard, William A. Garland and John W. Mitchell were chosen a committee to draft the letters.

Wright was elected president and Blanchard secretary of the permanent organization. Representatives from the following bodies were present when the meeting was called to order: Merchants' and Manufacturers' Association, City Council, Board of Supervisors, Wholesalers' Board of Trade, Credit Men's Association, City Club, Municipal League, Clearinghouse Association, Associated Jobbers, and a number of fruit, produce and other mercantile associations.

"DISGRACE TO A CITY."

"We have met here to discuss ways and means for securing a union depot that shall be a credit to the city," said President Wright, who is also chairman of the Chamber of Commerce special committee. "We don't propose to go into hysterics, but to discuss the subject as business men. The present inadequate railroad stations are a disgrace to a city of this size. Many small way stations have better accommodations than the three transcontinental roads furnish Los Angeles with its 300,000 residents."

A ripple of laughter went around the room, when in response to an inquiry as to what had been accomplished by the Chamber of Commerce committee, Wright replied: "We have had several chats with prominent railroad officials; I don't believe the committee succeeded in getting beyond the 'chatting' stage."

William A. Garland said that it must be understood at the outset that the plan for the big union station is in no sense a real estate proposition. He said that the cause is a worthy one and he believed that every citizen is willing to disregard personal aims in the effort to secure a long-needed public improvement. He referred to the bad impression made upon travelers when they alight at the Arcade station and compared the dingy building with the fine depots in Boston, St. Louis and other cities. He gave a history of previous efforts to induce the Southern Pacific to build a new station on the site of the present building and emphasized the fact that the plan was first broached by the railroad company.

"The Southern Pacific quietly secured all the land it needed," continued Garland, "and then got a deed from the city to the stub of Fifth street on the promise that a fine new station would soon be erected.

"I would rejoice to see the Southern Pacific collect that $1,600,000 from the government, but I don't think it is

(Continued on Ninth Page.)

## POSTAL RULE HITS US ALL.

**Delinquents in Payment of Taxes Chief Sufferers Through Federal Regulation.**

If you have not paid your city or county taxes for the last year, or for the last half of last year, do not wait for a notice from the City or County Tax Collector. There will be no such notice. Delinquents will be delinquents, and their only hope of salvation will lie in their ability to reach the office of either collector ahead of the leeches who lie in wait to suck the golden blood from those who neglect their own obligations.

County Tax Collector Welch stated yesterday that he could send no more postal card notices to delinquents because the Postoffice Department had ruled that such notices are classed as "duns," which are prohibited by the Federal statutes, and which cannot be handled through the mails.

Wherefore, it behooves every owner of property to see that his taxes are paid, without awaiting advice from the Collector.

A penalty of 5 per cent. attaches to all county taxes that were not paid by April 26, and after next Monday there will be an additional penalty for each and every lot upon which dues are not yet paid.

Property on which the taxes are not paid within five years from the date when due is sold by the State. The delinquent list this year is small.

OBJECTS TO HIGH HATS.

**French Ambassador, Coming First of Next Month, Desires no Formality in His Reception.**

If the wishes of Ambassador Jusserand of France are respected on his arrival in Los Angeles on the first day of next month, the receiving party will not wear high hats and frock coats, and his entertainment here will be marked with the greatest simplicity.

The desires of the Ambassador, as expressed through Senator Flint at Washington, are that he be treated as an ordinary person, and that there be no demonstration, in clothes or otherwise, when he steps from the Santa Fé train at 8:25 o'clock on the morning of June 1, accompanied by Mme. Jusserand.

M. Jusserand and his wife are to remain in Los Angeles two days, then depart for Santa Barbara and San Francisco. Members of the local French colony and of the Chamber of Commerce will greet the distinguished visitors, and there will be a committee of other representative citizens, of which Gen. Frank C. Prescott will be chairman. To this committee Mayor Alexander yesterday added the names of Marc Durand, Louis Sentous, Jr., Leon Loeb, Jules Viole and George Chartier.

According to advices that have been received from Washington, the wish of the Ambassador is to visit the orange groves and vineyards of Southern California in an unostentatious way, and to get at the facts with reference to the fruit and wine industries in this section, particularly for the benefit of the people of his native land.

It had been his intention, it is said, to come here without public announcement, and to make a tour of Los Angeles and the surrounding country virtually in cog. But he could not hope to escape the attentions of the resident people of his own nationality, and so it has been arranged that he shall be escorted on his tour by members of the French colony and of the Chamber of Commerce, and by representatives of the city, who are keen to do him honor.

Anticipating all these preparations, Senator Flint, who is a personal friend of the Ambassador, has sent advices to the effect that the distinguished visitor will be best pleased with the minimum of formality.

However, M. Jean Adrien Antoine Jules Jusserand will find himself under the necessity of attending one or more banquets while here. The plans for this form of entertainment have not been completed.

FLAVOR OF ORIENT.

## TO YOKE LON YOKES CHUNG.

*Brilliant Is Wedding of Christian Chinese.*

*Local Merchant Takes a Bride from North.*

*Paradise Bird Over Pair in Benediction.*

Chung Tom, a prosperous merchant of Chinatown, last night married, at the Chinese Methodist Episcopal Mission, Yoke Lon, a ward of the Occidental Board of Foreign Missions in San Francisco. The bridegroom is himself a former student of the Chinese Methodist Episcopal Mission. He entered the mission twelve years ago, as a member of the evening class.

Yoke Lon was brought to this city a few days ago by Miss Cameron, superintendent of the Presbyterian Mission Home in San Francisco, where Yoke Lon has been a student in the training school of the mission for the past four years.

LOADS OF FLOWERS.

This is the first wedding ever celebrated in the rooms of the local Methodist Mission. For a week previous the evening school was suspended in order that the place might be set in order for the ceremony. Every vegetable boy in Los Angeles who was connected with the mission was commissioned to secure as many flowers as

Wedded Under "Dove."
Chung Tom and his bride, formerly Yoke Lon, who were united by a Christian ceremony at a local mission last night. A bird of paradise, made of flowers, hovered above them.

CLIMAX.

## WALKER TAKEN NORTH; HIS FRIEND ARRESTED.

LIEUTENANT - COMMANDER JAMES E. WALKER, U.S.N., over whom there has been a stir in naval circles on the Coast and at Washington, was taken from the Pacific Hospital yesterday afternoon, and is on the way to the Naval Hospital at Mare Island under guard. His custodian is Chief Electrician Merriman, attached to the naval recruiting station here.

The charge against the naval officer is that "he is mentally unfit to take care of himself and that he is incapable of performing any duty to which he may be assigned." The orders for his transfer have been in the hands of Lieutenant-Commander Olmstead for several days, but were not executed, owing to the condition of Walker's health, following his sightseeing tour in and about Los Angeles.

Another development of the Walker case brings into the limelight A. M. Rockwell, a former naval officer, but now a mining engineer, who was arrested on Broadway last night, charged with passing a fictitious check on the Rainier saloon. It is Rockwell whom Walker came to Los Angeles to see, and who showed the naval officer the sights of the town. The check was for $25, and Rockwell asserts that the muddled state of Walker's financial affairs is responsible for his failure to have funds in the bank with which to meet payment on the doubtful paper.

RESIGNED FORM SERVICE.

From Washington yesterday came the surprising information that Walker is not and has not been a naval officer for some time. His resignation from the service, Navy Department officials said, was tendered to the Department while the lieutenant-com-

Governor of Guam. Although it has been accepted, following naval regulations Walker is still under the authority of his superiors until he shall have reported his arrival at his home in Charlotte, N. C., or his case is otherwise disposed of.

The story of Walker's present difficulty goes back to the time when, as Governor of Guam, he suffered a sunstroke. Immediately after that he sent in his resignation. It was taken up by the Department, but owing to the fact that things were unsettled as a result of the impending change in the administration, no action was taken on it at that time. Later, about February 27, Walker was ordered transferred to China. From there, after three weeks, he was sent as special governmental agent to Japan.

While in China the naval officer, whose family is very wealthy, became interested in a mining scheme in the interior. He again urged his resignation, and was ordered to return to his home. Shortly after his arrival in San Francisco, where he permanently separated from his wife, Walker came on to Los Angeles to see his friend Rockwell, in whose experience and knowledge of mining affairs he had every confidence. Before leaving the northern city, however, he entered into communications with the Chinese Consul-General in regard to his mining scheme.

He also gathered to himself several acquaintances, who apparently found him a "good thing," for they followed him to this city.

OFFICER'S MOVEMENTS.

According to a statement made to The Times by Rockwell prior to his arrest yesterday, Lieutenant-Commander Walker was in a serious physical condition on his arrival here. He declined, however, to see the naval

# THE PUBLIC SERVICE—In the Courts and Offices

### SUMMARY OF THE DAY.

West Side property owners are organizing to condemn the ravine running from Sunset boulevard to Pico street for park purposes by district assessment.

Demurrers in the school bond issue case will be argued before Judge Bledsoe today.

Citizens of Huntington Beach were out in force yesterday to hear and give testimony in the contested divorce action of Esther A. Carpenter against Fred H. Carpenter.

The will of Joseph H. Burke, a pioneer, was filed for probate yesterday. Property in excess of $20,000 is left to the widow and children.

AT THE CITY HALL.

## TO MAKE PARK OF RAVINE.

WEST SIDE EYESORE MAY BECOME BEAUTY CHAIN.

Movement to Acquire Ugly Channel Running from Sunset Boulevard to Pico Street Under Provisions of New Park Law—Assessment by Large District.

The efforts of residents of the northeast part of Los Angeles and of Pasadena people to convert the Arroyo Seco into a long park has inspired a movement on the west side for something similar.

Property owners between Sunset boulevard and Temple street desire to save the long ravine that extends from Sunset boulevard at Casco street to a point near Arlington and Pico streets, in all three miles long, and from 300 to 1000 feet wide, condemned for park purposes, and paid for by the creation of an assessment district under the new park law passed by the last Legislature, and under which the Arroyo Seco, Sixth Ward and other sections are asking similar condemnations.

This ravine is useless for building or business purposes, is mainly a channel for surface water, and in many places polluted with the oil escaping from the near-by wells. So much oil has invaded it at places that it is offensive. It is the best known by its wide curve near the Bimini baths, where it possesses natural park advantages.

It is believed this land could be obtained very cheaply, and that the city would not be required to invest much to improve it. The cost, distributed over such a large district, would be trivial, it is computed.

A petition will probably be presented to the Council soon.

### MISSING COAL.

OWNER THREATENS SUIT.

Whether to pay for thirty sacks of coal, arbitrate, or defend a lawsuit is the proposition put before the Fire Commission yesterday by J. E. Murray, president of the Black Cañon Coal Company, at Washington and Alameda streets.

Fire department members confiscated coal to keep the steamers working at a fire near the coal yard last January, and they reported they had taken eleven sacks. The department offered $8.25 in payment. Murray says the firemen left the coal yard gate open, and thirty sacks were missing. He would not accept the money offered.

Chief Lips believes his firemen and Murray cannot account for the other nineteen sacks and the commission, in doubt what to do, has asked the City Attorney to unravel the case without a lawsuit, if possible.

The commission also heard a three-cornered dispute over the Winfield engine-houses. One element wants it moved far away, another wants it sent to Pico street, and a third wants it left alone. When the Pico-street faction learned that the house would be sent far away if moved at all it joined with those who do not want it moved and the commission decided to let it alone.

Those demanding its removal absolutely filed written charges, accusing the members of the hose company with loafing, but the signers refused to name the offenders or swear to the charges. Chief Lips said he had investigated the charges among the neighbors, and had not been able to find substance for them. The Mayor refused to heed the accusations until they were sworn to.

### NEW OIL TEST.

WILSHIRE BOULEVARD.

W. M. Humphreys, inspector of streets, reported to the Board of Public Works yesterday a plan for testing the use of oil in making unimproved streets dustless and the plan met approval. The city is between two fires as to whether to use heavy or light oil in this method of sprinkling, and the test decided on is to be kept up several months.

Wilshire boulevard is the street selected because it has width and several grades of soil. The north half of the street will be sprinkled with light oil and the south half with heavy, and the absorption, dustlessness and difference in cost will be determined by close observation.

Oil Inspector Blackmar is firm in his faith in the heavy oil, but Humphreys says the experience of the street department is that the light oil gets best results. There is so much expert authority on both sides that the test is necessary.

The distribution will be made by the Santa Ana distributor, a new machine, that precedes the sprinkling with a process of loosening the surface, so the oil is absorbed, and does not coagulate or run to the sides.

### Gardena's Improvements.

Gardena's main street, Palm avenue, is to be improved and oiled by the Board of Public Works, and the town is also to have eight street lights. This was determined by the Board of Public Works yesterday.

### Moving Picture Permits.

The City Attorney's decision as to the transfer of permits also affects moving picture show permits as one of the owners found out yesterday when he attempted to transfer his permit to a new purchaser. The Building Inspector, who issues the permits, declined to issue it until a new one had been applied for.

### SAVAGE ARRAIGNED.

State Senator William H. Savage was arraigned in Justice Rose's Police Court yesterday on the criminal libel complaint filed by T. E. Gibbon. He was given until next Tuesday to enter a plea.

For Nervousness and Sick Headache Liver Beans are excellent and prompt.

Chamberlain's Stomach and Liver Tablets will brace up the nerves, banish sick headache, prevent despondency

GOOD FINANCE.

## CITY MAY BUY BACK ITS OWN WATER BONDS.

THE City Council will be asked by the officials in charge of the aqueduct sinking fund to purchase a large block of the city's aqueduct bonds on the same basis as they were sold.

W. B. Mathews, counsel for the aqueduct, is now in New York, conducting negotiations with Kountze Bros., who headed the syndicate that purchased the first issues, and also hold an option on the remainder of the $23,000,000. Mr. Mathews wired last night that the deal, in all probability, could be made, and the Council will be asked today to ratify it.

In a nutshell the proposition is that the city invest $240,000, which has accumulated in the aqueduct sinking fund, in its own bonds, and cut off the 4½ per cent. interest. Kountze Bros. hold $80,000 of the first issue and enough of the second to consume the whole sinking fund balance.

The bonds are offered back to the city on the same basis on which they were sold—par and one-fourth of 1 per cent. premium. The city would thus reduce the aqueduct debt almost a quarter of a million, and pay only 4½ per cent. interest on that amount for a little more than two years. The city would pay the accrued interest to the date of sale.

When the adjournment of the Council last Tuesday was taken, it was explained that aqueduct matters would be presented. But the real purpose was not disclosed until last night when City Attorney Hewitt received a telegram from Mr. Mathews saying the deal seemed sure.

Before Mathews left for New York the details were arranged with the City Auditor, who is the custodian of the sinking fund. But the possibility of such a deal was insured only by the law, which the City Attorney, acting for the aqueduct department, got through the last Legislature, permitting a municipality to invest its sinking fund in its own bonds or the bonds of any other municipality in the State. This is the first proceeding under the law, and it amounts to a book-keeping proposition only.

The aqueduct sinking fund now has $166,000 to meet interest charges and $240,000 to apply on principal. Without investment it would lie idle in the city treasury. By investing in the city's bonds the fund practically earns for the city the interest that would be paid while the sinking fund is accumulating to meet the first payments in 1914.

AT THE COURTHOUSE.

## GETS SORE AT THE WASHING.

FAMILY LAUNDRY WORK HARD FOR HUSBAND.

Romance Which Begins With Introduction of Young Couple at Evangelistic Meeting at Huntington Beach Is Shattered by Suit for Divorce—Pays Board With Kisses.

The introduction of two young people at a religious meeting conducted by Evangelist Martin in the Methodist Episcopal Church at Huntington Beach in December, 1906, blossomed into a contested divorce case, heard in Judge James's court yesterday. At the conclusion of the conflicting testimony the court took the matter under advisement. The plaintiff in the case is Mrs. Esther A. Carpenter, and the defendant is Fred H. Carpenter, who, for two years, has been in the lumber business at St. Petersburg, Fla.

According to the testimony of Mrs. Carpenter, the parties were married at Huntington Beach in February, 1907. Carpenter, at that time, was a student at a business college in Los Angeles. Immediately after the wedding, Carpenter began to tell of a pretty home he had for her in Florida, showing a picture of the property with himself standing in the front yard. He also told her that he expected to build a fine place at Huntington Beach, but she soon discovered that these stories were moonshine, and that he was apparently penniless, or nearly so. Meantime, he boarded, with his wife, at the home of her mother, and paid nothing for either. In lieu of the money, he kissed the old lady good-by every time he left the house, and called her endearing names. In May, 1907, he deserted his wife and went to Florida, returning a month later, and in August left her again, never to return.

"Was your husband a hard-working man?" was asked of Mrs. Carpenter on the stand.

"No, sir," she replied. "At one time he had a job at a grocery, but was not satisfied with the wages and only remained four days. He said he would work for no one for less than $100 a month. He declared that life was too short to work."

Mrs. Minnie Killinger, mother of the plaintiff, testified that Carpenter was able-bodied as far as she knew, although on one occasion when he turned the washing machine for her it was necessary for his wife to rub him with liniment to get the soreness out of his joints.

When Carpenter left his wife the last time she was about to become a mother. A daughter that responds to the name of Minnie Carpenter smiled at the mother as she gave her testimony.

The efforts of the defense were devoted entirely to demolishing the theory that Carpenter had deserted his wife, the claim being made that he asked her to go with him to Florida and start life anew, but that she refused to accompany him there. There was a mass of testimony along this line, furnished by persons who sided with the husband in his contention, but Mrs. Carpenter, when recalled at the close of the case, declared that her husband had never asked her to go to Florida, and that if he had she could not have gone for he had no money to pay her way.

### JURY DEMANDED.

QUESTION OF SANITY.

It is becoming the fashion to demand a jury trial on the question of insanity. Sometime ago, Mrs. Hinkle did so, and she was acquitted by a jury. Then Mrs. Ida Dewlaney did likewise, but she had bad luck and was ordered sent to the State Hospital at Patton.

The latest applicant for this form of action is George J. Browning, who, on Wednesday, was adjudged insane by the Lunacy Commission and ordered sent to the State Hospital. Yesterday, Browning, through his attorney, served a notice on presiding Judge Wilbur, stating that his client is not satisfied with the finding of the Lunacy Commission and asking that Browning be tried by a jury. A date for the hearing has not yet been fixed.

### RIVERA PIONEER.

LEAVES PROPERTY TO FAMILY.

The will of the late Joseph H. Burke of Rivera was filed for probate yesterday. It disposes of property estimated to be worth in excess of $20,000. It was executed August 18, 1899. His sons, Osborn and Frank Burke, are made executors of the instrument without bond.

To his son, Frank Burke, he gives $2000 in cash, the farm upon which he lives and block 20 in the town of Rivera; to Osborn Burke, $2000 in cash and block 9 in the town of Rivera; to Kizzie B. White, a daughter, the farm on which she lives; to Eulalie Shade, $1000 and the farm on which she lives and in addition block 17 in the town of Rivera.

To Pascal Burke, a grandson, he gives $1000, 98½ acres, also block 13, except lots 23 and 24, in the town of Rivera, and he is to come into possession of the same when he reaches the age of 21. To Mary Burke, his widow, he devises all the rest of his personal [illegible] and chattels, a farm of forty-Moore & Kelleher's subdivision of lot No. 5, in block 60 of Hancock's survey in the city of Los Angeles. Mrs. Burke is also to have blocks 15 and 16 in the town of Rivera. On the death of the wife all of the real property left to her is to be divided equally among the children.

### MOTHER'S LOVE.

TRIES TO RESCUE SON.

W. P. Rhodes, a 19-year-old son of Mrs. Lottie Van Loan, was in Judge Davis's court yesterday on a charge of passing a worthless check for $10 on the First National Bank of this city. The mother of the boy, who is said to be one of the wealthy women of New York's four hundred, came all the way from her home in the East to assist her son, and is now striving to have him released on probation.

A proposition has been advanced by Clara C. Carver of the Associated Charities to take the boy out on a 1000-acre hog ranch at Visalia, but the conditions attached to the offer may result in its non-acceptance. It is understood that Mrs. Van Loan is to obligate herself to purchase a $1000 interest in the property for the boy, if he is to be cared for on the place. There will be nothing done about the case until an investigation of the Visalia matter is concluded.

### ALLEGED FRAUD.

IN FLOATING OIL DEAL.

An action, in which is contemplated alleged fraud on the part of W. F. Lay, was filed in the Superior Court yesterday. The plaintiffs are C. J. Laughlin, J. M. McLeod and F. C. Carlson. They seek to secure a judgment against the defendant for $6500, as well as an order of arrest. The defendant was taken into custody at San Diego, but is now out on bond.

The plaintiffs allege that in June and September, 1908, they were engaged in the contract of trying to finance a large oil proposition in the San Joaquin Valley and that it was necessary to raise $3,000,000. At that time Lay, it is alleged, represented that he was the American representative of the Associate General, a banking institution with ample backing in the city of Paris; the corporation, according to his statement, having millions of dollars it desired to invest in good securities or properties.

The allegation is further made that Lay represented that it would be necessary for them to invest $4000 in the way of return for expenses paid out by the Associate General for the purpose of collecting data in regard to the proposition which they desired to have assisted financially. This sum was advanced by the plaintiffs, it is alleged, but nothing ever came of the negotiations said to have been begun and carried on by Lay. Not only that, but the plaintiffs aver that in making a number of trips to San Francisco and New York, they spent about $2500 more, and they ask judgment against Lay for the aggregate sum of $6500.

### SCHOOL BONDS DEMURRER.

ARGUMENTS ARE COMING TODAY.

Another phase of the litigation involving the proposed issue of bonds amounting to $720 for school purposes will be evolved in Department Four this morning before Judge Bledsoe of San Bernardino. The demurrers to the answers of the defendants, in the cases of T. J. Spencer against C. J. Nellis, et al., and the same plaintiff against the Los Angeles city school district, et al., will be argued.

In the last named case answers have been filed by Emmet H. Wilson, deputy City Attorney, for the city school district and the Board of Education; and Hartley Shaw, chief deputy District Attorney, has filed a similar paper for the Board of Supervisors, County Auditor and County Clerk. In the case against Nellis, chairman of the Board of Supervisors, answers have been filed by Wilson for members of the Board of Education, and by Shaw for the county officers named and the Board of Supervisors.

It is understood that the points argued at the previous hearing before the same court will not again be gone over; also, that the defendants will not ask for a dissolution of the present injunction, for with the pending litigation there would be no market for the sale of the school bonds. The demurrers contend in a general way that the answers do not state a defense and present a motion to strike out certain irrelevant matters and a number of statements. If the demurrers are sustained it will be necessary to amend the answer. If not sustained it will be necessary for the court to set a day for the trial of the case on the question of the secrecy of the election, which, according to the opinion of Judge Bledsoe, handed down some time ago, is a matter of fact that must be proven.

The gist of the argument this morning, will, it is believed, be devoted mostly to the question of the organization of the high school district. The denial of the defendants in this action only goes to the extent that the members of the Board of Education met and called themselves a high school board, and transacted business as such board, but they do not deny that no election was ever called to vote on the question whether there should be a high school district. It is held by the plaintiff that no high school district was ever legally organized.

### COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS.

GRANTED A DECREE. Judge James granted a decree of divorce yesterday to Arnel J. Williams from Ora S. Williams. This is the Whittier couple that fought so valiantly on both sides of the case. It was proven to Williams had been derelict in her marital duties.

ALLEGED ROBBERY. A jury in Judge Wilbur's court is hearing the case against P. H. Slaughter, charged with attempting to rob James Nakao, a Japanese. Slaughter is a colored man. The courtroom yesterday was filled with representatives of the two races.

ADMINISTRATOR WANTED. A petition has been filed in the Probate Court by E. Thomas Hughes, appointee of the widow, Sarah E. Walker, for letters of administration of the estate of the late W. H. Walker, who died May 10. The estimated value of the property is $59,000.

CHANGE OF NAME. The firm of Adams, Turner & Stevens has filed a petition in the Superior Court asking that it be allowed to change the name to Turner & Stevens Co.

INCORPORATIONS. Papers for the following incorporations were filed in the County Clerk's office yesterday: International Investment Company, capital stock $25,000, by C. H. Teeter, Enos Henderson, Henry A. Colt, Ray Q. Teeter and Frank A. Cattern; Tule River Lumber Company, capital stock $50,000, by F. N. Nofziger, D. I. Nofziger and V. L. Ward; Main Market and Provision Company, capital stock $25,000, by Clyde C. McClintock, H. Jefferies, Jr., and Frank J. Jenal.

TO SAN QUENTIN. Judge Davis yesterday sentenced W. H. Julian to two years in San Quentin prison, on two informations charging that the accused had disposed of a fictitious check.

SLOW WORK.

## DEMURRERS IN GRAFT CASES.

LEGAL QUESTIONS RAISED BY SCHENCK AND BROADHEAD.

Judge Davis Denies Previous Motions of the Defendants' Attorneys. Arguments on the Demurrers to Be Heard Next Monday Morning. Fight Over Technicalities.

Judge Davis yesterday burned out the underbrush in the Broadhead and Schenck cases, by denying each and all of the motions which had been interposed by the defendants. The only question now before the court is whether the indictments, as drawn, state a probable cause of action against the defendants for bribery and attempted bribery. The issue is one of the law merely.

Upon the court's decision, demurrers to the indictments were at once filed by Attorneys Appel and Schenck, and the arguments were assigned for next Monday. The demurrers contain more than a score of reasons, and cover every possible contingency involving the question of error in the instruments.

When court convened yesterday morning, the first witness was E. J. Fleming, formerly City Prosecutor. He was asked a number of questions by Attorney Appel in an effort to connect his testimony before the grand jury with the indictment of Broadhead. In these queries Appel read from the transcript in which Fleming testified that women in the red-light district had been arrested, and he (Fleming) had refused to issue complaints, because it was generally rumored about the Police Station that the police were receiving money from these women, and he wanted to be informed about the matter before taking any steps. Appel further read how he (Fleming) had had fifteen women brought in from the Tom Savage house to the Police Station and tried to get information from them as to whom they were paying money to; how he protested to Chief of Police Kern against the erection of the brick houses on Commercial street, known as the Oswald houses; how he told Kern there was graft, but he could not prove it; and of his efforts to bring a change about in general conditions in the red-light district.

The objection of the District Attorney to that line of questioning was sustained.

Charles H. Yeaton of Santa Monica, a member of the grand jury, was called. He stated that after he had finished his work as a member of the body he took no further interest in the matter. He had tried on the night he was subpoenaed to bring to his memory what had occurred in the grand jury room, but he could not do so. Attorney Appel asked him if the testimony of Joe Durand, E. T. Earl and E. J. Fleming was taken up and considered in connection with the indictments, and he said it was.

Deputy District Attorney Ford raised an objection to this answer. He was overruled, but on cross-examination he brought out the fact that the charge against Broadhead had not been considered until Oswald returned, and the Schenck charge was considered at the time that Fleming appeared.

Then Appel started on a new tack. He asked for the report of the grand jury, but it was not in the court.

"Will you state," he inquired, "that the report was prepared in the grand jury room, and whether you saw it? If the testimony of all the witnesses examined was considered in making up that report?"

Objection to the question was sustained.

It was the intention to call Andrew Osgoodby of Pomona to testify, but by reason of illness he was not in the courtroom.

Attorney Appel asked that the transcript of the evidence before the grand jury in the Schenck case be placed in evidence in the Broadhead case, and Paul Schenck, on behalf of Sam Schneck, asked that similar evidence in the Broadhead case be placed in evidence in the Schenck case.

An objection to this was sustained.

Deputy Dist.-Atty. Ford said he had no evidence to offer in the case.

Attorneys Appel and Schenck asked for a half day each to argue the case to the court.

The court thought that half an hour each would be ample.

Both the attorneys objected to the limitation, saying there would not be sufficient time to properly represent their clients. They united in the belief that under the circumstances it would be better to not indulge in any argument at all.

Then Judge Davis delivered his opinion as follows:

"I have listened to the testimony of witnesses, and considered the evidence in support of the several motions against the indictments, and have noticed carefully that which was material. While as to some facts upon which the defendants rely there has been presented testimony in support of these grounds, there has been a conflict in the testimony and there has been presented on the whole no sufficient evidence to support any of the grounds, and the court will therefore now deny each and all the motions which have been interposed against the indictments."

Exceptions were taken to the ruling by attorneys for the defendants.

Then Messrs. Appel and Schenck presented the demurrers attacking the validity of the indictments, and the arguments on the demurrers were set for Monday morning at 10 o'clock. The argument on the Schenck case will come first.

A request was made for a transcript of the evidence by the attorneys for the defense, and the matter was taken under advisement by the court.

### PAWNBROKER'S TEST.

Declares Ordinance Requiring Full Daily Report to Police Unconstitutional and Will Make Fight.

Declaring the ordinance demanding a daily report of all business transacted in a pawnshop an infringement on personal liberty and unconstitutional, A. B. Cohn, of A. B. Cohn & Bro., who was arrested on Tuesday on the charge of not presenting such a report, will make a test case before Justice Rose next Thursday, the date set for his hearing.

The ordinance requiring pawnbrokers and proprietors of loan offices to make out and deliver daily to the Chief of Police a report of all loans and purchases made by them within the twenty-four hours preceding, was adopted by the Council on April 17, 1899, but has not been enforced until recently.

The report which the pawnbroker must file under the ordinance contains not only the article purchased or on which a loan has been made, but the name of the person receiving the loan, the amount, description of article, residence of the party, age, complexion, style of dress, height, sex and other data that may be useful to the authorities in detecting possible criminals and recovering stolen property.

"If we are forced to comply strictly to this ordinance, it means ruin for our business," said Cohn yesterday. "People coming to us are very frequently men and women well known in public, who are in straits for immediate money. When they find out that they must give an accurate description of themselves, not only to us, but to the police department, they prefer to go without the loan. It makes their personal matters public property, and means humiliation for them if it becomes generally known, as it would were the report filed.

"Although our business is confidential, the police have always had access to our books, our safes and any portion of our establishment, and have on presentation of sufficient evidence, always been able to obtain anything which has been sold us or is left in pawn that has been previously stolen.

"The present case is a test and will be carried right through to the Supreme Court, if necessary, to discover whether the city has a right to pass an ordinance detrimental to our business and harmful to the personal name of those who require our assistance."

Be A Master

There are very few masters of the piano in the world, only a few score, but with the APOLLO Player Piano you can produce at your own will any of the world's greatest compositions. You, as the possessor of one of these instruments, can play with the skill of a master. You will find that you will become more and more attached to it as your acquaintance with its possibilities grows. You will find a desire become a reality and a wish satisfied in the APOLLO—the standard of the world.

Don't Buy a Player Piano

that is still in the experimental stage. There is but one practical 88-note player piano made. That is the APOLLO. Other manufacturers are experimenting with 88-note players. For the last seven years the APOLLO has been the only 88-note player on the market. Being unable to cope with the competition of the APOLLO, other manufacturers are now placing on the market 88-note players, but these are just seven years behind the APOLLO. Why not have a piano in your home that every member of the family can play? We will take your old piano in exchange at full value.

APOLLO 88-note Players—

## Great $19,000 Skill Contest

### You Can Win a Piano Free

Every Person Entering This Contest According to the Rules Given Will Receive a Valuable Prize, or Premium, According to Merit of Same. There Is No Guessing—No Chance—No Expense to You.

### Contest Will Close Tuesday, May 18th

#### Why This Offer Is Made

For the purpose of indelibly impressing upon the minds of the people of Los Angeles and the Great Southwest the number of our new building, in which we are now permanently established, we have determined upon an offer which will not only accomplish the object desired, but will also bring to our doors thousands of our citizens, besides making hundreds of homes happy.

We want these three figures—5-2-3—to become familiar to every school child in this section of the country, and our determination to have it so has resulted in the following remarkable offer.

This is a simple test of skill, and the sole conditions are that the three figures "523" and the word "Broadway" in this form—523 Broadway—shall be written in the two spaces 2x3 inches each just as many times as the space will hold. You can use any piece of paper you choose this size, and when ready it can be pasted in or pinned on the given space. Then fill out the information blank below. This latter is for the purpose of enabling us to know just how many homes are without instruments. There are no limits or restrictions as to the number of contestants in a family, though only one prize can be awarded in any one family.

#### How to Prepare Your Paper In This Test of Skill

Take a piece of writing paper cut the size of the front show windows of the ground floor, as they appear in the diagram on this page (exclusive of the doorway). Then with a fine pen write only the address: 523 BROADWAY, as many times as possible on your paper. Then cut out the information blank printed herewith below the diagram, fill it out as indicated by the blanks. State what instrument you have, if any, and if you can, give correct names and addresses of two or more of your friends, neighbors, or acquaintances who you believe might wish a piano or player piano. Mail your paper and information blank to the Fitzgerald Music Company in plain sealed envelope, marked in lower left-hand corner "Contest Department," and ***the number of times you have writen the address in the spaces.***

#### For Everybody

We trust that every man, woman and child in this entire trade territory will participate in this great test of skill. There are no hampering conditions of any kind or character. There is no entrance fee to pay. There is no obligation of any kind. In order to establish our new location permanently in the minds of the people we are bearing the expenses of this contest and placing in the hands of the people themselves the money which otherwise would be devoted to a costly newspaper advertising campaign.

#### Note

We are one of the largest and oldest music houses in the Southwest, and carry a very large line of standard and popular makes of Pianos, Piano Players, and Grands. We refer you to the First National Bank of our city as to our financial strength and the value of our guarantee which accompanies every Piano sold by us.

#### How Prizes Will Be Awarded

**FIRST PRIZE**—The person writing "523 Broadway" the most times in the two spaces 2x3 inches, representing our two main windows, will receive absolutely free a beautiful $700 Steger Player Piano, mahogany or oak case.

**SECOND PRIZE**—The person with the second largest number will receive absolutely free a $550 upright Grand Krell Piano, your choice of woods.

**THIRD PRIZE**—The person with the third largest number will receive absolutely free a $400 Fitzgerald Piano, your choice of woods.

These instruments will be delivered free to the winner within the city limits, or boxed and placed in the depot free of charge, with stool and scarf to match.

#### 1st Prize
This $700 Player Piano

#### 2nd Prize
This $550 Krell Piano

#### 3rd Prize
Beautiful $400 Fitzgerald Piano

#### And $19,000 in Additional Prizes

In addition to the above valuable prizes we will give away the following

#### Credit Orders

| | | |
|---|---|---|
| 10 | Credit Orders of | $100 Each |
| 10 | Credit Orders of | $95 Each |
| 10 | Credit Orders of | $90 Each |
| 10 | Credit Orders of | $85 Each |
| 15 | Credit Orders of | $80 Each |
| 20 | Credit Orders of | $75 Each |
| 25 | Credit Orders of | $70 Each |
| 30 | Credit Orders of | $65 Each |
| 50 | Credit Orders of | $60 Each |
| 100 | Credit Orders of | $50 Each |

Good on the purchase price of any new Piano or Player Piano in our building.

#### Rules Governing Contest and Awards

The envelopes containing the answers to contest as submitted by the contestants will be opened for record a short time previous to the date on which awards are to be made. The answers will then be examined in the presence of three impartial judges, gentlemen of the highest integrity, selected from well-known Los Angeles newspaper or advertising men, and who are in no way connected with the music industry, whose decisions will be final and irrevocable.

If you are fortunate in getting one of our Credit Orders as an award and already have a piano, the order may be disposed of to some one less fortunate, providing such transfer is properly indorsed by us.

There are no limits or restrictions as to the number of contestants in any family, but only one prize will be given in such family.

Only one Credit Order can be applied on the purchase of any one instrument.

None of these prizes will be awarded to any one employed by our House or connected in any way with the sale of musical instruments.

## Fitzgerald Music Company

THE OIL INDUSTRY.

## ANGE REPORT AS TO GYPSUM.

### MMENDATION CANNOT BE AT ALL FINAL.

**ment Likely to Be Test; Some Fail—Land Office Now Going ed With Applications—Anaconda First Well Flowing Seven Hundred Barrels a Day.**

J. N. Lange, chief of the field United States Land Office at has reported to Washington gypsum-oil locations in this after an inspection a short time Speculation is rife as to his ndations, which, as a matter , no one yet knows.

think it likely that it will be to the gypsum locators. That as to some claims seems probable, as they do not appear anything that can be classed of white earth. This does ever, apply to other tracts in McKittrick and some other where valuable gypsum deposit and some at McKittrick ally been worked on a small e product being shipped and or a ton, f.o.b., while oil sells a ton.

e clew to the report's nature in the Land Office's action on pplications for final gypsum When offered some months the money tendered was rewith the explanation that nothd be done under the Interior t's rulings until an examby the special agent had been a few weeks ago the Land Office the applicants that the could proceed when the fees warded. The same is pend-

report will not invalidate

any claims, but, if accepted at Washington, would mean the taking of testimony at the local Land Office as to the character and quantity of gypsum and appeals would lie from the decision to the Commissioner of the General Land Office and then to the Secretary of the Interior. No one official's opinions can destroy a location.

Gypsum locators state clearly their intention to operate for oil. They contend this is identical with the case of the miner who finds gold, locates a claim on it and with depth develops other metals. He is entitled to all alike; any other construction of the law would be ridiculous. The application is always made for all the minerals found in the land located. If a miner found gold, copper or other metals, located a claim for them and later struck oil, he would be entitled to all. This is the reasoning of the gypsum men.

The Associated and Chansler-Canfield Midway companies have been the most conspicuous among the gypsum locators but there are many among independent men. Exactly the same amount must be expended on a gypsum as upon an oil claim, provided there is oil on the surface, but if a well must be drilled to make a discovery it is likely to cost as high as $30,000, and this is beyond the reach of most locators. The price of gypsum and oil land is the same. J. M. Danziger of this city has handled all the gypsum applications in the Land Office. He is confident of the outcome. Recently the State Supreme Court decided in favor of gypsum claims.

That proximity to a railroad is to be held necessary for a valid location is laughed at by those interested. Such a rule would invalidate Midway locations for oil equally with those for gypsum, for one could no more have been marketed for years than could the other, it would put a complete stop to all prospecting and acquisition of remote lands such as in the Virgin River district, Utah, and would stop patents on thousands of mines all over the United States; in fact, it would end all mineral development unless a railroad were right at hand ready to move the product at once. Generally location and development preceed the railroad.

Owners of the Midway-McKittrick fairer freight rates in the hope of realizing from these deposits. At present gypsum can be shipped from New Mexico to Southern California for less than from McKittrick. They say they have assurances of sales if they can deliver and compete in price.

One of the largest holders of gypsum claims says he has no fear as to the outcome except for some individuals who have located for gypsum where there is none. If attempts are made to annul any other locations they will be fought in every legal way, and no effort will be spared to carry it to the United States Supreme Court.

#### To Wild Cat at Clovis.

The Clovis Oil Company, just formed, will drill near the town of that name where some oil was found a year ago in a water well. Rig timbers are said to be on the ground. The directors are: C. E. Boyd, Hanford; I. S. Knight, T. W. Pond and A. G. Erman, Fresno; L. L. Eversoll, Clovis.

#### West Side Fields.

The Anaconda's first well on 12-11-24, Sunset, is flowing at an estimated rate of 700 barrels a day. It began at 200 before completion, spurted up to 800, then choked with sand and has been doing these varying stunts ever since.

Water is reported to be giving some trouble in the Union's No. 5 on 35-12-24, Sunset, which started as a flowing well a few weeks since. It is supposed to come from above, and efforts to shut it off are under way.

The New Richmond well on 25, Midway, has run into water, and it will be used for that, as well as oil, the two flowing together in quantities, the oil, however, decreasing. The plan is to pump both, separate them and use the water for its own boilers and to sell to other companies.

#### Standard's Work.

The Standard is running fourteen strings at Midway. On 30-32-24 the first hole bored to 1900 feet is being redrilled, after cementing to shut off water. On the southeast corner of 14-32-23 the depth is 2300 feet, and there is no commercial oil yet.

San Joaquin counties the two strings are down 700 and 900 feet, respectively.

No results have been obtained yet in Monterey and San Benito counties. Three strings are operating.

#### John Baker's Resignation.

John Baker, Jr., former general manager of the Union, denies that his resignation was due to the Panama pipe line, but to a desire to get out of active work. The Times stated that his action was entirely voluntary and this was stated upon the highest authority. Mr. Baker says he had no unpleasant relations with his colleagues, he is very confident that the original plans will yet be carried out to the fullest extent, that he considers the Panama pipe line is a complete success, and that he worked on the matter of increased prices on the isthmus prior to his retirement. He is still heavily interested in the Union as a stockholder, and has just been elected president of the Claremont, one of its subsidiaries.

#### Changes in Union.

J. S. Torrance, who has just resigned as treasurer of the Union, has opened an office on the same floor of the Security building for his private business. There appears to be no reason to suppose that there is any significance attached to Mr. Torrance's retirement except a desire to devote time to other matters. George W. Tubby, formerly on the Panama Canal, has been elected a member of the Union's executive staff. Secretary Kellogg looks after Mr. Torrance's work temporarily.

#### MAJ. SLAUGHTER DEAD.

Mrs. Samuel Hawver of No. 2816 West Eighth street, has received a telegram announcing the death of her brother, Maj. Bradner D. Slaughter, of Omaha.

THE Hotel Clerk will be especially funny in his talk reported in The Times Magazine the coming Sunday. He will discuss writing for the press.

"A PILGRIMAGE TO RUBIDOUX" is the

MINES AND MINING.

## LOS ANGELES TO GOLDFIELD.

### CHAMBER OF MINES' TRIP TO MINING CONGRESS.

**Committee to "Boost" Day Is Named—Hawthorne Will Be Nearer to This City—Five-Foot Ledge Running $25 to $80 Just Cut on the Black Warrior Claim.**

The directors of the Chamber of Mines at a special meeting yesterday declared the board a committee to "boost" "Los Angeles Chamber of Mines Day" at the American Mining Congress during the week of September 27, and John S. Mitchell of the Hollenbeck Hotel was made chairman. An attempt will be made to have Saturday, October 2, set aside, and it is planned to run a special train with full Pullman equipment from this city Friday evening, reaching Goldfield the following morning. The next two days will be spent in a jaunt to the various mines of the district; stops at Pioneer, Bullfrog and Beatty on the return trip.

Future meetings of the board will be at 1:30 p.m.

The following were elected to membership: George H. Gillon, J. Walter Hanby, C. W. Mitchell, E. H. Moyle, J. S. Johnston, L. I. Plummer, S. H. Baker, Rasor Brothers, Fremont M. M. and D. Company, Lee R. Moore, G. Alfred Mayland, A. B. Call, George F. Beveridge, F. W. Brenneman, Magalia Ridge Consolidated Mines Company, Hammel Oil Burner Company, Cave & Co. and E. W. McGhee.

#### Railroad to Help.

Completion of the Southern Pacific from Mojave to Keeler will put Los Angeles than to San Francisco, and reduce the journey around by Sacramento by 360 miles. This means much to Los Angeles, just how much is indicated by the fact that the amount received for freights handled by the Southern Pacific for this section from San Francisco approximates $35,000 yearly. Los Angeles may expect part of this.

Work is progressing rapidly on the tunnel this side of Keeler, which has been cut through, and track will be relaid with ninety-pound rails.

The California-Nevada Power Company is causing considerable activity by building the big plant that is to supply Goldfield and other Nevada camps with power. This will be the largest east of the Sierra Nevada Mountains.

#### Black Warrior Strike.

A five-foot ledge, running $25 to $80, has just been cut on the Black Warrior claim of the Gold Park Consolidated Mines Company of this city. Superintendent Roach is in Los Angeles arranging to put a larger force to work and start shipping. Work has been confined to the footwall side of a sixty-five-foot ledge, the first four feet of which ran to $35, and at the five-foot point showed $42 values, with assays from the bottom of the drift as high as $90.

The company owns fifty-two claims on the line between San Bernardino and Riverside counties in the Gold Park district. It has a considerable tonnage blocked, and plans to make a number of improvements, including a pipe line from Twenty-nine Palms to the mines. An English syndicate, according to officials, is looking over the properties with a view to buying in to the amount of $300,000, a part of which will be used to build the pipe line. Representatives of the syndicate have made a preliminary examination, and a second party is expected here within a few days to complete the deal.

If this is carried out, the camp, already equipped for thirty men, with hoists, drills and necessary machinery for systematic working, will be enlarged and additional machinery

Park group No. 2, a rich streak has been cut, picked samples of which run as high as $100 per pound, and the entire streak asserted to be good high-grade shipping ore. Development has demonstrated a good quantity of high-grade rock in several mines of the district, and plans are on foot to get proper reduction facilities.

At Twenty-nine Palms a Bryan mill is in operation, and a five-stamp customs mill is to be built. The Bryan is owned by the Italy people, and treats a limited amount of outside ore as well as that of the Italy claims.

The Twenty-nine Palms Consolidated has completed its wagon road and is drifting and crosscutting from a thirty-foot hole on the Great Northern, where it opened a three-foot ledge of $18 ore, prospecting showing other claims in good shape.

Fourteen outfits are working in the district. Stokeley and Rand, with 160 feet of development, are just breaking into ore which averages good.

Five outfits are at work in White Fork Pass, including two burro and one dry wash.

Seventy-five men are working and the district generally is taking on new life. Billy McHaney, an old-time prospector of that section, has struck good milling ore on his Sunflower claim and will start shipping to the Italy mill.

POWDER BETTER THAN SOAP.

Soap in powder form is the modern cleanser not only because the powder is more convenient, but it is more economical, as well as being more efficient.

Gold Dust, one of the first and the best examples of soap powder, can be used more economically than a soap, because the quantity desired can be measured out and no more used; while with a soap, the whole cake or a portion of it must be put into the water, wasting more than is really needed, and soaking the rest of the cake with water, which does not improve it. On the contrary, some soaps lose much of their goodness by leaving the unused part of the cake in water.

Even if only the amount of soap desired is "shaved" off, some time is required for dissolving it, while Gold Dust dissolves immediately, at the same time dissolving the hard lime and other "salts," making the water as soft as rain water and making a sweet, cleansing suds.

## Editorial Pen Points

A spider lives two years; but why, nobody has yet been able to figure out.

Under the new laws of England a man with a fortune runs big chances by dying.

"Fresh ranch eggs" are sometimes merely old jokes masquerading under new sign cards.

Almost every nation in the world could go to war right now if they could borrow the money.

Are the streets of Paris again to smoke from the historic "whiff of grapeshot" that once made a Napoleon?

Since it appears to be true that the butcheries do not stop, is it not about time that we put a crimp in the Turk?

The London Chronicle says there are relatively few beautiful houses in America. Isn't this slandering Los Angeles?

As far as the African natives are concerned, we suppose they would be glad to welcome a great many more lion hunters.

If the United States Senate fools much longer with the tariff it is likely to become known as the chain brake of prosperity.

"Has the Weather Bureau made good?" asks a magazine writer. Out here in California it is a question of no interest whatever.

A law has been passed prohibiting dogs from running at large in New York City. It seems that they frighten the street-car horses.

Walter Wellman's proposed balloon expedition to the pole might excite more interest were it not that he four-flushed on a previous occasion.

It will come to pass that the Southern California county that hasn't decent highways will be a county that people will pass when they come to it.

A Pennsylvania man asks a divorce from his wife on the ground that she is fat. Can't he be a little meaner and worry some of it off of her?

Halifax is about to ship a carload of live lobsters to the Pacific Coast. There are some places on this Coast that have too many lobsters, right now.

France might as well be ruled by an emperor as by a labor-union oligarchy. In either case the people have no rights that are thought worthy of respect.

Speaking of the theory of government ownership of public utilities, it may enlighten certain persons if they will observe the situation in France.

The public will not take kindly to quarrels between those intrusted with the business of building good roads. What the public wants is action, not gab.

Only the good Lord knows how many Fourth of July orators there are who are already practicing speeches that may be completely ruined by firecrackers.

There are 62,000 postoffices in the United States, but the task of keeping them supplied with postmasters is only a portion of the multifarious duties of the President.

One of the most beautiful elevations in Southern California is called "Smith's Mountain." Heaven forgive the man who could think of no better name than that.

The people of Japan are said to be giving up 30 per cent. of their net incomes every day to pay interest on the nation's debts. Are they doing so voluntarily or by order of the Mikado?

Duke Henry, father of the new Dutch baby at the Hague, has been as completely lost sight of in the festivities as though he were a rank outsider who didn't have anything to do with it.

A St. Louis preacher employs a press agent. The scheme might succeed for awhile, but not for long. A press agent can do a good deal, but he can't bolster up a pulpit that has started to sag.

A great war once resulted from a quarrel between two boys over a game of marbles. Is a republic now to be destroyed because a cabinet minister referred to labor-union ladies as "hens"?

In the event of war, we think our city dwellers would make the most efficient soldiers. Owing to the constant necessity of dodging street cars and automobiles the city man is a trained athlete.

Dr. Aked—Mr. Rockefeller's pastor—declares that New York society women are devoid of mentality and morality. The man doesn't know what he is talking about. The statement is as false as it well could be.

The Bank of England declines to surrender to the Young Turks a sum of $5,000,000 which Abdul Hamid deposited with the institution. But what is a paltry sum like that to a man who has eleven wives on his hands?

"Owing to a system of false weights," asserts the New York Tribune, "the poor of New York have been robbed of $20,000,000." Any crowd that can be robbed of $20,000,000 is not so blamed poor as you might take it to be.

Rev. Dr. Shannon advocates the abolition of the word "obey" from the marriage ceremony. Certainly; it no longer means anything. We suggest

## "AS FAR AS PRACTICAL"—HUH!

When the impeccable recall administration took office it knew little about civil-service rules. The most it knew was that the law prevented it from politically gutting the City Hall and putting the precinct workers of the Earl-Lissner organization into all the offices. And ever since there has been a vain attempt to get around this bulwark of protection for subordinate office-holders.

That this situation is irritating is shown by the petulance of the tricky little recall organ which declares the attempt of the administration to oust half-a-dozen inspectors of the health department is in the line of "reform." It defends this move on the theory that these men will be transferred to positions as sanitary inspectors. And because the Civil Service Commission again refuses to violate its rules and precedents to help the scheme by approving such a transfer, it is subjected to abuse.

"What are the facts?" the little organ asks, peevishly. Well, here they are. The health board and the Mayor propose to abolish seven positions and oust six men from them. In his communication to the Council the Mayor does not say they will all be transferred to the sanitary force, but only (in his words) "as far as practical." And the Mayor is practical—in politics. And practicalness in this case means that these men would be out. They are not wanted by the recall machine because they will not be used by its designing bosses.

When Councilman Blanchard told the Council that the Civil Service Commission could not certify these transfers he but stated a rule from which the commission has not deviated. A transfer is only made when the examination which qualified an incumbent for the abolished position would qualify him for the new one, or when it is a mere change in title with the same duties.

A man qualified to detect diseased meat is not qualified for the duties of a sanitary inspector who must know the plumbing ordinances and other laws that a meat inspector does not know. So with the other positions. The duties are different and the test of fitness necessarily differs. A deviation from that rule must even shock that ardent recaller, Dr. John R. Haynes.

If the health board's positions are abolished the inspectors will be out of office unless they requalify; and if their successors are appointed from the eligible list the recallers may dismiss them daily during the probationary period without cause or trial until favored ones are in. That is the milk in the cocoanut. "So far as practical"—huh!

As for the changes at the Detention Hospital and the abolition of a secretary of the board and the assistant restaurant inspector, they are economies in the right direction. These make the boasted $3000 saving, and not the other changes. But the course pursued toward the five expert inspectors is palpable recall politics and an attempt to bedevil the Civil Service Commission.

If the administration was sincere it would have consulted the Civil Service Commission before it started on this programme. It has not consulted the commission on anything. The administration doubtless knew that if the inspectors' positions were abolished it could exercise its rights as to probationary appointees, which are subject to dismissal at any time within six months without cause or trial, and thus it could secure jobs for henchmen.

## A UNION STATION FOR ALL THE RAILROADS.

When we come to consider this matter carefully, covering all its aspects, perhaps it is a source of gratification that the plans made three or four years ago for a new station on the site of the Arcade were not carried out. A great passenger depot such as the Southern Pacific Company planned three years ago, with the probable extension that these plans would take on if the work were done now, would afford much relief and furnish a structure which would ornament a city so large, prosperous and beautiful as the Los Angeles of the present.

But is it not quite time that the railroads should take a broader view? Do not conditions call for something more than a mere enlargement of the depot facilities for passenger use by any individual railroad or by all of them acting separately? Do not the paramount interests of the city today point to one great union depot for the use of all the railroads as the only adequate solution of the problems of passenger traffic as presented to us right now? Do not the conditions destined to arise in the immediate future demand that this be looked upon as the only proper solution of the problem? And when we look ahead, say to the end of the second decade of this century, when the population of Los Angeles will probably be not less than 750,000, with a similar increase in the inhabitants in the country immediately tributary to the city, with a like increase in the tourist travel in and out, all days of the year, is it not plain that no other solution will begin to fit the case?

We have three railroads entering our gates with their transcontinental lines. The Salt Lake has one main line, the Southern Pacific has three lines, and the Santa Fé practically two. Here are really six transcontinental roads with termini in this city. The six will grow to seven and then to ten before 1920 shall come. But these six transcontinental routes now existing multiply to nearly a score when we come to consider the local passenger traffic; and that score is destined to be multiplied by two. The passengers coming and going at all hours of the day and nearly all hours of the night to a large extent come by one line and go by another. The inconveniences and difficulties of travel under these conditions have in all great cities driven the railroads to combining in union depots wherever there is any very large amount of passenger traffic. It is the history of railroading and of cities in America that providing this necessary facility, a union depot, has always been put off too long. It would seem as if the many experiences of the past would dictate to railroads that whenever two competing lines enter a city they should at once seek union facilities. But, instead, such a combination is never attempted until public clamor calls loudly and repeatedly for it, and when at length it is forced upon the managers of the railroads by this public demand which will be no longer denied, it is found that the acquiring of space for such a union depot always costs ten to twenty times as much as would have been the case had time been taken by the forelock.

It is said to have cost the railroad companies nearly $20,000,000 for a union depot in Washington city when at last the public demand could be no longer denied. If the convenience had been provided ten years ago the expense would have been much less, and so we can go back through the years to a time when $1,000,000 would have gone much farther than $20,000,000 today.

It is so now in Los Angeles. When there was only one railroad company entering the city the interchange of passengers all took place at one point. When the Santa Fe came in with the second transcontinental route and duplicated the local lines more than twenty years ago, $1,000,000 would have provided grounds in this city not only for use as a union passenger depot, but for union freight facilities as well. It would cost more at the present time to provide anything like the facilities possible to obtain then for that sum, and the longer we wait the greater the cost will be. Some time or other it will have to come. If the great convenience furnished by a union passenger depot is not given to the public now it will be given to them at some future day. The longer the thing is

## WOMAN, SPARE THE BIRDS!

What may follow the expedition of T. R. to Africa.

time entirely adequate for its own uses, or if with a look into the future accommodations adequate for the traffic of such road ten years from now shall be provided, it will still be in a way a waste of money. A depot capable of accommodating the traffic on one line today would be inadequate for a union depot where all the passenger traffic of all the lines might be easily handled. If provision is made for the future by a single road, that will not solve the problem for a union depot where all the lines may come together. In all kinds of modern business a clearinghouse has become a necessity. The more easily the exchange of business between the several concerns it made, the greater the saving of time, trouble and expense. The union depot is merely a clearinghouse for the passenger traffic of the city. It is one of the greatest needs of Los Angeles. Let us all pull for it—for a union depot that really is a union depot.

## THE NEWEST "REFERENDUM" MISCHIEF.

Like Iago, the referendum has returned to make turmoil in municipal affairs. The governmental atmosphere, having been cleared of the dust of the recall, is to be again befogged by one of the triarticulate, trigeminous and otherwise trying tribulations socialistic of our pieced and patched city charter.

This time the referendum promises new mischief. A newspaper procured a petition to refer to a vote of the people the ordinance passed last March fixing telephone rates. These rates were made equal for all classes of service by all companies. This meant an increase for one company and an added tax on individual users. Now the petition is found sufficient and the Council must either spend $10,000 to $15,000 for a special election or defer the vote until the regular municipal election in December. The last course requires the suspension of the ordinance fixing rates and operates to leave the city from July until the vote is counted, and perhaps longer, without any legal regulation of telephone rates.

And if the people vote down the rates fixed in the new ordinance, the Council, under the public-utilities ordinance, cannot again fix rates until next March.

The old ordinance fixed the rates from July 1, 1908, to June 30, 1909, specifically. The new one is intended to cover a similar period in 1909 and 1910. That is all the law on the subject. Yet the City Attorney is to maintain that the rates specifically fixed for the year ending June 30 next will govern, without violence to legal construction, until the referendum is settled at the polls, or longer.

The City Attorney sees no other way out of the muddle, but his determination of law is not law itself and is liable to be upset by the courts. The actual ordinance fixing rates is automatically suspended. There is no law actually fixing rates during this suspension. The referendum simply has operated to abolish the rate ordinance till December, inasmuch as it is certain that no special election will be held.

To add more fog, the company benefited by the new rates is to maintain, in court if necessary, that the referendum section of the charter applies only to legislation by the Council and not to its semi-judicial acts, and that rate-fixing is semi-judicial.

The ordinary layman gathers just one fact out of all this, and that is that the referendum means mischief for him in any event. It means lack of stability. It opens the door to mischief-makers because it provides that only 2200 out of 65,000 voters in Los Angeles may, at their will, suspend law and require either great expense at a special election or a hiatus in regulation.

An example of the wrong the referendum admits is the present suspension of all regulation on dance halls because their owners and managers were able to utilize the referendum with its meager requirement of voters to set aside a wholesome law regulating the halls. They are now running as they please as the result of the referendum and will so run until the December election passes on the ordinance.

With the three ugly socialistic features in its charter—the initiative, the referendum and the recall—the municipality is likely to find itself a pestered, festered and bewailing Job among the cities of America. We can have no such thing as stability of government or certitude of municipal regulation till the initiative, the referendum and the recall are rooted out of the city charter and Los Angeles returns to the system of representative government guaranteed by the Constitution of the United States.

Starting up housekeeping in a small way in California you can make a dandy chicken coop out

## THE BATTLE OF THE LEVELS.

We have noted a good deal of discussion in several eastern newspapers, some facetious, some serious, under the head of the "Battle of the Levels," applying to the Panama Canal.

It was an important question at the beginning whether the great ditch should be cut to sea level or the passage for ships should be provided by locks. There were two sides to the question and expert engineers were in disagreement. But the data laid before the government by the proponents of the lock-system canal outweighed those presented by the opponents of this kind of ditch. We undertook the work on the lock system and have been carrying it forward on that line to the present time. That it will be finished on that plan President Taft positively affirms. But the malcontents have never subsided; the battle has persisted with more or less noise and still rages in print.

The French engineers, almost without exception, have insisted that our plan must in the end prove a failure. They have used assertion rather than argument in the discussion, and their assertions have not been given very great weight for the reason that natural bias was assumed to lie at the bottom of their objections, their people having failed in an attempt to construct such a canal at Panama. They tried it, failed, and naturally declare it impossible. If they were to be convinced it must be against their will, and they probably never will give in until the lock-system canal is in actual operation.

The government has not been "pig-headed." It has manifested open-mindedness in the discussion all the time. It is only a few weeks since President-elect Taft, since become President, went to the isthmus with as competent a corps of engineers, probably, as the country could afford, and came back declaring the problem had been investigated as thoroughly and fairly as possible, with the result that the lock system was to be adhered to. The most serious trouble has occurred at the Gatun dam. Here two small landslides have occurred, the opponents of the lock system declaring that they were of such serious character as to demonstrate the impossibility of ever reaching solid foundation for locks at that particular point. The engineers in charge of the work and on the spot reported that the slipping of the land from under the dam was a slight thing, an occurrence common in such work. The same report was made when the second slide took place, and it was upon this event that Mr. Taft visited the scene, returning with the information that the engineers doing the work were right.

Still the proponents of the sea-level canal would not be silenced. Fortunately we have what may be considered unbiased testimony, and it is comforting to know that this is on the side of our government, of Mr. Taft and the engineers who recently visited the scene. The London Times, about the middle of April, published two articles going very fully into this subject, written by Sir Harry Johnston. These letters review the history of the undertaking by the United States during the five years we have been engaged in digging the Panama Canal. They emphatically indorse our lock system, which President Taft declares will furnish not only a cheaper but a safer and more commodious waterway. The English engineer thinks that by 1915 "the waterway will be open to commerce." He by no means ignores the great difficulties involved in the undertaking. The system of locks lifts the canal a total of eighty-five feet above sea level for a considerable part of the course. This necessitates holding back the waters of the Chagres River by means of a huge dam. The river is small at ordinary times and runs easterly into the Atlantic Ocean. But as torrential rains come on the isthmus this little stream often swells into a terrific torrent. The proposed dam is to create a lake about twenty-three miles in length, with a channel for an outlet nine miles long. This lake and outlet run along thirty-two out of the fifty-five miles of the ditch, and are to be used as part of the canal, leaving only about eighteen miles of further canal to be provided for the passage of ships. If the plan of our engineers is feasible, it saves all digging for fifteen miles where the waters in the artificial lake, which is named Bohio, are deepest. At each end of this stretch lie the gigantic locks, capable of taking the biggest ship afloat.

From the Atlantic side vessels will pass through a cut, leading seven miles inward from Colon to Gatun and where the great dam is being built. Here will come the uplift by the lock to the level of Lake Bohio, or rather by a series of three locks like steps of stairs, each twenty-eight feet six inches high. Passing the lake, they go through the great Culebra cut at the backbone of the isthmus and drop by a lock thirty feet, cross another lake two miles and then descending by two more locks,

The London Times, speaking editorially, says: "The opening of the Panama Canal will mark a date of the highest importance in the history of the world. Whether the work of construction is to cost the United States £35,000,000 for a lock canal or double that sum for a sea-level canal, the money will have been well spent. The canal will give the United States for practical purposes a continental coast line from the State of Washington to Maine. By digging a waterway fifty miles in length the United States will in fact double the effectiveness of their navy without increasing its numerical strength. Commercially the effects of the canal will be equally far-reaching. Despite the tendency toward closer political and social relations, the United States and South America have remained in matters of trade on comparatively distant terms. . . . The Panama Canal will bring them thousands of miles closer."

## HOROSCOPE.

**Friday, May 14, 1909.**

BY COZETTE.

The star that guards the spirit that aspires
Now sends its impulse for unwonted fires.

Uranus, in sextile and benefic aspect with the moon, on this 134th day of the year exerts favorable power over sightseeing, traveling, art and science. The planet rules the romantic and unusual faculties and is fortunate for those engaged in uncommon occupations.

Mercury, in square with the moon, looks favorably on writings and on undertakings that invite publicity. The planet is in strong relation this day with those of high intellectual power, but these must beware against a tendency to be hypercritical of others.

Neptune, in trine with the moon, has a good power for constancy and devotion in love and married life, thus favoring courtships, engagements, weddings and domestic affairs.

Hire women this day for any work.

A good day for persons engaged in brewing, distilling, canning, preserving or similar operations.

The ensuing seventy-two hours are under planetary configurations that should make them extremely good for fishing.

A good day for persons who write either with pen or machines, office and shop employés, salespeople, agents, canvassers, artificers, teachers, students and printers.

Women and men with this birthdate are under a sign indicating that they are likely to be hypercritical and quick to passionate angers. They must guard against these faults which will mar what may otherwise be a successful year.

Children are born today under signs that make intense and energetic natures with a fair share of the imaginative. They should be guarded in youth against any tendency to exaggerate and misrepresent.

Where the Sunflower Grows.

## DAD.

BY UNCLE WALT OF EMPORIA.

Dad is growing old and weary and there's ash in his hair, and his eyes are always solemn, he has seen so much of care; he has seen so much of sorrow, he has known so much of tears, he has had the heat and burden of so many bitter years. Dad's already in the twilight of life's little day, and perhaps we'll often ponder, when his head is laid away, on the steps we might have saved him when his feet and hands were sore, on the love we might have given to the heart that beats no more. We'll recall a hundred errands that we might have gladly run, and a hundred kindly actions that we might have gaily done; we'll remember how he labored, while the boys were all at play when the darkness hides him from us at the close of the day.

WALT MASON.

[Copyright, 1909, by George Matthew Adams.]

### How About This?

Los Angeles reformers are asking the Council to pass an ordinance prohibiting women from lifting their skirts when passing along or across the streets. No law is necessary to grant permission to offended bystanders to fix their gaze on the architecture of the skyscrapers.—[Omaha Bee.

### Of Course.

You may not have noticed it, but the most proficerous advocates of an income tax are those who wouldn't have to pay any of it.—[Detroit Free Press.

## MUSIC AND THE STAGE.

Richard Bennett is the head of the Belasco company for the summer, commencing in the middle of June. Fritz Stone, who has been working continuously for practically nine months, is going to Montana to spend the summer in the hills and among the cow men of the lower country. Mr. Stone will return in the early

Richard Bennett,
who will head the Belasco company this summer. The character here is the leading part in Maude Adams's play of this year.

and will make his reentry—today—in "The Shepherd King," which will be the Belasco anniversary

here the name Richard Bennett doesn't mean much, but to those from the East, or to those who have seen the eastern productions this season, it means a great deal, for Bennett has been Maude Adams's leading man this season, and in Barrie's latest fantasy, "What Every Woman Knows," practically stole the play from her and took New York by storm. His character, which made famous in a night, was John Shand, sober, industrious, ambitious, somewhat narrow Scotch politician. In Bennett's hands Shand was wonderfully human characterization which stamped the player as one of absolutely the first rank. Bennett has been on the stage six years, and for twelve years has been with Frohman's organization. In all probability, he will be one of Frohman's next star.

Orpheum Club gave its annual entertainment at the Auditorium last night, the feature being a presentation of Francois Coppee's poetic drama, "The Violin Maker of Cremona." The story of the original French has, however, been put into prose in the English

Lawrence Nowland had the principal role, that of Filippo, the hunchback violinist, and imparted a great deal of pathos and dramatic force to his interpretation. The part also calls for the actor to play the violin, business which has heretofore been done by Mr. Nowland, however, this time was heartily by his violin interpretations—which were exquisite—as was his resourceful and very evidently well-rehearsed acting ability which he also exhibited.

Miss Fritzi Stone was appropriately cast and as beautiful as usual as Angela, his misunderstood sweetheart. Robert Bosworth played the part of the violin master, and George A. Wright was seen as the brother of

The evening was preluded by a musical program, which included numbers by Miss Bertha Vaughan, Ignaz Reiner, Harry Clifford Lott and Dallas Young. All of these well-known local artists were warmly received.

The audience was large, and the play was moved with speed and good judgment.

Manager Montrose announces two important acquisitions to the Treasurers' evening entertainment at the grand opera house. Oliver Morosco has loaned the use of his ten-foot property moon from "Peg," and Harry Girard has extended his willingness to appear in person and sing his own classic ballad, "Tom-Tom-Pole Pete," from "The

The Philharmanchor will give its concert at Simpson Auditorium this evening, under the direction of Frederick Reiser. Assisting will be Miss Elsa Fuhrer, violinist; Arnold von Conrad, tenor, and Messrs. William Ellsbridge and Bruce Gordon Wells, pianists.

Mr. and Mrs. Fred E. Babb of Fresno are guests at the Hollenbeck. Mr. Babb is a shoe manufacturer.

Stylish "Cloth Weave" Silks

More and more are the silks for summer copying cloth weaves and textures. The very newest pongee weave is the diagonal—which, as all of you know, is having immense favor in serge and like wool goods:

New diagonal pongees, in parme violet, mogul, Wedgwood, new green, navy and natural; splendid for tailored pongee suits; shown exclusively by us, in 36-inch width ..... $2.50

Another new cloth weave is shown in pongee—the herringbone "Wuskana," it is called; shown in green, gray, old blue, pink and brown; 27 inches wide ..... $1.25

A window full of fancy foulard silks is attracting much trade, at yard ..... 50c

# FACTS, FEATURES AND FANCIES FOR WOMEN

BY MISS SYDNEY FORD.

This is the season of brides—bless 'em—and the whole world is just as much interested in weddings and wedding festivities as though they had not been going on for centuries. "All the world loves a lover," and we might add a codicil "and adores a bride."

In hundreds of homes right in Southern California there is now going on preparations for the June wedding. The hum of the sewing machine buzzes merrily on as the trousseau is turned out and dainty garments are being folded away in many a "hope chest"—as the laughing schoolgirls call it.

I'm not going to croak—far from it—but just utter a word of warning and quote "an awful example" in the hope that it may save some fair girl bride from mental anguish and physical breakdown in the very beginning of the honeymoon. I knew a girl—she was a Los Angeles girl, too—who spent the three months previous to her marriage in constant stitching, embroidering and sewing. She ran the sewing machine hours at a time, making up an exquisite wardrobe. She was one of those girls who is "handy with her needle." She could make almost anything she turned her attention to, and in her girlish zeal and love of accomplishment she turned her whole attention to the making of her wedding wardrobe. She took pride in having every garment hand-made—and made by her own hands. So absorbed did she become in the delightful task that she had to be litorally driven out of the house to take needed exercise and fresh air.

Finally the wedding came off. It was a large church affair and fully a thousand guests were bidden to the nuptials. As the bride passed down the aisle on the arm of her father, she looked more like a ghost than a blooming bride, and it was common comment among the guests, "What a deathly pallor." She collapsed on the wedding journey from utter exhaustion and a message came back to her family here summoning them to her side in the eastern home to which her husband had taken her. She was unable to wear any of the beautiful clothes or take any part in the many festivities planned to welcome her to her new home, for she was a physical wreck, and it was months before she was sufficiently recovered to take her place at the head of her new home.

* * *

**The Other Way.**

Look on that picture—then on this.

The most beautiful wedding I ever attended, observes a writer in the Delineator, was one in which the bride was married in her commencement dress and her husband picked her bouquet from the little garden he had planted for her in the new home. This girl was very sensible in most ways, yet she was both spiritual and romantic, and she realized, as few do, that the days of the love-making time were far too precious to be wasted over lengths of dry goods. Her trousseau was exquisite, but it was simple and inexpensive and took her only a few weeks to make. She had it all out of the way two months before the wedding took place and was able to spend those last precious days in close fellowship with her family and prospective husband. And she did not bring the latter a dowry of strained nerves, or a pricking conscience, because she felt she had been selfish; and as she stood before the clergyman listening to the words which were changing all of life for her, she looked like a splendid rose on a perfect stalk instead of a faded lily trampled down by a sewing machine.

Nature will not change her laws one jot or tittle even for a June bride, and overworked nerves will have their inning. There is no prettier sight than a woman engaged on a dainty bit of needlework for her trousseau, but in the name of all that is reasonable, where is the necessity for providing dozens and dozens of undergarments, dresses enough to last years, and hats ditto? I know a young bride whose boast is that she tied 700 baby ribbon bows for her lingerie and worked 1000 eyelets in the same. She was not going to the far North or to darkest Africa, where white goods were practically unobtainable, but intended to stay in her home city, where she could buy what she wanted right along, and get things at bargain sales occasionally.

There is something distinctly vulgar in this mad rush for clothes during the engagement period. It is not the finest way by any means to fit one's self for the new duties. Half of the sewing hours devoted to cooking lessons and the study of domestic economy would prove a far better investment.

* * *

**Here's Variety—Take Your Choice.**

If you have any preference in regard to the location of your waist line, now is the time to assert yourself, succinctly observes the Washington Post. Of course, it has been understood for many a year that nature's designs in this matter of waist lines were of no consequence, that the French dressmakers had assumed all responsibility and would set the feminine waist line wherever fancy prompted; but there was a time when the great Parisian modistes were more or less united and when one or two of them were so dominant that if Simon said waist line up—up went the waist line in all the workrooms.

This restful unanimity has vanished. The day of individualism in dressmaking and dress-wearing has arrived, and no Simon is allowed to dictate to all fashionable womankind. All of which does not mean freedom from the bonds of fashion, by any means, but merely a wider choice in selecting the bonds.

New prophets have arisen in the dressmaking world of the gay French capital. Old autocrats have passed and sovereignty is divided and subdivided. One great house goes over to medievalism and sends out moyenage models, some of which, it must be admitted, would give a medieval belle hysteria if they were shown to her and she were told that they were supposed to be according to her ideas. One famous maker pins her ideas to Louis XV lines. Another remains faithful to the empire and directoire, though inclined to coquet lightly with the Louis period in certain details.

To sum up, then, ladies, you may choose what best suits your taste and figure. You may wear your waist line just under the bust, slightly above the normal waist line, at the round normal line, at the natural line in sides and back but running sharply down in front, or you may wear it dropped below the natural line all the way around—and still be strictly in style.

* * *

**Who's Crowding?**

There's a great deal of talk, and con-

the so-called learned professions and a hundred other places, where previous to the present generation, men reigned supreme. But did it ever occur to you to turn the proposition the other way about and look at it? How many men have invaded women's sanctum? How many men are dressmakers, milliners, cooks, laundrymen and teachers? This last profession, years ago, used to be the one outlet for the woman bread-winner beyond domestic service, and behold, in this present century and year of our Lord 1909, we have before us the spectacle of a college president whose avowed purpose is to banish women from the faculty of the co-educational institution over which he presides—because of their sex, thus striking a blow at the profession which our forefathers set aside as peculiarly fitting to woman outside her domestic calling. Is it any wonder that a storm of indignant protest has arisen concerning this injustice?

All this reminds me of a chat I had with Rev. Anna Shaw a few years ago. I recollect I asked her the question: "Do you think women are crowding men out of the business and professional fields?"

This was her answer: "No, I don't. There are more men doing women's work than vice versa. All the carding, spinning, weaving and making of garments used to be done by women in the home. Now men do it in big factories. There are men dressmakers, cooks, table girls and laundresses. They have taken our sphere."

* * *

**Hair and Hats.**

Nothing fixed, nothing that has a premeditated look, is permitted about the hair.

Some of the tilted hats are trimmed only on the lower side, which is usually the right.

Daggers of tortoise shell, studded with diamonds, are among the most popular hair ornaments.

Hats with strings are very much the rage, but they must be worn only with very dressy costumes.

The newest hatpins are of enameled white metal in dull or bright jet effect. They come in bell, pear or spear shape, large or small.

The hair should be parted in the center or on the side. The billowing masses should be patted down and then the hat put on.

The Normandy cap, enlarged and made more important by the Paris milliner, will fashion some of the best summer hats, in batiste, net, tulle or embroidery.

A new silk hat for men has a very little bell and is smaller at the top than at the bottom. It is embellished with a rather wide cloth band, but has no bow.

# WOMEN'S CLUBS.

Help wanted! by the Nominating Committee of the Friday Morning Club, for this body of fine good women and true will doubtless have the task of naming a president to succeed Mrs. Tolhurst.

It is true nominating ballots were cast a week ago, but only two out of the thousand active members received the twenty-five votes necessary to put their names in nomination for this office. These were Mrs. Shelley Tolhurst and Mrs. J. F. Sartori.

Both have refused to accept the honor and, according to the bylaws of the club, a nominating committee must be appointed to present a ticket. Mrs. Tolhurst has been made chairman of this committee.

Many times has it been necessary to appoint such a committee, but never before in the history of this club have the members had thrust upon them the responsibility of selecting the nominee for the office of chief executive.

Mrs. Charles Farwell Edson and Mrs. John R. Haynes have been nominated for the office of first vice-president, and both women have been discussed as presidential possibilities. Mrs. Edson, however, has stated positively that she would not consider for a moment the idea of running for president; and it is doubtful whether Mrs. Haynes has sufficient backing among the club members to carry an election.

Why there should be any difficulty in selecting a president among the many bright and capable women of the Friday Morning Club is a puzzling question. A club which can lay claim to one of the brainiest club women in the country, Mrs. O. Shepherd Barnum, and which includes women who have won distinction in nearly every profession!

Heading the outgoing board of directors is the name of Mrs. O. P. Clark, whose paper on certain issues of the Republican Presidential campaign was used by party leaders as campaign literature; Miss Laura Grover Smith is another board member, popular, cultured and of delightful presence, while Mrs. N. K. Potter, the treasurer of many years' standing, is a woman of splendid capacity. Mrs. J. B. Lippincott is another popular and influential member.

The Friday Morning Club has decided to buy the clubhouse at No. 940 South Figueroa street, where the meetings have been held for several years. Options on nearly all of the stock have been secured and the cost to the club will be $50,000.

Great disappointment has been felt by some of the members that the project of building on the lot at Adams and Hoover streets has been abandoned. It has been decided to hold this valuable piece of property until some future time.

The programme for today will consist of a lecture on "The Conservation of Water Power," by J. B. Lippincott, assistant chief engineer of the Los Angeles Aqueduct.

—o—

**Complimentary Progressive Party.**

Complimentary to Miss Ludenia Sayre, extension secretary of the Y. W.C.A., Washington, D. C., a delightful progressive party was given at the association building last night. The guests first gathered in the auditorium on the first floor, where a short programme of songs and recitations was enjoyed; then all moved to the gymnasium on the fourth floor, where another half-hour was spent in rollicking games and fun-making.

The senior girls then took the guest in hand, and entertainment was provided in a happy and novel manner. The "Auntie Club" served the candy at that part of the function; a house was built of candy boxes, a large-sized chimney occupied the center of the house, and guests were told to reach down the chimney for the goodies.

Leaving the senior clubrooms the party ascended to the seventh floor, where the operators of the Pacific Telephone Company gave Miss Sayre a handkerchief shower, and the happy event closed in the blue dining-room, where frappe was served by the girls of the Victoria Club of the Broadway department store.

There were about 150 guests at the party.

—o—

**Orphans' Home Annual Meeting.**

The annual meeting of the board of managers of the Los Angeles Orphans' Home will be held at the Broadway church today at 2 o'clock. Reports of the year's work will be submitted, and the report of the Building Committee, of which Mrs. Ernest Bryant is chairman, will also be read. The children of the home will provide the entertainment for the afternoon, and there will be an exhibition of their work in culinary and needlework departments.

**MADISON MILL BURNS.**

MADISON (Wis.) May 13.—The Finder Planing Mill was destroyed by fire early today. Loss $100,000. A large section of the city was threatened.

# GAINED NINETEEN POUNDS IN TEN WEEKS' TIME.

## Rapid Development of Texas Boy Due to New Cooper Treatment

Parents who have weak, puny, delicate children will be interested in the story of little Arthur Hartmann, Jr., of Houston, Tex., which was recently brought to public notice. He is the son of A. R. Hartmann, a steam engineer, who formerly lived at 2019 Hutchins street, Houston, Tex., but has since removed outside the city limits and lives on one of the rural routes.

Regarding his little boy's illness and subsequent recovery, Mr. Hartmann says: "My baby boy was sick for two years. He had an attack of inflammation of the stomach and intestines, and later suffered from indigestion. I consulted several doctors, but they could prescribe nothing in the way of food that would agree with him, and although I spent hundreds of dollars for drugs, tonics, patent foods, etc., there seemed to be no hope of pulling him through.

"I was not a believer in advertised New Discovery, which had been highly recommended by responsible persons. I make no exaggeration when I say his condition changed for the better the very first day we gave him the Cooper medicine, and his rapid improvement was a delight to see.

"His bowels were thoroughly cleansed, his appetite increased, he gained strength, and soon began to play and show signs of life and health. We gave him the New Discovery about ten weeks, by which time he was entirely recovered. He is now three years old and weighs forty pounds, or, in other words he gained nineteen pounds while taking the Cooper medicine.

"We feel deeply grateful for what Cooper's New Discovery has done for our little boy—in fact, I do not believe he would have been with us now were it not for this splendid medicine."

## Notice of Trustee's Sale

Whereas, the People's Gas and Coke Company, a corporation organized and existing under and by virtue of the laws of the State of California, and having its principal place of business in the City of Los Angeles, County of Los Angeles, State of California, by a deed of trust dated September 1st, 1904, recorded October 12th, 1904, in Book 2173, Page [illegible] Trust Deeds, in Book 1493, Page [illegible] Mortgages, and in Book 189, Page [illegible] Chattel Mortgages, in the office of the County Recorder of Los Angeles County, California, did grant and convey certain premises therein and hereinafter described to the TITLE INSURANCE AND TRUST COMPANY (herein sometimes called "Trustee"), as trustee to secure, among other things, the payment of a certain indebtedness of said People's Gas and Coke Company in the sum of $4,000,000, evidenced by 4000 bonds amounting in the aggregate to $4,000,000, dated September 1st, 1905, due and payable thirty years after date, with interest thereon at the rate of five per cent. per annum, payable semi-annually, in Gold Coin of the United States of America, interest payable on the 1st days of March and September of each year, and represented by certain coupons attached to said bonds; and

Whereas, the principal and interest of said bonds and coupons are payable at the National Bank of Commerce, Los Angeles, California, American National Bank, Pomona, California, or the Hanover National Bank, New York City, N. Y.; and

Whereas, That $327,000 par value of said bonds and no more have been issued and bonds of said issue to the amount of $327,000 were on the 1st day of September, 1908, and are now outstanding; that G. H. Hayes was on the 1st day of September, 1908, and still is the owner of $219,000, par value, of the outstanding bonds; that on the 1st day of September, 1908, there became due and interest upon said bonds, owned by said G. H. Hayes, the sum of $[illegible] that said interest was not then paid to the said G. H. Hayes or to any one in his behalf, and has not since been paid; that on the 2nd day of September, 1908, said G. H. Hayes, presented coupons representing said interest on said People's Gas and Coke Company and demanded payment thereof, which payment was refused; that on the same day he presented the coupons representing said interest to the National Bank of Commerce in the City of Los Angeles, California, said Bank being one of the places of payment of said coupons, and demanded payment thereof, which payment was refused by the said National Bank of Commerce because of want of authority of the People's Gas and Coke Company to pay the same or any of them; and

Whereas, on the 8th day of September, 1908, written notice of said default was given to and served upon the said People's Gas and Coke Company by the said Title Insurance and Trust Company, trustee, which written notice stated and declared the said default and the dollars and amount and consequences thereof, and

Whereas, said default has continued from the 1st day of September, 1908, to the present time, and for more than sixty days after said written notice thereof by the trustee to the said People's Gas and Coke Company; and the interest so in default has not been paid nor any part thereof; and

Whereas, it is provided in said deed of trust that if the said People's Gas and Coke Company shall fail to pay any of the coupons or any of them, according to the tenor and on the due presentation thereof, the same and such default or failure to continue for a space of sixty days after written notice thereof had been given by the trustee of the said People's Gas and Coke Company, then the whole amount of principal and interest of said bonds shall be deemed immediately due and payable at the election of the trustee; and

Whereas, said G. H. Hayes, the owner and holder of $219,000 par value of said bonds, has in writing declared said default and has declared that by reason thereof the whole amount of said bonds and interest of said bonds outstanding is now due and payable, and has notified the said default; and has requested and directed the trustee to elect and declare the principal of said bonds due and payable, and that it proceed to sell and dispose of the property covered by said deed of trust as therein provided; and

Whereas, by reason of said default and at the request and demand of the said G. H. Hayes of the TITLE INSURANCE AND TRUST COMPANY, trustee, has declared the whole amount of the bonds outstanding to be now due and payable; and

Whereas, it is provided in said deed of trust that in the event of default as aforesaid the said trustee may proceed to sell and dispose of the property covered by said deed of trust at public auction in the City of Los Angeles, to accomplish the objects of said trust, first giving notice of said sale as required by said deed of trust provided; and

Whereas, there became due on the 1st day of March, 1909, as interest upon said bonds owned by the said G. H. Hayes the further sum of $5475; that said interest was not then paid to the said G. H. Hayes, or to any person in his behalf, and has not since been paid, and no payment thereof has been made to the said G. H. Hayes.

Now, Therefore, notice is hereby given that the undersigned by virtue of the authority in it vested as trustee will sell at public auction to the highest bidder for cash in United States Gold Coin, at the time of the acceptance of such bid and balance at the delivery of deed, at the Broadway street entrance to the County Court House, in the City of Los Angeles, County of Los Angeles, State of California, the property and interest in the said deed of trust described situate in the County of Los Angeles, State of California, to-wit:

1. All right, title, claim, estate and interest, legal or equitable, of the said People's Gas and Coke Company in and to all real estate or the tenements, hereditaments and appurtenances thereof, however situated or wherever situated, including all right and interest in the said Company in and to all mains and laterals, meters, connections, service pipes, connections and appurtenances connected or used therewith.

2. All the real property or real estate therein acquired since the date of said deed of trust, by the said People's Gas and Coke Company, and subject to all the terms and conditions thereof, and more particularly described in said Letters-Patent are more particularly described as follows, to-wit:

Letters-Patent No. 711,904, granted October 21st, 1902, for "Process for Manufacture of Coke and the Recovery of Gases therefrom."

Letters-Patent No. 711,905, granted October 21st, 1902, for "Process for Manufacturing Coke."

Letters-Patent No. 718,008 granted January 6th, 1903, for "Air Heater and Steam Generators."

4. All stocks, bonds and other securities and contracts held and owned by the said People's Gas and Coke Company, acquired by said People's Gas and Coke Company since the date of said deed.

Also all other property of every kind, character and description owned by the People's Gas and Coke Company on the 1st day of September, 1906, and all property of every name, character and description acquired by the said People's Gas and Coke Company since the date of said deed, including all real estate, buildings, houses, gas works, coke ovens, pipes and connections, holders, receivers, wharves, warehouses, rights of way, means of distribution, machinery of every description, equipment, all rights, privileges and franchises of every name and nature and wheresoever situated; including all property conveyed to the said People's Gas and Coke Company on the 1st day of September, 1906, and all property subsequently acquired by it to the date hereof.

Together with all and singular the tenements, hereditaments and appurtenances thereunto belonging or in anywise appertaining.

Or so much thereof as shall be necessary to pay the principal sum of the bonds outstanding, to-wit: The sum of $227,000, together with interest thereon from the 1st day of March, 1908, at the rate of five per cent. per annum, the expenses of said trust in the sum of $[illegible] a counsel fee of $500, and the costs of said sale.

Terms of sale cash in United States Gold Coin, twenty-five per cent. at the time of the acceptance of said bid and balance at the delivery of deed.

IN WITNESS WHEREOF, the TITLE INSURANCE AND TRUST COMPANY, has caused its corporate name and seal to be hereunto affixed by its President and Assistant Secretary thereunto duly authorized this 19th day of April, 1909.

TITLE INSURANCE AND TRUST COMPANY, TRUSTEE.

By WILLIAM H. ALLEN, President.

By W. B. BROWN, Assistant Secretary.

[Corporate Seal]

# EVENTS IN LOCAL SOCIETY.

PREPARATIONS of the most elaborate character are complete, with the exception of a few finishing touches, for the fashionable garden party, to be given next Thursday by Mrs. Robert Marsh and Mrs. Louise Pratt at the home of the former, No. 1115 Westchester Place. Seven hundred invitations have been issued and the function will be among the most delightful of the season. Mrs. Marsh and Mrs. Pratt have asked the following to assist: Mrs. Nicholas E. Rice, Mrs. Nicholas Milbank, Mrs. Lawrence to Coronado, at the conclusion of which they will make their home at Glendora, where the groom is engaged in business.

—o—

**Wed in Mexico.**

Of interest to society here is the news from Mexico of the wedding, May 5, of Miss Elenor Peralta, daughter of Mrs. Grace Burmester of Santa Monica, to John Hickman, a mining man of Torries, Mex. The wedding took place at the home of Miss Maretta Seymour, where Miss Peralta had been visiting. The bride is a member of an old and distinguished Spanish family. She is well known in Southern California for her clever tennis playing, and has won a number of beautiful trophies. Mr. and Mrs. Hickman will visit Los Angeles this coming summer, and will be royally entertained by their many friends here.

Miss Ula Hammers,
who will assist at a reception next week.

—o—

**Afternoon Tea.**

Mrs. Fred E. Fay and Miss Cynthia Fay of No. 1298 Orange street will entertain with a tea this afternoon for Mrs. Ira A. Campbell, formerly Miss Zella Fay, and Mrs. G. Hamilton Fay, who recently came to Los Angeles to make her home here.

—o—

**Luncheon.**

Mrs. Alfred Doneau, Mrs. Willis J. Hole, Mrs. Charles H. Toll, Mrs. J. E. Marsh, Mrs. Joseph Patton, Mrs. Viola Kennedy, Mrs. R. W. Burnham, Mrs. S. M. Goddard, Mrs. H. M. Hart, Mrs. Frank Hart, Mrs. Edwin S. Mayo, Mrs. Richard Mercer, Mrs. J. Hall and Mrs. C. E. Rundel.

**Next Week.**

Mr. and Mrs. J. Smith Briggs of Lankershim will have as guests next week Mr. and Mrs. John F. Dale of Omaha.

—o—

**Engagement Announced.**

Mr. and Mrs. O. W. Strong of No. 685 Vermont avenue, announce the engagement of their daughter, Miss Ruth, to James Percival Harker of Kansas City, Mo. The wedding will take place early in August.

—o—

**Engagement Announcement.**

The engagement is made of the wedding of Miss Adeline Schroeder and Mr. Bates Argyle, which was solemnized Monday last in Covina at the home of Mrs. C. J. Flat, the bride's sister. The rooms were prettily decorated with quantities of orange blossoms, gathered from the latter's orchard. At the conclusion of a wedding breakfast Mr. and Mrs. Argyle will reside in Prescott, Ariz.

—o—

**Quiet Wedding.**

Miss Marie Martha Reber of Kansas City and Howard Netta were married quietly at noon by Rev. Phelps. Mrs. Netta will enjoy a trip

## CHILLY.

## GALLOPS STREET IN NIGHTGOWN.

### MYSTERY IN STORY OF A MAN FOUND IN VACANT LOT.

**Asserts He Gave Chase to Intrusive Night Visitor—Pursued Knocks Out Pursuer—Victim Figured in Alleged Sensational Robbery Month Ago—Says Assailant Same Person.**

Carl Schulze, who gained notoriety about a month ago by reporting to the police that two men entered his room at No. 830 South Grand avenue about 1 o'clock in the morning, bound him to his bed, gagged him with a handkerchief, robbed him of $22, and then left him to his own resources to extricate himself from the bonds, in which he said he did not succeed until daylight, yesterday gave the police another mystery case to solve in which he is the principal figure.

Yesterday morning about 5 o'clock Patrolman David Craig of the University division found Schulze lying in a vacant lot on Sixteenth street near Georgia, clad only in coat, shoes and night gown. The officer escorted Schulze back to his room and was told the following story:

That about 1 o'clock in the morning he was awakened by the noise of a key being thrust into the lock of his room. He called to the intruder. The key was withdrawn and he heard steps receding in the hallway. Going to his window he watched the street exit and in a few minutes saw a man emerge, walk half a block up Grand avenue and then take a standing position under a tree.

For half an hour the man stood there and then again entered the apartment-house where Schulze rooms. Again Schulze heard steps approaching, slipped on his coat and shoes and met his visitor at the door. He says he positively recognized the man as one of the two who tied and robbed him in his room a month back.

As Schulze opened his door he says the man fled and he gave chase. Down Grand avenue the two men raced. The unknown turned west on Tenth to Georgia, south on Georgia to Sixteenth and then west on that thoroughfare with Schulze in full chase.

As Schulze turned into Sixteenth street from Georgia he could not see his quarry, who, he had before kept in easy sight. Suddenly, he says, as he was passing a doorway the man jumped at him, and dealt him a vicious blow with some blunt instrument on the head. He says he remembers nothing else until Policeman Craig found him in the vacant lot.

Police detectives who investigated the case yesterday were mystified for the reason that when they asked Schulze to show the bruise on his head where he had been struck so as to determine what instrument was used, Schulze could not show even the slightest contusion. Neither could he find a sore spot on his head; nor give an idea where the blow might have landed. The detectives at once terminated their investigation. They have not attempted to account why Schulze was abroad at 5 o'clock in the morning, scantily clad utilizing an empty lot as sleeping quarters.

It was on the morning of April 15 that the police received a hurry call from Schulze's rooming-house announcing his experience of the night and asking for detectives to investigate. When the officers arrived Schulze told how two men entered his room about 1 o'clock in the morning, of how he had been awakened, of the ensuing struggle against the big odds, how he was overpowered, bound to his bed and gagged; how he watched the two men search his effects and take his money, watch, rings and other jewelry. Then for hours he said he struggled with his bonds until finally about daylight, he was able to loosen the towel which had been bound about his mouth.

Weakened from his efforts, he says, he called repeatedly to attract the landlady or other roomers. An hour elapsed before the landlady finally heard him. She called other roomers, who forced the door. Schulze was found in his bed tied hand and foot and almost choked to death. He was quickly revived and told of the robbery. When detectives arrived they found that Schulze had been released and the cut cords lying beside the bed. Schulze could give only a poor description of the men, but believed they were Mexicans. Schulze is employed in a wholesale paper store on Los Angeles street.

### ADDING TO INDUSTRIES.

**Hanford Expects to Get Two More Factories—School Bonds Voted. Flax Raising.**

[SPECIAL CORRESPONDENCE OF THE TIMES.]

HANFORD, May 11.—M. K. Serallian of Fresno may establish a grape-juice factory here. He is operating a plant at Fresno, and intends to branch out if the encouragement of the local growers is forthcoming. A meeting of the latter to discuss the proposition has been called for next Saturday.

The electors of the Hanford school district have voted $5000 bonds for slight improvements in the buildings and to pay the salaries of teachers it was found necessary to add during the term.

The raising of flax in the Tulare Lake region promises to become a big industry. A large acreage, sufficient to give the product a good test in this part of the valley has been planted by Lemoore men, and the outcome is being awaited with great interest.

The Woman's Club has set June 10, 11 and 12 as the dates for its big carnival. A queen will be chosen by vote, and a baby show will be a big feature.

A movement is on foot to arrange an encampment of the Third Battalion, Second Regiment, N.G.C., in this city, July 1, 2, 3 and 4.

The Kings County Game Protective Association is working on a scheme to establish a State game farm here. The State officials are favorable, and all that now remains is to obtain a suitable tract.

The grape vines here are a trifle backward, but growers are not the least alarmed. Peaches will be plentiful, but apricots will be short. Prunes will be about normal.

A company is soon to be incorporated to erect a factory here for the manufacture of pumpkin flour, a product obtained by a process of evaporation patented by Messrs. Kendall and Robinson of this city. The process is also applicable to other vegetables.

### EQUIPPING LIBRARY.

**Institution for Booklovers Is Being Established at Huntington Beach.**

[SPECIAL CORRESPONDENCE OF THE TIMES.]

HUNTINGTON BEACH, May 13.—The building to be occupied by the new public library and reading-room is being repaired and equipped for receiving books, a large number of which have already been donated. The library will be free, and will be open every afternoon and evening.

Memorial Day will be celebrated here by the Grand Army post by decorating the graves of dead soldiers in this vicinity and by union services of all the churches to be held at the Methodist Church. Rev. Dr. Edgar E. Clough, the pastor, who is also commander of the Huntington Beach post, will deliver the Memorial Day sermon.

Official notice has been received by the postmaster here of the establishment of a rural route from this city. It will cover the chief points in the peatlands and will begin service on July 1.

Miss Ethel Osborne, for several terms teacher of the fifth and sixth grades in the local grammar school, has notified the trustees that she will not be a member of the faculty next term. A large number of applications for the vacancy have already been filed.

The Associated Chambers of Commerce of Orange county will hold a banquet in this city at the Huntington Inn on the evening of May 26, and a large attendance from the chief cities in county is assured. Preparations are being made by the Huntington Beach Board of Trade to provide the visitors with a pleasant function.

W. B. Reduso CORSETS

The REDUSO is a helpful, healthful, wearful corset for stout women. Shapely lines for the wearer; support given the body and a reduction of from one to five inches attained without the use of straps or any attachments.

REDUSO, Style 770 (same as illustrated,) for tall, large women. Material of very serviceable white coutil or batiste, three pairs hose supporters, sizes 19 to 36. Price $3.00.

Have You Seen the New Cotton Foulards and Pongees at 7½c

If any one had told you a few years ago that cotton material, such as mother's and grandmother's "Mother Hubbards" were made of could be fashioned into summer frocks that would be things of beauty, you would have smiled—and yet today we are showing cottons that outrival many real silk foulards and pongees in beauty of patterns and colorings, and at a price much less than was paid for the "Mother Hubbard" cottons of yesterday. See the displays in our windows and in the department—the richness and unusualness of the designs will surprise and enthuse you. Choose new wash dresses for summer at 7½c a yard.

UP AND DOING.

## PROGRESS THE WATCHWORD.

*Episcopalians to Move With the Procession.*

*Comprehensive Work by City Mission Society.*

*Convention Elects Officers and Adjourns.*

The Episcopal diocesan convention Southern California adjourned ally at 6 o'clock last evening, the ection of officers and committees ving extended through the entire y.

The distinct features of the conven- n's work this year are the advance 50 per cent. in the call for mission- y funds, and the decision to put a nday-school missionary in the local ld. Both mark steps forward in the licy of the church.

During the final session of the conn- ation, Dean MacCormack of St. ul's Pro-Cathedral called attention the fact that this diocese has per- itted two years to pass, since the in- guration of the movement to raise clergy pension fund of $5,000,000, thout taking any steps to support

He said that with but one year left fore the first report of the secre- y, Dr. J. J. Wilkins (whom Los geles gave to the work,) to the Cin- nnati convention, it was high time at loyalty be shown by this diocese. an MacCormack's resolution was opted, calling upon vestries of all rishes to take up the question and sure pledges for the fund, payable five years.

In the debate that preceded the option of the resolution, the ven- able J. D. H. Browne thought the ference to the vestry was not the t way, but that a special repre- ntative should be sent into the pul- s of the diocese to stir up enthu- sm.

A layman took up the cudgel for vestry, and said that "most church ublics are the result of lack of faith the vestry."

ACTIVE MISSION MANAGER.

Rev. T. C. Marshall, superintendent the Episcopal City Mission Society, o had charge of the city wood yard ring the winter, made an interesting port of his work, in the course of ich he said:

"In January of this year the super- ndent organized for the Associated arities on rented property adjoining Church of the Neighborhood, the blic wood yard and labor bureau, ere, in four months, 246 men rked.

"We can do a most valuable moral rk, as well as one that will actually ve money to the church, when the ry and people learn to refrain from ing small sums of money to get rid troublesome cases, and will sup- rt and use a joint bureau conducted the name and in the spirit of the urch.

"If the rescue mission proposed by T. Hudley and cordially indorsed the society can be established with dings, employment bureau and mis- n hall, relief work can be done with nething like efficiency. For most those who want our assistance, the y adequate relief is moral regen- ation. Only when we are equipped offer man all that they need—food, thing, temporary work, physical and ral cleanness and spiritual strength ill we be equipped to do the Mas- 's work for the men of the street. The social service department, with strong executive board, of which s. Sumner P. Hunt is president, is charge of the settlement work at Church of the Neighborhood. All regular activities have been main- ned during the year—daily free kin- rgarten with from twenty-five to rty children; Saturday afternoon wing school in charge of Deaconess iger, with an enrollment of seventy, erage attendance of forty-five; Tues- y afternoon sewing school, average rty-five; boys' clubs for gymnas- and music under H. A. Wyckoff d E. C. Hopkins, with membership fifty-five boys under 16, and twen- five over 16 years of age; a cabi- -making shop, open five periods a ek, in charge of R. A. Manch; a ls' Friendly Society and a Junior xiliary; a free circulating library of volumes, kept open by the faithful rvices of Mrs. Mark Rice; the Cloth- r Bureau, where second-hand cloth- r is sold and given away. Above erything else the settlement is a od neighbor in the community, ere a thousand acts of service are ndered of which no account is taken, e influence of which would defy com- tation, done not to furnish material r reports, but the instinctive expres- n of Christian sympathy. It is the rpose of the board to secure the rvices of at least one—probably two aconesses trained in settlement rk, who will reside in the settle- nt and conduct its work."

OFFICERS AND COMMITTEES.

Yesterday's elections resulted as fol- s: Secretary, Rev. Alfred Fletcher, vima; Assistant Secretary, Rev. omas C. Marshall, Los Angeles; easurer, W. C. Mushet, Los Angeles; gistrar, Rev. Henderson Judd, Los geles; Chancellor, Henry T. Lee, s Angeles.

Examining chaplains, Rev. A. G. L. ew, Rev. J. D. Easter, Rev. W. F. ubbard, Rev. R. L. Windsor.

Standing Committee—Rev. J. D. H. rowne, Rev. C. H. Hibbard, D.D.; ev. A. G. L. Trew, D.D.; Rev. L. G. orris, Dr. J. M. Radebaugh, Dr. J. Cowles, Daniel Cleveland, H. T. ee.

Board of Missions—Very Rev. Wil- m MacCormack, Rev. F. T. Hin- ide, Rev. C. T. Murphy, Rev. R. B. oden, W. C. Mushet, J. B. Phillips, T. Hinde, Gen. J. G. Chandler.

Corporation of the Diocese—Rt. Rev. H. Johnson, D.D.; J. A. Anderson, regory Perkins, Jr.; A. W. Morgan, T. Lee, Louis Blankenhorn, C. T. inde.

Delegates to council of eighth de- rtment—Very Rev. William Mac- rmack, Rev. Thomas C. Marshall, ev. Joseph McConnell, J. H. Pear- an, William F. Knight, R. H. Lind- y, J. A. Lamb.

The report of the directors of the rporation shows assets amounting $60,507, all in good loans and securi- s, except $16,757, which is in bank aiting a good investment. The re- rt of W. C. Mushet, treasurer, shows e receipts of the diocese to have been 0,004 during the year, of which a all balance is carried over to the w year.

The reception tendered the visiting ergy and delegates by Bishop and rs. Johnson last night was a happy cial event, attended by practically l the visitors and by hundreds of embers of the various parishes in e city.

Chamberlain's Cough Remedy never sappoints those who use it for ob- nate coughs, colds, or irritation of

SELLS, ALSO BUYS.

**Close-in West Second Street Property Conveyed by Man Who Purchased at First and Hill.**

The Carling Hotel, Nos. 222 and 224 West Second street, has been sold by A. J. Koll to a local investor at a valuation of $42,000. The property consists of a lot fronting forty feet on Second street, with a depth of 120 feet. On this is a forty-room building, leased at a monthly rental of $300.

El Moro Hotel, No. 109 South Hill street, has been purchased by A. J. Koll. The reported valuation on which the transfer was made is $48,200. This property consists of a lot 50x180 feet to a court, with an outlet westward to Olive street. It is improved with a building of forty rooms. The purchase carried with it the lease upon the building and also the furniture therein.

The foregoing sales are reported through W. A. Vareoe & Co. The agents state that the tunnel now being driven under Hill street north from First street, by which Hollywood cars of the Los Angeles-Pacific railroad will run on that thoroughfare, had a great deal to do in influencing the purchase of this property. The buyer intends to improve the brow of the hill lying between the sidewalk and El Moro Hotel with stores, which he thinks will prove a valuable investment because of the traffic passing upon the cars. This will mean the cutting down of the hill at that point, and it may furnish a suggestion to the new owner to reach his hotel on the hill by means of an elevator from the stores below.

DUSKY PLEADER.

## LAYS BLAME TO SPOUSE'S TRICK.

**NEGRO DEFENDANT SAYS WIFE SENT HIM TO PRISON.**

**Pleads Guilty to Charge of Burglary and Says He Has Served Two Terms in Penitentiary When He Was Innocent—Urges for Light Penalty and Gets Three Years.**

"Judge, so help me, I served two terms in State prison when I was innocent. Now I am guilty, but please be as easy with me as you can and give me one more chance."

This was the strange pleading made before Judge Willis in the Superior Court yesterday by Coleman Moore, a young negro who pleaded guilty to a charge of burglary in the second degree. Judge Willis sentenced him to Folsom for three years.

When the case was called, Deputy District-Attorney North filed an information charging Moore and Ernest Cuen with burglary.

"Do you know, Mr. North," remarked the court, "that this is the day when the new law goes into effect compelling the court to inquire into the antecedents of defendants who plead guilty?"

"I knew that there was such a law," replied Mr. North, "but I did not remember that it was operative today."

"Yes, this is the first day and this is the first case," said the judge.

Policeman Glenn testified that Moore and three other young men had gone to the home of H. Spencer, No. 710 Banning street, while Mrs. Spencer was in the East, and looted the place of everything. All the furniture, clothes, curtains, in fact everything movable, had been hauled out and an impromptu auction held, most of the goods going to the poor Russians and to second-hand men.

The policeman stated that Moore had been convicted twice before on felony charges and twice had served time in the City Jail.

Then Moore took a hand in his own defense. He told the judge that he had pleaded guilty and therefore was not on trial, but that if evidence was brought against him he wanted a chance to introduce some in his own favor.

Judge Willis stated that he wanted to be fair and he would hear any statement Moore had to make.

The young man took the witness stand and told his story, and in the way he told it would have made a hit on any stage. He told of being married several years ago. He said he worked hard and faithfully for the Fairchild - Gilmore - Wilton Company. Then he said his wife "went bad." He said he was warned, and his wife, with outside help, had "a job put up on him." They hid a pair of trousers in his trunk and he was arrested and sent to prison for two years.

This was the second time he had gone to the penitentiary. The first time was from Santa Barbara while he was paying court to the girl who later became his wife.

Moore stated that he was with the girl in Santa Barbara and she was arrested for stealing a purse and some money. But in his love for her he came to her rescue and accused himself of the crime, pleaded guilty and was sentenced to three years in prison.

As for the time he was sentenced in this city to the chain gang he stated that Policeman Glenn, who arrested him for burglary, found him drunk and locked him up, the day before Christmas. On Christmas day the policeman advised him to plead guilty and be turned loose, as all the drunks were going to be given their freedom as a Christmas present.

"When I was brought befo' de jedge, yo' 'onah, I pleads guilty, but de p'liceman had made a chy-arge of vag'ancy against me an' I got six months, yo' 'onah."

"I'm going to be a little easy on you," said the judge, and Moore's dark face reflected hope. "As you have served two terms innocent and as this time you will be guilty, I'll make it three years in Folsom."

"Thank you, judge," said Moore as he rose from the witness chair.

It was said to be the first time in the history of the Superior Court that a witness on the witness stand was ever sentenced to a term in State prison while sitting in the chair as a witness.

ENTERTAINMENTS CONTINUE.

**Elaborate Doings for American Squadron in Tokio—Roosevelt Editorial Commented Upon.**

[BY DIRECT WIRE TO THE TIMES.]

TOKIO, May 13.—Elaborate entertainments for the visiting American squadron continue in Tokio. The Kokumin Shimbun expresses gratification that the warm reception which Japan gave to the sixteen American battleships last October is being reciprocated by the people of the Pacific Coast in connection with the visit there of the Japanese training squadron.

Commenting on the Roosevelt editorial on Japanese in the Outlook, the Kokumin Shimbun says it does not share in the opinion that it will inspire Japanophobia, but believes that the ex-President sincerely relies upon Japan's proper restriction of emigration to preserve the good relations of the two countries. Japan, it adds, did not require Mr. Roosevelt's advice to prevent it from sending uninvited guests to America, for now is obliged to concentrate its superfluous sub-

## PREACHER SENDS WOMEN TO JAIL.

**COMPLAINS AGAINST GYPSIES WHO VIOLATE LAWS.**

**Protests Against Advertising Literature Which Proclaims Ability to Foretell Future as to Love, Health and Wealth—Quarters Provided for Women in the City Prison.**

Six gypsy women fortune tellers were arrested yesterday by the police on warrants sworn out by Rev. William F. Ireland, of No. 1353 South Grand avenue, on the charge of violating city ordinances governing their profession. The specific charges are that the sextette conducted business on only three city licenses, and that they advertised their business in manner contrary to the city laws. Rev. Mr. Ireland, who has long conducted a crusade against fortune tellers, fake spiritualists and other bogus necromancers, particularly objected to the gypsies advertising that they could foretell what is to come to pass in matters of love, wealth and health. He objects also to the gypsies selling charms which they proclaimed would put all evil or misfortune to rout in a hurry. The women gave their names as Mary Lehan and Runsa Lehan, who were arrested in their temple at No. 167 North Spring street; Julia Lehan and Rosie Lehan, of No. 324 North Main street, and Caritza Lehan and Annie Lehan of No. 532 West Seventh street. From the three temples the officers also took two infant babies which were taken to the police station with their mothers. Which of the six they are the officers could not ascertain. Mary Lehan is an elderly dame. When told it was strange that all the women gave the same name, she said it should not be, as they were all her daughters. She proclaimed proudly that she is the mother of thirty-two children.

When the gypsies were ushered into the jail by the arresting officers Jailer Elmer Boaz and Matron Feely threw up their hands with resignation to a problem which they saw no way to solve. For days the woman's ward has been filled to overflowing. It has been a deep question to care for the two or three women who are brought in nightly. When six women and two babies hove into sight it was to despair.

Jailer and matron pondered long. Then Boaz threw off his coat, pinned his start to his suspenders, hitched his keys around his vest and headed for the stock room. Six trips were made, and each time he returned with a comfortable cot. In a large unused cell a new ward was fixed up, and there, after an hour's hard work by Jailer Boaz, the matron led the disconsolate sextette with the two babies, who brightened materially at the quarters which had been made up for them apart from the other women prisoners.

FLUFFY RUFFLES

We invite Correspondence from Representative Clothiers.

A clever Fadclothes Play Book containing attractive den posters will be mailed to you FREE on receipt of your local dealer's name and address.

Address Dept. A.

FADCLOTHES are the result of an idea. The idea came from young men who wanted to design men's garments that would look different. Take 100 ordinary men. They look exactly alike. Then put a Fadclothes man in with them. He stands out like a lighthouse on a dark night. That's because Fadclothes have a certain swing and dash to them that no other clothes can even imitate.

Simply ask for Fadclothes of your local dealer when you buy your next suit.

# TREMENDOUS FLOW OF WATER HURTS TUNNEL.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

PHOENIX (Ariz.) May 13.—Just at present the farms around Phoenix are being run on a short supply of irrigation water because of circumstances unexpected and odd, necessitating the shutting off of nearly all the flow of the Salt River at the dam at Roosevelt. The valley now is being supplied with water mainly from the Verde River, with the addition of 4000 miner's inches coming through the power canal at Roosevelt. The gates at the head of the sluicing tunnel, around the side of the Roosevelt dam, have been tightly closed and will not be opened for weeks to come. It has been found that the tremendous flow of water under pressure through this tunnel has resulted in the beginning of disintegration of the rock below the double system of immense gates. Only one thing is to be done, and that is to proceed at once with the lining of the tunnel with cement, the water not to be turned in again till the cement has properly hardened. This tunnel was first designed as a service outlet from the reservoir above, it being calculated that the water needed would be drawn through a ten-foot penstock established through the dam at the height of seventy-five feet, conjoined with the flow from the power canal now in operation. But the great penstock is not yet ready for use, so a wait must perforce be made till the water in the reservoir rises above the lowest part of the dam before the river channel again will be filled below the dam.

The dam is now about one hundred feet high at its lowest point. Today the lake level stands only about two feet below this and the rise is at the rate of about twelve inches a day. So the waterfall may be expected to begin some time on Friday, adding about 30,000 inches to the present flow of about 12,000 at the Arizona dam. The water shortage has had serious effect on the grain crops in parts of the valley, as this is the time for the last irrigation. On the other hand, however, this is the first season ever known in the valley in which the farmers have been absolutely assured of an ample water supply for summer, stored behind the 160-foot bulk of the dam already.

Sheriff Francis of Coconino county last week announced his belief that the trail for Mexico had been taken by Reuben Neill and Herbert Woods, who fled on horseback from Williams last Wednesday, following discovery of the body of Edward Schwartz, with whose murder, a year ago, they are now charged. That Francis was a good guesser is shown by information now in the hands of Sheriff Hayden of Maricopa county, who has learned that Neill and Woods crossed Salt River, about twelve miles below Phoenix, last Monday morning, bound southward. Each of the fugitives was carrying a rifle. Both are well acquainted with the country and it is believed they have crossed the line already on the road leading from Quijotoa.

## CHINESE WEDDING.

(Continued From First Page.)

maid from his customers, and so it happened that literally wagonloads of fragrant blossoms lent their perfume and their beauty to the setting for the bridal party.

Two ministers performed the ceremony, Rev. J. H. Stewart, who read the marriage service, was assisted by Rev. A. W. Adkinson, superintendent of the Los Angeles district of the Methodist Episcopal Church. Inasmuch as the bride comes from a Presbyterian mission and the groom is from a Methodist mission, both denominations were represented by the officiating clergy.

There was a large company of invited guests, about one-half being Americans, and the rooms were crowded with interested onlookers, many of whom were personal friends of the bride or bridegroom.

BIRD OF PARADISE.

A wide aisle was reserved through the center of the room for the entrance of the bridal party. The ministers, bridegroom and his two attendants, Ah Lok, the well-known Singapore student of the University of Southern California, and Dear Sung, president of the Epworth League of the mission, entered by a side aisle, and proceeded to the altar, where they met the bride and her attendants in front of an arch of smilax, from which was suspended a superb bird of paradise in flowers—red and white carnations.

The bird of Paradise is to the high-class Chinese wedding what the white veil or the marriage bell is to the American function. This bird of brilliant plumage is a compliment to the bride and is supposed to herald the appearance of the sun and moon in the heavens. On either side of the bird was a flag—the Stars and Stripes and the Chinese colors.

TINY PAGES.

The bridal party was led by two tiny pages—Henry Chung, the 4-year-old nephew of the groom, who wore a suit of black satin trousers and evening coat with white waistcoat. He carried the ring in a calla. Beside him was Eleanor Chan, the little daughter of Chan Kui Sing, a court interpreter and the present supply pastor of the mission. She scattered rose petals in the path of the bridal party and was dressed in a filmy white gown.

The diminutive pair led the procession to the music of Lohengrin's wedding march, played by Miss Cox, organist of Union-avenue Methodist church. Next walked the two bridesmaids, the Misses Carrie Chan and Janet Chung. They are students of the Polytechnic High School and the University of Southern California. They were gowned in white and carried sweet peas. Last came the bride on the arm of Miss Cameron. She was robed in a gown of white net, with veil and orange blossoms, and carried a big bunch of white roses.

During the ceremony the niece of the bridegroom, Miss Jessie Chung, sang "Oh Promise Me." Miss Cox played several organ selections, and congratulations were being extended to the couple at the conclusion of the marriage service.

Many gifts were received by Mr. and Mrs. Chung from both Chinese and American friends and teachers.

The bride is the fifth girl who has been reared and won from this same Presbyterian Mission by Los Angeles Chinese. Four of them, now heads of large families, are living in this city.

## BARREL, WIFE LEAVES.

**Home of Prize Fighter Is Followed by Alleged Attempt at Self-destruction.**

Domestic warfare in the home of Mitchell, a prize fighter of San Bernardo street, resulted yesterday afternoon in an alleged attempt on the part of Mrs. Treve Blanch Mitchell to commit suicide.

A young woman was removed to the Receiving Hospital and quickly revived. The surgeons state that she is suffering from hysteria.

Mitchell, according to her statements, has been a faithful wife and has adhered strictly to the duties of the home. Mitchell, on the other hand, announced at the Police Station yesterday that his wife and a Mara-quette, Thomas Morgan, have been friends and that he intends to make the woman to go to the other world.

Over a quarrel yesterday afternoon Mitchell told his wife that she could never again live with him, that he had no malice toward her or anyone else, but that he did not want her around.

Then she good-by and started to leave, said Mitchell. "I followed her and she had a small bottle in her hand and tried to drink the contents that was in it. I took the bottle from her and helped her to my home. There she became hysterical. I sent for the police ambulance.

"No traces of anything that could be considered carbolic acid could be found on the woman. She, however, had some of the stuff on her hands.

"Mitchell took charge of Mrs. Mitchell as she was able to leave the

Jack Clark will be especially funny when he appears in The Times Magazine section today. He will discuss writing

## WALKER.

(Continued From First Page.)

surgeon, and refused to report his arrival to the authorities in Washington. His departure from San Francisco had been reported by the authorities at Mare Island, and when the officer failed to reach Charlotte, tracers were sent out for him all over the country.

During that time, says Rockwell, he and Walker, accompanied by a man calling himself Smith, whose acquaintance Walker had made while in San Francisco, and who passed himself as Walker's secretary, did their best to see as much of the night life in this city as possible. Soon Walker's money began to run low, and before many days he was without funds. Rockwell asserts that, knowing that Walker's family is connected with many large financial concerns in Washington, D. C., as well as in North Carolina, he felt no hesitation in vouching for the checks which Walker scattered broadcast before the sightseeing ended in the hospital.

One of these checks was cashed by Newton J. Skinner, president of the All Day and Night Bank. This was for $20, and went unsettled for some days. Walker, however, visited the bank yesterday, and the officials there state that they now have no claim on him.

ROCKWELL'S STATEMENT.

"This is the second time that seeing a brother naval officer through has caused me a lot of trouble," said Rockwell last night. "I have advanced Walker $180 of my personal funds, and the belief that I was to have received this today, led me to be careless about my account. I knew that Lieutenant-Commander Olmstead had received advices from Walker's friends in the East as well as from the Navy Department to settle up his outstanding bills here, and I supposed that my claim would be among those settled. It was not.

"I have indorsed checks which Walker has had cashed here, for about $970, and spent a lot more for him. I do not begrudge any of it—but where do I get off. My arrest is on account of a check for $25, which I made out to the manager of the Rainier bar in payment for dinner. When I found out this afternoon that no money would be forthcoming, I tried to get in communication with the proprietor, who knows me well, but was unable to do so. Things will be straightened out tomorrow."

Police Justice Rose held Rockwell under $1000 cash bail, which he was unable to furnish, and spent the night at the Police Station.

## TWO BREAK BONES.

**Paperhangers Fall With Scaffolding and Receive Painful Injuries in Barber Shop.**

Harry Henry of No. 824 South Flower street and A. B. Coomer of No. 721 South Broadway, both paper hangers, suffered broken bones and severe body bruises by the falling of a 15-foot scaffolding on which they were working at the Angelus barber shop at No. 311 West Sixth street about 8:30 o'clock last evening.

Henry suffered a broken rib and Coomer a fracture of the right forearm, besides minor injuries. The men were perched on a plank stretched from two ladders when the support was accidentally withdrawn from under them by one of the barbers working below them. Both men were treated at the Receiving Hospital.

## PERSONAL.

Mrs. L. Nichols of Colorado Springs is a guest at the Lankershim.

Mrs. Bruce Price and Mrs. E. M. Post of New York are at the Van Nuys.

F. L. Noble of Seligman, Ariz., is registered at the Nadeau. Mr. Price is a mining man.

Mrs. Frederick Butler and Miss Salenah Butler of Detroit are at the Van Nuys.

Mr. and Mrs. W. E. Miller of Chicago are at the Alexandria. Mr. Miller is the vice-president and manager of the N. K. Fairbanks Company.

Charles J. Barnworth of San Francisco is at the Hayward. Mr. Barnworth represents a big fidelity and casualty company.

Mr. and Mrs. William Oothout of New York, accompanied by Phillip H. Patterson, are late arrivals at the Van Nuys. They will go to their summer home at Santa Barbara today.

J. M. Atwell of Detroit and W. S. Rheem and H. P. Harper of Denver are registered at the Van Nuys. They are all interested in the Standard Oil Company.

Mr. and Mrs. J. W. Smith, Miss Adele Smith, Miss Minnie Hector and Chenbro Smith of Fargo, N. D., are late arrivals at the Van Nuys. Mr. Smith is a ranchman.

W. T. Armstrong, a retired capitalist from Denver, is at the Angelus, accompanied by Mrs. Armstrong. G. E. Wood is with them. Mr. Armstrong is a mining man.

Thomas E. Witherspoon, a merchant from Waco, Tex., is staying at the Angelus. Mr. Witherspoon, who is 72 years old, says the California climate has made a young man of him.

Paul H. Schmidt of San Diego, accompanied by Mrs. Smith, Miss Pauly of San Diego and Mrs. Frank Hull of Omaha, touring through Southern California in an automobile, are registered at the Alexandria. Mr. Schmidt is the secretary of the Coronado Country Club.

## CHARMER SUED.

(Continued From First Page.)

terested. Velie is also interested in the Moline Motor Car Company, the Moline Power Works and other industries. Mrs. Harper derived a large part of her fortune from a grandfather and an uncle, both of whom died millionaires, and she is said to have added considerable to it through judicious investment.

After returning to Mrs. Harper in March, 1908, at Rock Island, being accompanied to that city by his wife, according to the complaint, Sidney Harris again fell before the manifold charms of his former employer and up to November the romance, which for several months had been warmed over, began to dwindle rapidly. On November 17, when the plaintiff asserts her husband deserted her and their one child, Cecil Sidney Harris, it disappeared altogether and in company with Mrs. Harper he spent many joyous months in trips to various eastern cities, where Mrs. Harper's money was very convenient to have.

Mrs. Harris heard of them together in New York, Chicago and Lincoln, Neb. This was from July to October, last year, and the last appearance of the pair in Rock Island was in August. From that time Mrs. Harris heard little of them, but invariably that they were together after arriving in the places named. She last heard of her husband in Lincoln, and since then his whereabouts have been uncertain.

Last December, Mrs. Harper arrived at Hotel Green, Pasadena, which she left about two weeks ago for No. 600 North Fair Oaks avenue, in that city. Mrs. Harris was waiting in Rock Island during the time her rival was in Pasadena, expecting her to return to her splendid residence in that place, but finally heard that it had been sold, together with several automobiles.

HUNTING FOR HARRIS.

She at once left the East, arrived in Los Angeles last Saturday and made inquiries at Hotel Green, which resulted in her locating Mrs. Harper. She placed her affairs in the hands of Goldberg & Melly, attorneys, and they started proceedings immediately. The papers were filed Tuesday and placed under seal by order of the court, and served by special order, the summons being returned yesterday evening.

Mr. Goldberg stated yesterday that they have a man hunting for Harris, and, although the complaint states that he still remains with Mrs. Harper, they have no word of him after she came to California.

Mrs. Harris is a guest at Hotel Orena. When seen yesterday she spoke quietly of her troubles and stated that she has not considered divorce proceedings against her husband, for would be satisfied for the present with the suit against Mrs. Harper. She says that she will consider no reconciliation again.

"I tried it once," she said, pathetically.

BLACKMAIL SHE DECLARES.

"All I have to say is that it is a clear case of blackmail, and as such I intend to fight it through all the courts, if necessary," said Mrs. Harper at her Pasadena home last night. "In regard to details, I can only refer you to Martin & Jackson, my attorneys."

Mrs. Harper was in the city until late last night conferring with her counsel and preparing for a vigorous defense. When her formal answer to Mrs. Harris's complaint is filed it is expected the entire affair will be shown in an entirely different light.

## MERGER NEARER.

**Consolidation Committee Sends Communication to San Pedro and Wilmington.**

At an executive session yesterday afternoon the Los Angeles Consolidation Committee drafted a communication that will be sent today to advocates of city merger in San Pedro and Wilmington. The contents of this communication will not be made public until its receipt by those to whom it is addressed. It is understood to be of such a nature, however, as will meet the approval of the people of San Pedro and Wilmington.

At the close of yesterday's meeting Secretary Fleming stated that the outlook was encouraging for an early agreement between Los Angeles, San Pedro and Wilmington on a basis for consolidation.

It is believed that the plans for the campaign will be formulated within the next week or ten days.

In San Pedro last night the Executive Committee of the Chamber of Commerce of that city held an important secret meeting, supposed to pertain to the matter of terminal rates, which are demanded by certain elements in San Pedro before they will consent to consolidation.

## GIRLS THROWN.

**Young Women at Claremont Hurled from Runaway Rig—Juniors Deliver Orations.**

CLAREMONT, May 13.—Serious injury was narrowly escaped yesterday in a runaway on First street, when a horse driven by Miss Lua Blair became frightened and started for home. Miss Blair and Miss Clara Henrich were seating themselves in the buggy when the horse started, turning short around, throwing Miss Blair from the rig. Miss Henrich was thrown out a little later. Both girls were slightly bruised, but not seriously injured.

The college lecture hour this morning was again given over to junior orations. The juniors speaking were Irene S. Beatty, H. H. Garner, Sarah O. Atsatt, Lucius Case, Mabel Brown and Bess Adams.

The following took part in the recital given this afternoon in Holmes's Hall by the pupils of the School of Music: Miss Hoskins, Miss Southwick, Miss Scharle, Miss Mary Roof, Miss Walline, Miss Treva Blair, Miss Harrison, Miss Rasmussen, Mr. French and Mr. Richards.

The contract for street lighting, in accordance with the system adopted at the last meeting of the City Trustees, has been awarded to the Edison Electric Company. The company will maintain 100 32-candle-power tungsten

## ASK FOR STATION.

(Continued From First Page.)

fair to ask Los Angeles to wait that long for her union station."

RAISE MONEY HERE?

Col. George Black declared that the railroads would make the first move for a union station, if it were thought advisable, and he said there is some doubt as to the desirability of one station, from the viewpoint of the railroads, as the Southern Pacific would probably not wish to move from its present location. He offered the suggestion if the question of ready money was troubling the railroad officials that possibly a special issue of about $1,500,000 of Southern Pacific stock could be easily disposed of in this city on the understanding that the sum realized be utilized in building the much-desired station.

Percy H. Clark, another real estate dealer, said that there is but one man to deal with—Mr. Harriman. "There is no difficulty about the money, if the railroads want to build," he added. He did not favor the suggestion advanced by Black.

D. A. Hamburger advocated moral suasion. He said that public sentiment could be easily aroused and intimated that railroads are influenced by public opinion as much as are other big corporations.

O. H. Parish suggested that some inducement be offered to the railroads and that the best possible site for a union station should be investigated. W. H. Holliday advised the appointment of a committee to confer with Mr. Harriman's heads of departments.

ROOM PLENTY FOR TRACKS.

"For my part, I don't care where the proposed union depot is located," said Councilman Dromgold, "but it should be located where there is plenty of room for tracks. We want what the people want. I have been in beautiful union stations in Boston, St. Louis and elsewhere where each train was backed up in the shed and its point of destination indicated by signs." He said railroads are willing to pay heed to the expression of sentiment of the public and he advocated as much publicity as possible to the present agitation.

Secretary Blanchard spoke of Charles Mulford Robinson's plans for a central station at the Fifth-street site and explained how a broad boulevard could be constructed at a comparatively slight cost from the depot as far as Normal hill.

All present advocated that pressure be brought to bear upon the railroads in some form or other and it was decided to send letters outlining the wishes of the citizens, to the presidents of the three railroads having terminals here.

## DR. RYLAND RESIGNS.

**Hollywood Pastor Accepts Call from Houston, Tex., Church—News Surprises Congregation.**

HOLLYWOOD, May 12.—The First Methodist Church South of the city is about to lose its pastor. Dr. E. P. Ryland, who has been with the church for the past two and one-half years, has accepted a call from St. Paul's Church, Houston, Tex., and will leave for his new field the latter part of this month. Dr. Ryland came to Hollywood from the Trinity Methodist Church of Los Angeles and has been successful in building up a very strong church organization here. He has for the past four years been president of the Church Federation of Los Angeles and has been active in political and civic affairs. The church to which he goes is one of the strongest in the Southern Conference of the Methodist church. His resignation came as a complete surprise to the members of his church.

## VENTURA.

VENTURA, May 13.—Ex-United States Senator Bard has given $250 to aid the summer camp of the boys of the Ventura county Y.M.C.A., and further agrees to guarantee all the expenses of the camp.

All kinds of fish, but especially barracuda are reported scarce in Santa Barbara channel waters this year. But some good catches of grouper have been made at the Anacapa Island banks.

### Plain Luck.

A casual blast of a grading outfit working on the county road in Tombstone Cañon, Arizona, may be the means of bringing the old Empire State, now idle, again into the limelight. Work on this property was suspended several months ago, lack of funds being given as the cause. A few days ago a large boulder on the land penetrated by the 900-foot tunnel, just below the big ledge, blocked the way of the graders making road improvements. This was blasted away, and found to be rich in silver and copper, and, like the body of the ledge, heavily impregiated with iron. Into the tunnel a constant seepage oxide-impregnated is encountered, indicating the substance to be in the ground above, now thought to come from the ledge. The original owners are preparing to put a little more money into development in view of the accidental discovery, and will exploit the ledge

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

PASADENA.

## MAY ABANDON FARELESS LINE.

SEEMINGLY USELESS SERVICE TO BE CUT OFF.

Pacific Electric Soon to Receive Fifty New Cars, Representing Expenditure of Three Hundred Thousand Dollars—Mrs. Burdette Much Better—Baker Injured.

Office of The Times, No. 24 S. Raymond Ave.

PASADENA, May 14.—H. E. Huntington upon his return from the East early next week, will, it is said, arrange for the abandonment of the old right-of-way on Columbia street and Fair View avenue, which has been so long maintained by the running of a "dinkey" two or three trips a day.

This seemingly useless service under which no fares are collected has been continued in order to abide by the provisions of the lease from the original owners, the Los Angeles and Pasadena Electric Railway Company.

In assuming control of the lines of this company the Pacific Electric entered into a bonded indebtedness of $760,000, deeds of trust for which are held by the Illinois Trust and Savings Company. It is understood that on his recent trip East Mr. Huntington negotiated the payment of $350,000 which is still due on these bonds and that as soon as the deed of trust is fulfilled the old right-of-way will be abandoned and the tracks torn up. It has long been Huntington's desire to give up the trackage, but the Pacific Electric could not do so and keep faith with the Los Angeles and Pasadena Electric Railway Company.

Officers in the latter corporation, of which C. W. Smith is still president, hold that the franchise has not been lived up. Residents of the southwest portion of Pasadena have long objected to the service on Columbia street, which was practically an abandonment, and maintain that there is strong need of a line west on Columbia street to connect with the one via Garvanza to Los Angeles.

MORE CARS COMING.

It was learned yesterday that fifty new cars, representing an expenditure of $300,000 are ready for shipment in St. Louis for the Pacific Electric Railway Company. They will be of three different types, the smaller ones for service in Pasadena, and others for use on the old Interurban lines in Los Angeles, but most of them will be of the No. 400 type, the largest car operated by the company.

TO AID INDIANS.

The recently-organized Indian Association of Southern California, through its officer, Helen Elliott Banning, is endeavoring to raise $100 to assist suffering Mojave Indians on the eastern border of this State.

The association expects that C. E. Kelsey of San José, appointed by the government some time ago to report on the Indian situation in California, and who was authorized to superintend the expenditure of appropriations amounting to $150,000, will visit Pasadena and deliver an address before some civic association here.

HURLED FROM WAGON.

Benjamin Smith of Pasadena avenue was hurled from the seat of a delivery wagon of a local bakery in Lincoln Park yesterday. The vehicle was wrecked and the horse injured by a piece of barbed wire which caught in its hind shoe and lashed him to frenzy as he ran away.

Smith's right arm and wrist were sprained and his left leg was seriously wrenched.

MRS. BURDETTE IMPROVING.

Mrs. Burdett, wife of Dr. Robert J. Burdette, is rapidly improving from the period of unconsciousness which she suffered in Dr. Burdette's study in the Temple Auditorium night before last.

Mrs. Burdette was brought to her home in Pasadena in an automobile yesterday morning, from the Auditorium, where she had been made as comfortable as possible under the care of physicians. She stood the journey very well and was awake and in good spirits most of the afternoon.

Dr. Burdette states that the temporary breakdown of his wife was due to the very busy trip East, during which she made a number of addresses and was "on the go" almost continually.

MINISTER BUYS ACREAGE.

Rev. Albert Hatcher Smith has purchased of L. P. Prichard eleven acres on the east side of Rose avenue, just south of San Pasqual street, for $13,-000. The holding is a fine piece of ranch property and will be developed as such by Rev. Smith.

UNIVERSALISTS TO MEET.

The Universalist State convention will convene here Wednesday, June 5, for a three-day session. On the opening evening the occasion sermon will be preached by Rev. Robert E. Benton of Riverside. The following evening will be devoted to a symposium on "The Message of Christianity to the Age," in which the principal local speakers will be Rev. Matt S. Hughes, pastor of the First Methodist church; Rev. Malcom J. McLeod, pastor of the Pasadena Presbyterian church, and Rev. S. G. Dunham of the Universalist Church. Friday evening there will be a discussion or platform meeting in regard to "The Call for a Militant Universalism."

BOARD OF TRADE BANQUET.

What promises to be the best annual banquet in the history of the Pasadena Board of Trade will be held at the Hotel Maryland tonight. President E. T. Off of the Board of Trade will introduce the toastmaster, Rev. Robert J. Burdette. After a response by Rev. Mr. Burdette the first toast of the evening will be responded to by Joseph Scott, president of the Los Angeles Board of Education. The second toast will be from Joseph D. Bradford, president of the California Bankers' Association, and then Rev. Albert Hatcher Smith, pastor of the First Baptist Church of this city, will respond. The last toast of the evening will be by G. Ray Horton, Deputy District Attorney.

MRS. KEESEY LOSES CASE.

Justice McDonald held yesterday that Mrs. Anna D. Keesey will have to bear the loss of $200 which she invested in mining stock for S. R. Crocker in a company that failed to "make good." The stock was never delivered to Crocker and the promoter failed to return the money. Mrs. Keesey acted as agent.

BRIDGE PARTY.

Mrs. Herman Randolph Hertel entertained yesterday afternoon with a delightful bridge party at her home on East California street. Pink and white sweet peas were used in profusion in decorating the great living-room where were awarded and the winners were Mmes. B. L. Richards, H. G. Smith, J. O. Seibert and B. O. Kendall. After the games refreshments were served at the card tables. Those present were: Mmes. J. Sherman Glasscock, Herbert C. Holt, Fred Nash, Mathew Slavin, Orcelia Hines, William Douglas Turner, Frank H. Loftus, James E. Parker, J. O. Seibert, Rudolph Schiffman, Rose L. Whitmore, Stephen Vavra, Frank Jones, H. G. Smith of Los Angeles, B. L. Richards, B. O. Kendall, and Miss Bassett.

Miss Elizabeth Speer of North Grand avenue gave a bridge luncheon, yesterday afternoon, complimentary to Miss Maud Daggett. Covers were laid for eight and the table was charmingly decorated with May baskets filled with Cecile Bruner roses. Present were Misses Daggett, Gladys Gardner, Genevieve Stehman, Cora Auten, Marjorie Bolt, Margery Sinclair and Emily Hibbard.

BARGAIN DAY.

Bargain Day proved a rushing success here yesterday. All stores offered "specials" and did a large volume of business.

Harry Dexter, manager of the Pasadena baseball team, is reported to be out of the game. Hen Berry is preparing to put a try-out team in Pasadena for the purposes of developing professional talent.

Co. I of the Seventh Regiment, N.G. C., has received notice that the annual encampment will not be held at Pomona, but probably at some town on the seacoast.

The Associated Charities will appoint a Finance Committee of representative citizens for the purpose of raising the $3000 which is annually needed to run the organization, and it is probable that the city will be asked to appropriate a part of this sum.

The estate of Col. Henry L. Titon, who died here two weeks ago, amounts to $15,000. A son is the sole legatee.

Phelps for wall paper and paints.

Artists' materials at Wadsworth's.

Hotel Vista del Arroyo. New Annex. Bungalows. Unexceptionable environment. Pasadena.

HAPPY FAMILY.

## THREE WEDDED, MORE AT HOME.

LORDSBURG SISTERS MARRIED AT SAME TIME.

Trio of Grooms Come from Kansas Where All the Young Folk Were School Chums—Ceremony in Accordance With Religious Tenets of the Dunkard Faith.

LORDSBURG, May 13. — Three bright-eyed girls, Dunkards, dressed in the peculiar habiliments of that religious belief, were callers at the Probate Court, Los Angeles, today. They hailed from Lordsburg, and were sisters—Clare E., Susie C. and Lizzie M. Neher, daughters of a substantial rancher here. Accompanying them were three stalwart sons of Kansas, who gave their residence as Fort McPherson, that State, and the object of the visit to the city was to secure marriage licenses for the whole party.

Ira C. Vaniman was to wed Clara E. Neher, Ernest D. Vaniman, and a brother of the first-named, was to marry Susie C. Neher, and Raymond C. Flory was to wed Lizzie M. Neher.

The story clustering about the romance began at Fort McPherson, where the Neher family lived for years and were among the best known in that part of the State. The young folks were school chums, and two weeks ago the men came to California to claim their boyhood sweethearts.

"It seems to me that the whole Neher family is to be married," said Clerk Loudenslager, to which one of the girls replied in a merry voice, "Oh, no; there are several more at home."

The triple wedding was celebrated at the Neher family home here tonight, in accordance with the religious tenets of the Dunkard faith.

WHITTIER CELEBRATION.

College Students Will Give Fancy Drills and Dances—Old-Timer Dies—Legion Officers.

WHITTIER, May 13.—Preparations are complete for Whittier College's celebration, which will be held at the college grounds tomorrow afternoon. The programme will be under the direction of Mrs. D. C. Andrews, teacher of physical culture and expression, and Miss Colla Carter, librarian of the institution. It will include a grand procession, with the figure 1909, fancy drills, vocal and instrumental music, and will close with the winding of the May pole by forty young ladies, in fancy costumes. The May Queen will be Miss Mary Emma Smith. The State School Cadet Band will furnish music for the procession, and Mrs. Paul Todd and Misses Scheurer and Reynolds will serve as accompanists for the fancy drills.

Stephen Peters, who had resided in this city almost from its organization about twenty years ago, passed away at his home yesterday, at the age of 64 years, from heart disease. Funeral services will be held at the Dunkard church, south of this city, Saturday morning.

Members of the National Protection Legion installed their officers for the coming year night before last, D. Reid and W. J. Sechrist being in charge of the ceremony. The new board is: W. J. King, President; Mrs. Arch. Wood, Vice-President; Mrs. Grace Beckmaster, Secretary; D. Reid, Treasurer; Mrs. Rose Donaghu, Conductor; Mrs. D. Reid, Chaplain; Mrs. N. F. Morris, Inner Doorkeeper; Miss Katharine Hood, Outer Doorkeeper.

SAN PEDRO.

SAN PEDRO, May 13.—The steamship Governor sailed yesterday for San Francisco and Seattle with 300 passengers. Among these were the following-named Angelenos: Mr. and Mrs. J. H. Vedder, Mrs. Anna Haskamp, Miss Agnes Haskamp, Mr. and Mrs. W. L. Anderson, Mrs. Frank Wiggins, Mrs. Laura Wiggins, Mrs. Charles L. Wilson, Miss E. Conger, Mrs. John Alton, Mr. and Mrs. F. W. Allison, Mr. and Mrs. P. C. McGregor, J. H. Wilson, J. G. Orr, Lester E. Glenn, Mr. and Mrs. G. A. Ramsey, Mr. and Mrs. C. W. White.

Trade That Pays.

Young men to learn to operate the linotype machine; a good trade that pays above the average. The Mergenthaler Linotype Company is installing over 100 linotype machines per month. That means just so many positions to be filled at good wages.

The Los Angeles Times has installed a large auxiliary plant, to be used in case of fire or accident, and has placed in charge an expert machinist and operator, making it possible for students who so desire to learn either trade (linotype machinist or operator) in from three to six months. For terms address THE TIMES-MIRROR COMPANY, or 'phone Main 8200, Home 10091, and ask for manager of the Linotype School.

UNMANNED.

## HELD TO ROCK AS TIDE RISES.

TERRIFYING IS EXPERIENCE OF WYOMING VISITOR.

His Fingers Caught in Vice by Big Abalone and Is Kept Prisoner While Waves Reach Above Knees. Shock to Nerves Results in Collapse—Long Beach Notes.

LONG BEACH, May 13.—Roy Spratley, a visitor from Wyoming, is confined to his bed with nervous collapse, the result of a terrifying experience yesterday. Spratley went over to White's Point to gather shells, and reaching under a rock to gather what he thought was a turtle shell, found his fingers caught in a vise by a big abalone. After trying to break loose he used his pocket knife to pry open the shell, but broke both blades. To add to his terror the tide began to creep up around his feet, and then up to his knees. For two hours he was held prisoner and then his cries were heard by a Japanese fisherman, who hurried down the rocks and succeeded in releasing him. He was not injured, but the shock to his nerves was demoralizing.

CARR'S LATEST CRIME.

Gradually the truth of young Roy Carr's travels since he jumped his bail two months ago is coming out He is now probably in Honduras, but before he left the United States he committed one more crime, as is shown by a check which arrived from New York, drawn on the City National Bank of Long Beach, Carr having induced Morris Rubin a pawnbroker of New York to cash it and then left next morning on a steamship. The check is dated April 29 and has been returned marked "deposit attached and no funds." The deposit is only $25.

Carr was on San Clemente Island as late as the 23d ult., when a launch called for him, and he went to San Diego, expecting to become interested in the race track at Tia Juana, but he took alarm and left for New York.

ATTACKED BY DOG.

John J. Dudley, a merchant of West Long Beach, was attacked this morning by a setter dog belonging to James Hutchinson. He was bitten three times on the right leg above the knee, and was thrown down. Assistance arrived and the dog was driven away. A physician cauterized the wounds, which were deep and ugly.

SYSTEM OF MARKING.

The Board of Education devoted four hours last night to a discussion of the system of markings introduced by Superintendent Graham, by which the salaries of teachers are fixed according to their grading by the school principal. Several teachers felt they had been treated unfairly and resigned. Parents of the children under them filed a protest last night and two of the teachers were reinstated. The board, however, voted down a resolution adopting a new set of markings, and the old system will be continued, although it is not popular with the patrons of the schools.

City Engineer Dewey reported to the City Attorney today that he would not have his report on the estimated cost of acquiring of water frontage and the building of docks ready in time for the introduction of the proposed bond ordinance next week. It will be ten days before he can complete his report.

SEAL ON CAR TRACK.

When Motorman Wilson on the 8:20 a.m. Alamitos Bay car saw a black mass on the track ahead of him at Avenue 17, he threw on the air with a suddenness that startled the conductor and passengers who piled off to investigate. They found a big brown seal waddling across the track en route from the ocean to the inner bay.

For best values in orange groves see A. W. Richards, Claremont.

CHAMPION WALKER LEAVES.

Familiar Figure Departs from Soldiers' Home—Woman Born in Ox Cart Dies at Sawtelle.

SAWTELLE, May 12.—George Crosby has departed from the Soldiers' Home and will hereafter be affiliated with the retreat for veterans at Togas, Me. Crosby held the record at this branch as the champion walker, he having each day, for many years, covered the distance between Sawtelle and Los Angeles and return. He was a familiar figure along the tracks of the trolley line and every motorman honored him with "two bells." On rainy days the veteran spent his time in walking through the corridors of the barrack, taking as many steps as would have been required in making the round trip to Los Angeles.

Men and teams are at work under the direction of the Supervisors in building the new boulevard that is to connect this city with Beverly. The road is to parallel the double tracks of the Los Angeles Pacific Company's trolley line and will be an extension of Santa Monica's Oregon avenue from the seashore through Sawtelle to the foothills. This will be the last link in one of the most direct routes from Hollywood and Colegrove and Sherman to the sea.

Rhoda Kansas, wife of John C. Fox, who died this morning at the family home on Ninth street, was 52 years of age. She was born in an ox cart, while the family was crossing the plains of Kansas. Two weeks later the immigrant train was attacked by the Indians. Several persons were killed and during the fight the Indians stole the baby girl and escaped with her. Her father went in pursuit, and armed with only a blacksnake whip overtook the kidnaper, killing him with the whip, and rescued the baby. Mrs. Fox leaves a brother, the Sheriff of Imperial county, and a widower.

SIERRA MADRE.

SIERRA MADRE, May 13.—The Board of Health last night considered a report that the water supply of this section is being contaminated along the streams that feed into the main reservoirs of the city. A committee, with City Attorney Madden, will make a thorough inspection and take immediate action to remedy any evils that may exist. Many campers in the cañons and foothills do not realize the importance of sanitary measures along these streams, and it is from this source that trouble has originated.

One of the largest gatherings this city has seen attended the laying of the corner-stone of the Woman's Clubhouse. The speech of the retiring president, Mrs. Charles E. Bentham, was the feature of the day. Addresses were also made by Father Barth, Mayor Jones and President Keys of the Board of Trade. The last dance of the club, before taking up quarters in the new clubhouse, is to be given at the Town Hall on the 28th inst.

Do not neglect that cough as delays are always dangerous. Try Chamberlain's Cough Remedy. It is pleasant,

Operetta Principals.

Miss Adele Hauxhurst, above, and Mrs. Alfa Wood Anderson, leading figures in performance to be given at Redondo Beach tonight.

WILL CHARM WITH MUSIC.

Entertainment to Be Given at Redondo Beach Tonight for Benefit of Playground Fund.

REDONDO BEACH, May 13.—"The National Flower," a three-act operetta, is to be presented by local singers tomorrow night at the Flower Festival in the pavilion. Sixty singers are in the cast. Mrs. Alfa Wood Anderson, musical instructor of the public schools, who is staging the opera, assisted by Misses Adele Hauxhurst, Jennie Miller and Georgia Burke, has trained the choruses. The last dress rehearsal was held this evening. The leading part is to be taken by Miss Adele Hauxhurst, who possesses a rich mezzo-soprano voice and is a favorite here.

The Executive Committee in charge of the festival, composed of Mrs. E. L. Chrisman, Mrs. W. A. Anderson, Misses Hauxhurst, Miller and Burke, has spared no efforts to make the entertainment a success. The proceeds are to be used for a fund to equip public playgrounds by the Parent-Teachers' Association.

The large pavilion, which is now in readiness for the entertainment, has been transformed into beautifully flower-decked booths. A Japanese tea garden, with girls in Japanese costume, a bower where "Sybil of the Leaves" will tell fortunes, a flower exhibit and one of art work of the public school children will be features of the festival.

Pollough Pogue, a magazine writer and newspaper man, has taken a cottage here, and, with his young wife, is living in seclusion. Mr. and Mrs. Pogue came to Los Angeles a little over three weeks ago from their home in Toronto, Can., and a few days later visited Redondo Beach on a pleasure excursion. They were so charmed with the seaside town that they have remained here since.

LEAGUERS PLAN FUN.

Epworth Convention Will Hold Picnic and Basket Dinner at Rustic Canyon Next Week.

SANTA MONICA, May 13.—For the district convention of the Epworth League, which is to be held at the Methodist Episcopal Church here the 22d and 23d inst., the programme is being arranged. The afternoon of the first day will be devoted to a picnic and basket dinner in Rustic Cañon. Music will be furnished by the Woman's Glee Club of the University of Southern California. It is expected the convention will be attended by 150 delegates.

Barta Naeves, head of the Board of Public Works for Brazil, telegraphed today from Knoxville, Tenn., that he would soon arrive in this city for the purpose of making an inspection of the municipal magneto-electrolytic sewage purification plant.

The annual High School play, "College Chums," will be presented tomorrow night at the North Beach Auditorium.

GO OVER ROUTE.

The Automobile Road Race Committee and the local committees of citizens and officials met this afternoon and went over the route of the July road races. The purpose was to locate the grand stand. This will be placed on Ocean avenue, in the Palisades just above Montana avenue.

Many dates are being selected by fraternal, commercial and religious organizations for annual picnics. The Santa Monica Methodist Sunday-school will enjoy its outing in Rustic Cañon, July 1. The merchants' trade organizations of Los Angeles have decided to unite in one great picnic, to be held at Venice, September 9. Former residents of Illinois are arranging for a basket picnic and all-day reunion at Playa del Rey, the 29th inst.

The Santa Monica baseball aggregation will go to Covina Sunday. The return game will be played here on the following Sunday.

MANY REPORTS RECEIVED.

W.C.T.U. Convention at Pomona Hears Official Statements and Elects Officers for Year.

POMONA, May 13.—The Bible study session at the W.C.T.U. convention this morning was conducted by Mrs. Emma Read, State vice-president, of San Diego. Then followed the report of the Finance and Appopriation committees. At the different superintendents' conferences, Mrs. Marion T. Boyd reported for the lecture bureau; Mrs. C. H. Anderson for the work among the miners; Mrs. R. J. West upon anti-narcotics; Dr. Laura M. Locke on medical temperance; Mrs. Ada R. Hand upon health and heredity; Mrs. Vina L. Elder upon hospital; Mrs. Laura T. Carter upon the flower mission; Mrs. D. M. Barns for the penal and reformatory department; Mrs. Etta B. Taft upon Christian citizenship; Mrs. C. H. Fitzgerald upon rescue work, and Mrs. E. L. Wood upon purity work. Other participants in the programme were Mmes. Angie Hiller and Estella Ord. This afternoon the Bible temperance lesson was read by Mrs. Julia D. Phelps of Los Angeles. Mrs. Ada R. Hand spoke for the Ransom Home, and a bill for equal suffrage was introduced by Mrs. Fannie Gleason. "How to Make the Wheels Go Round" was the subject handled by Mrs. Mary A. Sampson, the corresponding secretary. Mrs. Allie A. Somes presented the cause of the Union Signal and Mrs. Fannie L. King told of her experiences as State organizer. Three prize essays upon the subject, "The Value of Total Abstinence

TUMOR OF FOUR YEARS GROWTH

Removed by Lydia E. Pinkham's Vegetable Compound

South Bend, Ind. — "Lydia E. Pinkham's Vegetable Compound removed a cyst tumor of four years' growth, which three of the best physicians declared I had. They said that only an operation could help me. I am very glad that I followed a friend's advice and took Lydia E. Pinkham's Vegetable Compound, for it has made me a strong and well woman, and I shall recommend it as long as I live."—Mrs. MAY FRY, Lindley, Ind.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy—tumor. If you have mysterious pains, inflammation, ulceration or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation, but try Lydia E. Pinkham's Vegetable Compound at once.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and such unquestionable testimony as the above proves the value of this famous remedy, and should give confidence and hope to every sick woman.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

Anty Drudge at a Wedding.

*Anty Drudge*—"My present is a homely one, Dearie, just a box of Fels-Naptha soap. But if you use it in the Fels-Naptha way, it will lighten your work and bring more happiness than any silverware or bric-a-brac."

*The Bride*—"Thank you truly, Anty Drudge. I shall follow your advice faithfully."

Woman's work is being made easier. Take the weekly wash, for instance. It used to be an all day job, with the woman getting up at 5 o'clock in the morning to heat water for boiling clothes. Now, she washes with Fels-Naptha soap in cold or lukewarm water, and the whole washing takes little longer than half the time of the old way.

No boiling, no steaming suds, no hard rubbing; and the clothes are cleaner and fresher than ever before. Then, too, the clothes last longer when washed with Fels-Naptha—a lot of mending saved.

Follow directions for using Fels-Naptha on the red and green wrapper.

Comment is sometimes made that Fels-Naptha soap will not wash greasy dishes, pots and kitchen utensils without hot water. But those who understand how Fels-Naptha is to be used do all their kitchen work regularly with lukewarm or cold water.

HELPING HAND.

## SEEKS FRIEND'S MISSING SPOUSE.

CHICKEN RANCHER TRAILS RUNAWAYS TO FRESNO.

Wife of Well to Do Mill Valley Dairyman Disappears, Leaving Her Two Babies and Is Believed to Be on Her Way Here With Lover. Thousand-Dollar Pain.

[BY DIRECT WIRE TO THE TIMES.]

FRESNO, May 13.—[Exclusive Dispatch.] H. G. Wallace, a wealthy chicken rancher of Kerman, arrived in Fresno today and, with detectives, has been scouring the city for trace of Mary Amaral, aged 24 years, wife of Jesse Amaral, a dairyman of Mill Valley. At a late hour tonight no trace of the woman had been found.

It was ascertained, however, that George S. King, with whom the Amaral woman is believed to have left her home, called at the Wells-Fargo Express office and secured her trunk, which had been shipped to this city, under the name of M. Soares. Wallace says Soares is the name of a well-known business man of Mill Valley.

King is well known in Fresno, having married a local girl two years ago, and left for Sacramento. It is thought his wife is there at present. Mrs. Amaral is the mother of two small children.

After ascertaining tonight that Mrs. Amaral and King had registered at a local hotel, it was stated by the police that the couple had left for Los Angeles.

THOUSAND-DOLLAR PAIN.

Alleging that while employed by M. B. Percival last February she was so badly bitten by a vicious dog belonging to her employer, that she was permanently injured and deformed, Mrs. Annie Davis commenced suit in the Superior Court today for $3000. The sums specified in the complaint are: $40 for loss of time; $60 for physician's fees; $100 for terror and fear; $1000 for pain; $1800 for permanent deformities.

In the complaint Mrs. Davis alleges that Percival was in possession of a vicious dog at the time of the trouble. On February 18 Percival took the canine from its kennel in the back yard and chained it near the entrance to the house. Mrs. Davis states that on or about that time, while she was passing the entrance, the dog sprang at her and severely bit her on the arms.

CANCEL MANY CLAIMS.

Visalia Land Office Receives Notice of Many Important Changes in Land Entries.

VISALIA, May 12.—An important notice has been received at the local land office, involving a considerable number of entries in this district. A great many claims have been canceled, most of which are subject to reëntry. Following is the list:

Belmont Oil Company et al. vs. C. W. Clarke, involving forest land in the west half of the northwest quarter of southeast quarter of southwest quarter, and lots Nos. 7 and 8 of section 11-30-21. The land was found to be covered by a mineral entry, and was more valuable as mineral land. K. M. Lobb vs. Grace Gray, involving desert land entry for lots Nos. 2, 3 and 4, the northwest quarter northeast quarter, and west half southwest quarter of section 31-9. C. S. Campbell vs. George A. Ing involving desert land entry for the west quarter of section 33-16-15. C. Stillman vs. Raymond E. Ad involving homestead entry for the west half of northeast quarter of west half of southeast quarter of tion 2-16-15. Louis G. Nelson Thomas J. Hammond, involving land entry for northeast quarter section 14-21-18. G. G. Parsons Charles C. McCaleb, involving stead entry for southwest quarter section 4-19-17. C. S. Campbell Georgia S. Ingalls, involving land entry for northeast quarter section 33-16-15. Charles Raber vs. H. T. Fowler, involving stead entry for the northwest quarter of section 20-28-27. H. S. Richa vs. Joseph McIntyre, involving stead entry for north half of northeast quarter of section 34-18-15. George Wood vs. Augustus M. Hersey, involving homestead entry for the southeast quarter of section 33-15-13. George Wood vs. Robert M. Ellithrope, involving homestead entry for the southeast quarter of section 33-15-13. M. E. A vs. Myrtle Bassham, involving stead entry for the northeast quarter of section 19-15-15. United States vs. Lorne A. Campbell, involving stead entry for the northeast quarter of section 20-32-25. United States vs. Asker E. Service, involving homestead entry for the southeast quarter of tion 31-24-19. United States vs. S. Williams, involving homestead try for the northwest quarter of tion 12-29-22. United States vs. Jes Z. Curtis, involving homestead try for the north half of the southeast quarter of section 34-18-15. United States vs. William R. Odom, involving homestead entry for the west half of section 10-22-15. United States vs. Murray Martha Kerr, involving stead entry for the east half of east half of section 10-22-15. United States vs. Albert E. Kenney involving homestead entry for the east half of the northwest quarter and the south half of the southwest quarter of tion 10-22-15.

COREY SAILS FOR EUROPE.

Says Steel Business Is Improving Steadily and Approaching Normal Volume.

[ASSOCIATED PRESS DAY REPORT.]

NEW YORK, May 13.—William E. Corey, president of the United States Steel Corporation, sailed today on a vacation trip to Europe. He was a passenger on the steamer La Provence for Havre.

Mr. Corey spoke optimistically of steel conditions, and declared that with an early tariff adjustment and average crops a speedy return of prosperity might be expected.

"Since the early part of March," said Mr. Corey, "there has been a gradual and well sustained improvement in the steel industry in general, and this improvement has been particularly noticeable in the companies of the United States Steel Corporation. We are now working on a 70 per cent basis of normal capacity—the highest since October, 1907.

This improvement is due to a natural and healthy demand for steel products. There has been a gradual improvement in prices."

SOUTH PASADENA.

SOUTH PASADENA, May 13.—The claim of Mrs. T. P. Jackson for damages because the ground under her house caved in during a rainstorm last winter, has been rejected, City Atty. Carson having given it as his opinion that the city was not at fault.

Mrs. J. J. Young of Bank street has gone to San Francisco to attend the annual conclave of the Rebekahs, as a delegate of the South Pasadena Lodge No. 300.

The "evangelistic band" from the Y.M.C.A. of Los Angeles will conduct the services at the First Methodist Episcopal Church, Sunday.

Mr. and Mrs. Edward Paris Bosbyshell, No. 1910 Oak street, have issued invitations for the marriage of their daughter, Miss Elsie, to Ernest Bennett Adams of Los Angeles, June 1.

OCEAN PARK.

OCEAN PARK, May 13.—Francisco Gregoire, manager of the strand band, has submitted his ultimatum to the Band Committee. He says that after June 1 he must have $450 per week, or the music will stop. There is a great demand for musicians and he feels he can no longer take his chances of making both ends meet through voluntary contributions. The Seattle exposition, the coming of the Elks and the opening of the summer playgrounds at the beaches and in the mountains has sent the wages of musicians skyward.

GLENDORA.

GLENDORA, May 13.—George Reed has sold his eleven-acre tract one-half mile west of Glendora, set to four-year-old navel and Valencia oranges, to David Sinsley of Lincoln, Neb.; consideration $11,000.

Chief Engineer Pillsbury and Assistant Simkins of the Pacific Electric Railway were here yesterday inspecting the proposed extension of the line from Glendora east one and one-half miles to the rock quarry, owned by a Los Angeles syndicate which offers to furnish road rock to the county on liberal terms.

Elder W. H. Wertenbaker of Los Angeles is conducting revival meetings at the Brethren Church.

SAN DIEGO.

## DOES NOT MEET REQUIREMENTS.

INDICTMENT AGAINST CHERRY IS FAULTY.

County Auditor Not Likely to Be Tried on Charges of Graft While Member of Board of Supervisors. Woman's Queer Story of Murder Is Not Believed.

SAN DIEGO, May 12.—It is probable that County Auditor Cherry may not be tried on the indictments returned against him by the grand jury, on the contention of his counsel that the first indictment taken up in court this morning was illegally drawn was upheld by Judge Lewis.

There are nine separate indictments, and arguments are to be made on each separately. Attorney Eugene Daney, representing Cherry, contends that as he is at fault, and as all are drawn alike, the decision of the court in setting aside the first one indicates that the others will meet a similar fate.

It is understood that the indictments do not meet the requirements of the penal code. Cherry was indicted on nine counts on charges of embezzling about $500 of the county road funds while a member of the Board of Supervisors, through alleged padding of the pay rolls.

FOR WOMAN'S SAKE.

A romance of the South Seas, involving the sacrifice of his citizenship by A. J. Stevens of San Diego, was told today at San Francisco by arrivals from Tahiti on the steamer Sonoma. Stevens, who was a passenger on the outward-bound trip of the steamer, visited the home of Chief Pomare in the town of Papeete, where he met Miss Julia Drollet, who is half French and half native. They became engaged, but could not get married, as the law requires a residence of six months on the part of a foreign woman desiring to wed a native woman. Stevens decided to return to the island, and before the vessel sailed on the return voyage he had applied for the necessary papers so the marriage can take place in September.

SAYS NOT GUILTY.

When Charles R. Swaile was arraigned in Superior Court yesterday morning to answer to information charging him with dynamiting the residence of F. W. Dickenson, he pleaded not guilty, and was represented by an array of some of the best legal talent in the city. At the time of his arrest Swaile confessed to detective Lynch that he placed the stick of dynamite that he confessed to have placed on Dickenson's porch for the purpose of intimidating the latter, as he refused him to trade back property belonging to Swaile under a forced sale. Swaile's trial will come up June 8.

CLERGYMAN LECTURES.

Rev. Matt S. Hughes, D.D., pastor of the First Methodist Church of Pasadena, arrived here today for the purpose of conducting a series of lectures under the auspices of one of the local churches.

The Chamber of Commerce has been asked to postpone its proposed excursion to the Imperial Valley until Monday, May 29.

UNLIKELY YARN.

A woman giving the name of Mrs. Smith, who says she lived here with a man named Joseph Lucas, whose remains the Coroner held an inquest this morning, testified that two years ago Lucas killed a man at Agua Caliente named "Shouty" Murphy. No San José police report that there is any record of the alleged murder, nor is stock is placed in the woman's story, where she went under the stage, where she went under the name of "Madame Modessa."

BRIEF WILL BE HIS STAY.

Former Chauffeur Returns to Santa Barbara to Arrange for Removal to Los Angeles.

SANTA BARBARA, May 12.—[Exclusive Dispatch.] H. Keno Marble, the former chauffeur for Senator James F. Shaw of Los Angeles, who eloped from that city with Mrs. Shaw and her son, two years ago, and was found in her company here, returned to this city yesterday, where he came to complete details of the sale of his picture show at La Petite Theater.

Marble said he had finished with his business here, and would leave today for Los Angeles, where he will go into business. Mrs. Shaw, according to her father, H. Fisher of the multi-millionaire brewer firm of the southern half of the southern section 23-18-15. Daniel R. # THE MARKETS.

## LOCAL PRODUCE MARKET.

The first gooseberries of the year arrived yesterday from Oxnard. They were still a little green, but in excellent condition otherwise and sold at 12½ cents a pound. Blackberries were of good quality and sold at 10 cents. Strawberries were more steady but unchanged. Raspberries were really abundant and in good demand.

The first cucumber arrival came from Texas—the first cucumbers of the season from that State. Only 10 boxes were sent and they sold very rapidly ranging in value from $1.50 to $2 a dozen. A shipment of from $1.00 to $1.50 over the local hot house grown cucumbers which have supplied the market right along. With the arrival of the cucumbers came others. The price of this vegetable declined as a result to 25 cents a pound, from 40 cents, which was the standard figure on Florida cukes.

Tomatoes also arrived the first of the year. They sold for 15 cents and reports have it that the berries of this variety will be plentiful.

Eggs were in good demand. There were the usual offerings of eastern storage and case count local with a few sales of both kind. No changes were marked in any prices and the market was steady with the small receipts of only 260 cases.

Butter arrivals for the day were 30,927 pounds. The market was steady with fair demand.

Cheese was better than on the previous day. Some sales of northern fresh and eastern daisy were reported on the street. Arrivals were 223 pounds.

Potatoes arrived were the smallest in weeks, only about 50 sacks were shipped in, there having been some delay on one of the boats from the north. Highlands were the best sellers and a car of the same sold on the street at $2.50 a hundred. New spuds are really beginning to cut some figure on the market and the rose advanced to $1.50 per lug box with good demand for them.

Two cars of Bermudas came in and prices ruled declined as a result. Both Texas and Arkansella onions came down to a flat $1.00 a crate and there were not a few dealers who offered stock below that low price. White wax sold down to $1.30 a crate.

Nearly 100 sacks of beans were received from Ventura district. This made no appreciable difference in prices. Some limas were fine. Summer squash were down to 90 cents a box with a range of 10 cents up. Asparagus made the first rise of the season, going back to 10 cents on the best green grass. Peas and beans were unchanged.

### Prices Current.

EGGS—Fresh California ranch, candled, extra selects, 28; selected, 26; fresh ranch, local case count, buying price, 22½; selling price, 23½; northern, candled, 25; northern, candled, 23½; eastern, candled, 28.

# THE WEATHER.

### Yesterday's Forecast and Report.

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, May 13.—[Reported by A. G. Wachter, Local Forecaster.] At 8 o'clock a.m. the barometer registered 29.94; at 5 p.m. 29.86. Thermometer for the corresponding hours stood at 62 deg. and 74 deg. Relative humidity, 5 a.m., 77 per cent.; 5 p.m., 37 per cent. Wind, 5 a.m., northeast, velocity 4 miles; 5 p.m., southwest, velocity 7 miles. Maximum temperature, 76 deg.; minimum, 54 deg. Rainfall for season, 13.07 inches; rainfall last season to this date, 21.71 inches. Barometer reducing to sea level.

A storm that has been central over the Rocky Mountain region for the last several days has caused unsettled weather and more than the usual amount of cloudiness in Southern California during the last several days. Rains have occurred in the mountain districts during the last twenty-four hours, and at Redlands half an inch fell Wednesday afternoon. This is the only precipitation, however, reported over the citrus belt. The pressure distribution over the Pacific slope this morning is favorable for generally fair weather, with some cloudiness at intervals tonight and Friday.

FORECASTS.

Los Angeles and vicinity: Generally fair, with some cloudiness at intervals, tonight and Friday; south to west winds.

SAN FRANCISCO, May 13.—No rain was reported in California today. Forecasts:

San Francisco and vicinity: Fair Friday, with fog in the morning; fresh west winds.

Sacramento Valley: Fair; continued warm; light north winds.

San Joaquin Valley: Fair; continued warm; possibly showers in the mountains; brisk west winds.

Los Angeles and vicinity: Cloudy; light variable winds, changing to southwest.

Arizona: Fair Friday and Saturday; not much change in temperature.

YUMA (Ariz.) May 13.—[Exclusive Dispatch from the U. S. Reclamation Service.] Gauge height Colorado River, 21.85 feet.

## RUMORS FLOAT AROUND MARKET.

ANTHRACITE GROUP OF ROADS FAVORITE SUBJECT.

General Tone Proves Firm, But Movement Is Narrow and Prices Give Way After Holding Steady All Day—Harrimans Meet With Selling Pressure.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, May 13.—The largest part of transactions in stocks today was made in behalf of selected securities. Many rumors lacked circulation, but none was confirmed. The anthracite group among the railroads was the favorite subject of these rumors. The favorite story was that the coal mining properties would be separated from the roads and in this way distributed to the railroad stockholders. The assertion that an increase of Delaware and Hudson dividend was imminent was met with the explanation that this company declares a full year's dividend in January for quarterly distribution, leaving no reason for a decision on the subject earlier than next December. The general tone of the market was firm, but the movement was marked by irregularities. Prices gave way at the last after holding steady all day. The Harrimans started the day but met a selling pressure, such as was not in evidence in these stocks for some time.

The reviews by accepted authorities on iron and steel trade conditions were regarded as indicating a more confident feeling that the worst of the more concerning the outlook for resumption of negotiations for further large exports of gold, both to Paris and South America, not confirmed, although the foreign exchange rate was firmer, and private discount was high both in London and Paris. The money market here was reported a trifle easier, but no quotable change in rates. The feature of the speculation in view of the favorable signs in the market was exemplified in the fact that the two in which prices gave way at the close were closed weak. Bonds were irregular. Total sales, par value, $5,913,000. United States bonds were unchanged on call.

HEAVY OPENING AND STEADY CLOSING IN CHICAGO PIT.

Top Point for July Reached at $1.13¾, from Which Prices Sag on Profit-Taking — Corn Develops Strength During Final Hour and Holds Up Oats—Provisions Firm.

[ASSOCIATED PRESS NIGHT REPORT.]

CHICAGO, May 13.—The report of rain in Kansas and Nebraska was the incentive to sell wheat early in the day and as a result sentiment was decidedly heavy during the first half of the session. Before the end of the first hour, July had declined to 1.11¾. Owing to this, selling was general and initial quotations showed losses of ⅞ to 1 cent, compared with the previous close, July opening at 1.12¾ to 1.12⅝. The top point for July was reached at 1.13¾. Prices ranged somewhat from the top on profit-taking, but the close was about steady, with July at 1.12¾.

Corn was weak early in the session, but developed material strength during the final hour. The July delivery sold between 68⅝ and 69⅛. The market closed strong, with prices unchanged to ⅛ higher, July being at 69⅛.

The late bulge in corn had a strengthening effect on the oats market and the market closed steady, with prices unchanged to ⅛ higher.

Provisions were firm all day. At the close, prices were up 5@7½ to 12½.

Cash quotations were as follows: Flour, steady. No. 2 rye, 82@83. Feed or nuring barley, 65@72½; fair to choice malting, 71@ 72½. Flax seed, No. 1 Southwestern, 1.59½; No. 1 Northwestern, 1.60½. Timothy seed, 3.50. Clover, 9.35. Mess pork, per bbl, 18.15@18.25. Lard, per 100 lbs., 10.65@10.67½; short ribs, sides, (loose,) 10.05@10.15; short clear sides, (boxed,) 10.37½@10.50.

### Grain Movements.

| Articles— | Receipts. | Shipments. |
|---|---|---|
| Flour, barrels | 31,500 | 29,200 |
| Wheat, bushels | 216,800 | 81,700 |
| Corn, " | 92,500 | 130,700 |
| Oats, " | 177,100 | 284,100 |
| Rye, " | | 10,000 |
| Barley, " | 60,000 | 30,000 |

### Grain Statistics.

CHICAGO, May 13.—Total clearances of wheat and flour were equal to 375,000 bushels. Primary receipts were 291,000 bushels, compared with 358,000 bushels the corresponding day a year ago. Estimated receipts for tomorrow: Wheat, none; corn, 85 cars; oats, 137 cars; hogs, 14,000 head.

### New York Cotton Market.

[By Private Wire to E. F. Hutton & Co., Members New York Stock Exchange, No. 111 West Third street.]

NEW YORK, May 13.—Early cables are not up as much as due. Feeling here is still bullish on outlook, and 11 cents for January is predicted. It is claimed Theo. H. Price sold last night around the close, although no was out with a bullish circular. There is better spot demand and prices are firm. While we will no doubt have an active market today, after the raid of past two days, I would not ignore profits on any further advance.

Logan & Bryan's letter follows: "The best purpose the recent sharp advance in cotton has served has been to call attention to the speculative enthusiasm. Present prices are fully warranted, and present prices have served another purpose of stimulating trade conditions in the manufactured product. Shorts were afraid to sell, and but little long cotton was left to be liquidated except professionals who have a somewhat unwarranted confidence in their rapidity of movement. The weather conditions in the southwest are intensely bullish and promise almost a calamity unless immediate and well distributed relief is had. Spot markets kept pace with the contracts, and there seems but little desire to ship cotton to this market to be tendered. At the moment it looks a purchase on every setback of 20 points from any high level."

Cotton Weather—South, generally clear to partly cloudy, 60 to 68.

Forecast—Central and Eastern belts, fair all States except showers in East Florida.

WORDS—WORDS.

# IN ELOQUENCE WILL BATTLE.

*War of Alienists Ends and Argument Begins.*

*Long Fight for Life of Boy Nearly Finished.*

*Mitchell's Fate in Hands of Jury by Tonight.*

Both sides rested yesterday in the trial of William C. Mitchell, charged with the murder of Cecil Thayer. Argument will begin this morning before the jury, and it is expected that the case will be submitted late today. In case Deputy District-Attorney North and Attorneys Dehm, Walter and Pratt, for the defense, do not finish this afternoon, Judge Willis intimates that a night session will be held.

The day was devoted to rebuttal of testimony for the defense by the prosecution. Deputy District-Attorney North placed on the stand four well-known local physicians to offset the two used by the defense, to answer hypothetical questions.

The hypothetical question propounded by the prosecution was about as long as that for the defense, but stated the facts from the point of view of the prosecution. Incidentally the hypothetical question propounded by the defense was also read to them.

The experts on insanity for the prosecution are Drs. G. W. Campbell, Granville MacGowan, J. H. Davisson and D. C. Barber. They all answered the questions by stating that the defendant was sane at the time of the shooting of Thayer.

PHYSICIANS TESTIFY.

Dr. Campbell acknowledged that he examines all cases for the District Attorney, but stated that 30 per cent. of them are really insane and never came to trial, while only in those cases where it is decided the prisoner is sane is a trial held.

The defense tried hard to break down the testimony of Dr. MacGowan, but could not get him to acknowledge that the prisoner was suffering from mental aberration on January 1.

"Do you recognize transitory insanity?" asked Attorney Dehm of the witness.

"I have heard of it," was the reply.

"Do you recognize it?"

"I could hardly say. The text-books do not describe it satisfactorily."

"Then you do not recognize it?"

"I do not."

"Can a man in a condition of frenzy distinguish between right and wrong?"

"Surely. Unless he is insane in the first place."

"Weren't these mental conditions which dominated the defendant, a form of insanity?"

"Not the least in the world."

"Don't you find these symptoms of insanity?"

"Sometimes."

DEFENDANT SANE.

Dr. Davisson replied to the hypothetical questions by announcing that in his opinion the defendant was sane. He was question much along the same line as Dr. MacGowan and his answers were practically the same. Both stated that there could be no insanity without a diseased condition of the brain.

Dr. Barber also said the defendant was sane, and in his turn was forced to undergo a rigid cross-examination, but without shaking his first expressed opinion.

At the conclusion of this testimony the prosecution announced that it rested. After a consultation the defense also rested.

At the morning session Deputy District-Attorney North recalled Mrs. A. J. Mitchell, mother of the defendant, over the objections and protests of the defense. The objections were overruled and Mrs. Mitchell was again cross-examined for the purpose of impeachment. She testified to the incident of the buggy ride when Ethel, her daughter, drove off with young Thayer, as having occurred in May, 1908. Mrs. Coulter stated it happened in November, 1907.

REBUTTAL WITNESSES.

Several witnesses, including D. W. Green, a newspaper reporter, and Miss Irene Coulter, as well as some policemen, testified that on the night of the shooting young Mitchell appeared to be calm and collected, and in no way acted irrationally.

Two witnesses were placed on the stand to testify to the character of Ethel. One of them, Martin Mares, stated that Guy Luther, the boy who introduced Ethel Mitchell to Cecil Thayer, showed him a letter from Ethel in which damaging acknowledgments were made. Earl Hitchcock, a waiter, said he had seen Ethel with Luther. Ethel had testified that she had not gone out with Luther.

A conference was held between the attorneys and Judge Willis as to the advisability of permitting women in the courtroom today, during the argument of counsel for both sides. It was finally decided that all women directly interested in the case would be admitted, but that all who were attracted simply by morbid curiosity would be kept out. The audience today will be limited to the number of seats.

HUNDRED PER CENT. NOTE.

**Paper Issued as Boyish Prank Turns Up After Thirty Years Demanding Millions.**

[BY DIRECT WIRE TO THE TIMES.]

ST. LOUIS, May 13.—[Exclusive Dispatch.] A note for 25 cents, to bear interest at the rate of 100 per cent., given by Charles L. Swarts of the Wertheimer Swarts Shoe Company, in a boyish prank, in payment of a wager with a friend thirty years ago, has turned up at Cleves, O.

George M. Welsh, of Cleves, a boyhood chum of Mr. Swarts, has the note, and in a friendly way has threatened to collect it from Swarts. Mr. Swarts is not alarmed over the possibility of its ever being collected. He declares that first of all 100 per cent. is not allowed by law as interest and again the note is outlawed.

Friends of Welsh have computed the interest that Mr. Swarts would have to pay Welsh at $365,435,756.50, should the note be computed annually.

Trade That Pays.

Young men to learn to operate the linotype machine; a good trade that pays above the average. The Mergenthaler Linotype Company is installing over 100 linotype machines per month. That means just so many positions to be filled at good wages.

The Los Angeles Times has installed a large auxiliary plant, to be used in case of fire or accident, and has placed in charge an expert machinist and operator, making it possible for students who so desire to learn either trade (linotype machinist or operator) in from three to six months. For terms address THE TIMES-MIRROR COMPANY, or Phone Main 8200, Home 1091, and ask for manager of the Linotype School.
